"All Work And no Play Makes Jack A Dull Boy"

The Editor does not believe in products in the United States as answering little attacks because late as 1890.

discussion of certain things do not advance religion, society or hern states is 33,000,000, while mankind, Ifthy enemy smitchee that of the United States was turn the other cheek but there only 50,000,000 in 1880. are fundamentals of humannature that some peope do not seem factures in the South is now 1912. to understand and some parts of \$300,000,000 more than the whole our nature that are as real as is country had invested in manuthe nose on one's face. We do facturing in 1880. This all not like to see any one attack shows the South is progressing; that which builds up and only a the people are making money person that believes in tearing they are waking up from their down can speak against these Rip Van Winkle sinmbering, things. and are going to work.

We once heard a man object To show how rapid has been to base ball because there was a this growth, the Government could get up and down with ease, and lot of swearing at base ball gam | crop reports show that the corn the bladder action was more regular es but we have heard men swear crop of the South increased 158,when the plow point struck a 000,000 bushels in 1910 over stump and jerked the man a- 1909, and the crop in North round. Accoording to the logic Carolina went from 48,000,000 in of the man, plowing should be 1909 to 57,000,000 bushels in given up because men swear at 1910. The average yield for the the plow. The analogy could be State has grown from 18.9 buscarried futher. When base ball hels in 1905 to 18.4 bushels in picnics and socials are carried to 1911, or an increase of about 5 an extreme we condemn them bushel in the six years, nearly a but when they only take off the bushel a year, and if the State edge of worry and such things grows corn on 3,000,000 acres, we believe in them. No one will this means an increase in the deny that man has a play part of corn crop of the State of about his nature and that there must 15.000,000 bushels in the period be some relevation in order that named. Another important fact we may work the better after is that in 1909 the Stat imported ward and the social life found in feed and food products to the picnics socials and games give value of \$60,000,000, and this the needed recreatison. was reduced by 1911 to \$39,000,-

- Take these things away and 000, you will find the boys and girls Th taking these things surreptiously The denial of healthy recreation, State is capable of sustaining its makes them take forbidden re present population, and under creation stealthly and the wild a higher state of cultivation. it Convention at Bakersville as breaks and wild oats sown are is capable of supporting a popu- delegates and represented Madioften times because you forbid lation many times what it is to-
