UNIVERSITY FACULTY'S HAZING INVESTIGATIONS LAID FORE COMMITTEE.

THE CASE REFERRED BACK

The Synopsis of the Circumstances Which Led to the Expulsion and Suspension of the Students,-President F. P. Venable's Report.

Raleigh.-After hearing the repor. of President Venable, and listening to the defense of D. L. McWhorter, a suspended junior, the executive committee of the University of North Carolina declined to go behind the faculty's probe in the matter of hazing last spring and this fall and referred such matters back to the faculty. President Venable made a lengthy report in which he said that the faculty, in investigations of hazing incident to the Rand affair, had learned that sophomores of the previous year had been guilty and these had, so far as was possible, been punished by suspension.

Hazing began at the university this fall even before registration day. The first Monday night of opening week some sophomores made freshmen dance. This was followed Tuesday and Wednesday nights, and on Thursday night, the night Rand fell from the barrel, three distinct incidents occurred. Freshmen were made to dance, Dr. Venable said, but in the investigation it was shown that no sophomores laid violent hands on the freshmen.

Seniors and other upper classmen interferred, and in one instance a sophomore drove a crowd from his room. Only 15 men, as far as could be learned, had been guilty of hazing. University men and others in Raleigh, it is said, do not approve of the faculty's action in going after last year's alleged hazers, believing it too farfetched. Those men suspended or Charles N. Goodnow, re-assigned, the expelled have been given the privilege of appealing to the faculty.

After the coroner's inquest and the meeting of the executive committee of the trustees the faculty made as thorough an investigation as possible not merely of the Rand hazing, but of all hazing this session and of the bazing last spring.

REMARKABLE PERSONALITY OF HARDIE

Snowy-haired, deep-chested, powerful, keen-syed, Keir Hardie, leader of millions of British working men, has just finished his third visit to America. The chairman of the Labor party in the house of commons is a strik ing personality-picturesque and un-forgettable. He came to attend the wedding of his son, who is in business

in Brooklyn.

At the age of seven Keir Hardie was set to work in a mine. His father had been a miner before him, his mother a working woman. In the mines he stayed for seventeen years. Today, fifty-six years old, he is the leading figure in Parliament in the fight for improving the condition of working people.

The muscular hand grasp with which he welcomes his caller is a reminder of the days when he used to swing a pick. There is warmth in it as well as strength, a warmth that bears out the steady, kindly gase from the man's eyes. Warmth and strength are Keir Hardle's character-

His countenance is patriarchal, a mass of white hair, like shredded wool, sweeps back from an astonishingly high forehead, a tremendous dome above the dark thatched brows. His face and forehead are ruddy with glowing health. His figure is not tall, but is erect and powerful, and the whole man radiates personality. A full-blooded man. His face suggests a dozen other great men: Tennyson, Lord Salisbury, James J. Hill, the railroad builder: Longfellow—men of great vision, great force, great human sympathy. His clothes are as simple as himself: a dark gray suit whose wrinkles show how friendly it is to its owner; a soft, white shirt, a soft collar, a soft dark blue tie, polka dotted, loosely knotted. He smokes a

And now the doughty old fighter takes what he believes to be only a temporary rest at the imperative or der of his physicians. The paper for which he has written so many pal pitating articles announces that no one replaces him. It says in effect what Jefferson replied when the French foreign minister welcomed him with the remark: "You replace Dr. Franklin." "No," replied the author of Jeffersonian simplicity; "no one can replace Dr. Franklin; I merely succeed him." As long as a

shadow of hope remains of his reappearance, no one will succeed Henri The old war horse of journalism is an Aix-les-Baines and he explains

Deputies, says Rochefort, have voted themselves old-age per age of fifty-five, on condition that they have served four years in the legislature. They take holidays around New Year's Day, Easter, the Fourteenth of July and Christmas. Altogether they serve about six months out of the twelve. "I do not count," he adds, "the time they spend in smoking-room and buffet, nor the hours they devote to writing love letters when parliament is in session."
