**Named Baby After President.**  
Mr. and Mrs. J. Y. Kyder, of Denison, Texas, have done their part to prevent race suicide by giving to their country three healthy boys, born October 29. The parents determined that if the baby should be a boy he should be named after the President elected on November 5. As triplets were born, there was no difficulty in realizing their ambition to name a child after the President-to-be. So they called one William Howard Taft Kyler, another Theodore Roosevelt Kyler, and the other Woodrow Wilson Kyler. The day before the election the parents sent a telegram to the White House, announcing the birth and names of their three boys, and Assistant Secretary Brahny sent back a telegram in the President's name, wishing the triplets long life and prosperity.  
**A Real Nobleman.**  
Peter Schofield is one of the real noblemen of the world, although he is only a Kansas farmer. One day the people riding by the little country schoolhouse near the home of Peter Schofield found the following notice tacked on the schoolhouse door:  
The Lord has spared my stock. My horses have gone through the epidemic without loss, and I have twenty head to loan to my less fortunate neighbors, without charge, for plowing. Those who need are welcome to them.  
This simple notice brought joy to many of the neighbors of generous Peter Schofield, for a stock plague had raged in the rural neighborhood and some of the farmers had lost all of their horses and were too poor to buy others. This plague was the worst disaster that had come to this part of Kansas since the days of the great pest of grasshoppers that swept thousands of acres of crops from the fields. This generous deed on the part of Peter Schofield proved that he was a man of a true heart and generous spirit, and all those who see things in their right perspective must agree with the writer who says:  
"No title is more adorning and no honor is more enduring than the generous impulse which inspired this man to become a benefactor to the distressed in his community." J. L. H.  
The above clipping taken from the Christian Herald might give every one of us a subject for thought. Are there at this Thanksgiving time any around us who may need us. Let's think of them.  
**Flagged Train With Shirt**  
Tearing his shirt from his back an Ohio man flagged a train and saved it from a wreck, but H. T. Alston, Raleigh, N. C., once prevented a wreck with Electric Bitters. "I was in a terrible plight when I began to use them," he writes, "my stomach, head, back and kidneys were all badly affected and my liver was in bad condition but four bottles of Electric Bitters made me feel like a new man." A trial will convince you of their matchless merit for any stomach, liver or kidney trouble. Price 50 cents at Triplet & Rector.
