

MRS. G. W. HALL SICK FOR YEARS

Wants Women to Know How She Was Made Well by Lydia E. Pinkham's Vegetable Compound

Lima, Ohio.—"Indeed, your medicine is all you say it is! I had very severe troubles such as women often have, and could do no heavy work. I was sick for several years, and from reading your ads. I finally decided to take Lydia E. Pinkham's Vegetable Compound. I am now doing my own washing, which I haven't done for several years, and can walk long distances without those dragging pains and weak feelings. The Vegetable Compound is fine, and I never forget to say a good word for it to other women when they say they need something."—Mrs. G. W. HALL, 639 Hazel Avenue, Lima, Ohio.

There are many women who find their household duties almost unbearable owing to some weakness or derangement. The trouble may be slight, yet cause such annoying symptoms as dragging pains, weakness and a run-down feeling. Lydia E. Pinkham's Vegetable Compound is a splendid medicine for such conditions. It has in many cases relieved those symptoms by removing the cause of them. Mrs. Hall's experience is but one of many.

Sympathy Astray.
It was Saturday night. In the gutter stood a large, red-faced woman. On her ample form was displayed a card, bearing the words: "Disabled Policeman."

Passers-by, stopping to read the card and drop coppers into the woman's outstretched hand, soon formed quite a small crowd, and at last the inevitable man-in-blue appeared on the scene.

"What is this?" he asked the woman, pointing to the card.

"It's all right, gov'nor," replied the woman. "I disabled him last night, so I'm just collecting the fine!"—London Answers.

Granulated Eyelids. Sties. Inflamed Eyes relieved overnight by Roman Eye Balsam. One trial proves its merit. Advertisement.

Aviation Then and Now.
The 1,000 horse power in the latest airplane engines would have made the dappled steeds of Phaeton look like a six-horse hitch on a rumbling circus car.—Indianapolis Star.

A MAN WHO BECAME FAMOUS

Doctor R. V. Pierce, whose picture appears above, was not only a successful physician, but also a profound student of the medicinal qualities of Nature's remedies, roots and herbs, and by close observation of the methods used by the Indians, he discovered their great remedial qualities, especially for weaknesses of women, and after careful preparation succeeded in giving to the world a remedy which has been used by women with the best results for half a century. Dr. Pierce's Favorite Prescription is still in great demand, while many other so-called "cure-alls" have come and gone. The reason for its phenomenal success is because of its absolute purity, and Dr. Pierce's high standing as an honored citizen of Buffalo is a guarantee of all that is claimed for the Favorite Prescription as a regulator for the ill peculiar to women.

Woman Judge Has Career of "Firsts"

Newspaper woman, teacher, investigator of immigration conditions, lawyer, assistant county prosecutor, and judge of common pleas court, are the steps which have led Florence E. Allen to an associate judgeship on the Ohio Supreme court, the only woman in the world to hold such a position. Miss Allen was elected by a plurality of 24,356.

Miss Allen has been practicing law in Ohio for the last eight years. From 1906 to 1909 she was on the editorial staff of the Cleveland Plain Dealer.

Her career has been a succession of "firsts." She was the first woman ever to be appointed an assistant prosecuting attorney in Cuyahoga county, and when elected to the common pleas bench two years ago, was the first woman to sit in a court of general jurisdiction in the country.

Independence of any party affiliation was stressed in her campaign upon "law above party," and "efficiency on the bench, by more business methods," were two points she persistently made. The woman jurist declared she would take office "with no other obligations than those I owe to the people I am to represent."

Judge Allen made her race as an independent from the start, securing nomination by petition, and carrying on her campaign through women's organizations in most of the counties of the state. She defeated Judge Benson W. Hough, Republican, a colonel in the One Hundred and Sixty-sixth Infantry, Rainbow division.

J. J. Tigert on Educational Problems

Assimilation of the foreign born, removal of illiteracy, adjustment of inequalities in educational opportunities and inculcation of proper ideals concerning the American form of government, are paramount problems which the educational forces of the country must meet, in the opinion of United States Commissioner of Education John J. Tigert, as expressed in his annual report.

"What we do or fail to do in public education," he said, "will largely determine the future of our experiment in democracy."

Informed leadership in dealing with these problems, the report declared, is needed more now than ever before. It was pointed out that while some of the states, through years of experience and consecutive efforts of trained leaders have accomplished notable achievements in various phases of educational theory and practice, other states are still seeking the answers to many of the same questions, and laboriously and at great expense exploring ground that has already been carefully charted.

To make its service more effective, the functions of the bureau are divided into four parts: Field service, research and investigation of special problems, educational surveys and dissemination of information. During the past year 41 surveys were made, including a state system of public schools.

Murdock of Federal Trade Commission

Victor Murdock of Kansas is now chairman of the Federal Trade Commission, succeeding Nelson B. Gaskill of New Jersey, whose term expired. Mr. Murdock is widely known, having served six terms in congress and as chairman of the Progressive national committee, 1914-16.

Notable features of the last year for the federal trade commission, as outlined in the annual report to congress, were the development of the law of unfair competition as exemplified by court decisions creating precedents for its further application and a number of important economic inquiries.

There was an increase in the number of foreign trade complaints, indicating a corresponding increase in the number and prosperity of foreign trade associations operating under the export trade act.

Petitions for relief from unfair competition numbered 1,065. A total of 111 formal complaints were issued, while 211 cases were disposed of, with orders in 97 to "cease and desist" unfair trade practices and dismissals in the remaining 114.

Reports were completed and filed during the year on inquiries into the export grain business, petroleum industry and tobacco trade.

Fall on the Nation's Natural Resources

Use and development of the country's natural resources under control of the Interior department have contributed in great measure to national stabilization and prosperity. Secretary Fall declares in his annual report. The secretary listed the more outstanding of these contributions as opportunities for home-making upon public lands by returned soldiers and other citizens; the discovery of new oil fields; development of existing fields and increasing production of oil and its products; the exploitation of coal deposits, and the opening of mines in the Western states.

Wider extension of the reclamation policy in former arid lands of the West was recommended in the report, and the total value of crops raised on reclaimed lands was estimated at more than \$475,000,000.

Education of Indians, which falls to the lot of the Interior department, has been greatly promoted. The attendance at Indian schools for the last year was 3,607, greater than in any previous year.

The total number of pensioners on the rolls was 547,016; the amount disbursed for pensions was \$258,907,583. A record-breaking number of applications for patents was received by the patent office, more than 113,500.

Is Winter Time Your Backache Time? Does Your Back Foretell Every Change of the Weather? Do You Feel Old and Stiff and Suffer Sharp, Rheumatic Pains? Then Look to Your Kidneys!

ARE winter months your backache months? Does every cold, chill or attack of grip leave you lame, aching and all worn out? Does your back throb and ache until it seems you just can't keep going another day?

Then look to your kidneys! Grip, colds and chills throw a heavy strain on the kidneys. They overload the blood with poisons and impurities that the kidneys have to filter off. The kidneys weaken under this rush of new work; become congested and inflamed.

It's little wonder, then, that every cold finds you suffering with torturing backache, rheumatic pains, headaches, dizziness and annoying bladder irregularities.

Don't wait! Delay may lead to serious or chronic kidney sickness. Realize that your kidneys have weakened in fighting the cold-created poisons and give them the help they need. Begin using Doan's Kidney Pills today. Doan's have helped thousands at such times and should help you. Ask your neighbor!

"Use Doan's," Say These Good Folks:

MRS. J. C. DONTIN, Elm St., Weldon, N. C., says: "I caught cold and it settled in the small of my back. No matter what way I moved, I had severe pains in my kidneys. My kidneys didn't act properly and my condition was bad. Nervous spells had me all unstrung and irritable. Doan's Kidney Pills were recommended so highly that I began taking them. Doan's entirely cured me and I recommended this medicine at every opportunity."

E. D. PURNELL, printer, 7th and Wash. Sts., Weldon, N. C., says: "I had dull pains over my kidneys, and often when I stooped over I could hardly straighten. My trouble was brought on by a strain. The least cold settled on my kidneys, making my condition worse. Friends recommended Doan's Kidney Pills so I began taking them. Doan's soon put my kidneys in good shape."

OVER FOUR YEARS LATER, Mr. Purnell said: "Whenever my kidneys don't act Doan's always put me in good condition."
