One's True Self.
The noblest thing you ever did, the noblest emotion you ever felt, the deepest and most self-sacrificing love ever in your soul, that is your true self still, through all the baser life into which you have fallen.—Phillip Brooks.

Thousands Have Kidney Trouble and Never Suspect It

Applicants for Insurance Often
Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent Life Insurance Companies, in an interview on the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease. Dr. Kilmer's Swamp-Root is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Advertisement.

Ancient Industries.
The art of tinning iron appears to have originated in the Sixteenth century, and tinplate was first manufactured in Great Britain in 1670.

Chess and Music Mixed.
Sir Walter Parratt, who is about to complete his fortieth year as organist at St. George's chapel, Windsor, is an enthusiastic chess player. On one occasion he undertook to play two men (in consultation) without looking at the board, while he himself played a number of pianoforte selections. The game lasted an hour and Sir Walter won handsomely.

When you have decided that the worms in your system must be exterminated, get "Good Bye"—Dr. Barry's Vermifuge, and you will find that one dose will expel them.

We all have a great deal to do, yet we manage to do very little.

Happy is the farmer who has no one to square himself with.

WINE Right and Wrong. Many a man has been ruined by drinking wine. If you are a man of sense, you will not touch it. It is a habit that is almost impossible to break.

SOLICITORS BILL PASSES HOUSE

SENATE PASSES BILL TO PROVIDE
HOSPITAL FOR TUBERCU-
LAR PRISONERS.

RECORD VOTE OF 72 TO 23

Bowie Railroad Bill and Martin Marriage Bill Pass Final Reading in House.

Raleigh.
Amended to provide a flat salary for solicitors of \$4,000 per year with \$750 annually for expenses, the Warren-Connor solicitors bill passed the house of representatives on the 1st reading by a record vote of 72 to 23, after another four-hour session of spirited debate, and the clincher was applied by Representative Townsend, of Harnett, who moved reconsideration of the vote by which the measure passed and the subsequent motion of Representative Connor, of Wilson, to table the Townsend motion, which carried. The bill now goes to the senate.

Representative Ferrell, of Forsyth, over the objection of the proponents of the bill, secured passage of his amendment which inserted the limited expense account clause, and the Connor amendment to abolish a provision in the bill that solicitors be paid \$50 a day for all over 90 days of session of criminal court went through after heated debate.

This was climaxed at the close of the session, when Representative Thurston, of Johnston county, who had announced that he would offer a substitute, charged from the floor that he had been discriminated against by Mr. Warren and Mr. Connor, who, he said, were in collusion to prevent him from being heard on the matter. Mr. Warren replied that such a charge was untrue, that no such thought had been entertained by himself or Mr. Connor, and expressed his high regard for Mr. Thurston.

Representative Warren, of Beaufort, led off with the discussion of the bill, explained its application, and urged that deep consideration by every member be given in an effort to reach an agreement on the bill, which would accomplish the end toward which it was aimed. Mr. Warren told the house the difference between the salaries of various state officers and the income the solicitors derived from their fees, which, he pointed out, were as much as two times more. He said that no county which had adopted a salary basis for payment of their officers had ever gone back to the fee system, and pointed out with facts and figures the amounts solicitors now derived, ranging from \$4,000 per annum up to \$18,700, owing to the size of the district and the number of weeks of criminal court.

Representative Connor, in support of the bill and his amendment, said that it seemed "pure nonsense" to pay a solicitor \$50 a day for work done over a period of ninety days after he had been paid more than \$44 a day for the ninety days period of court.

Representative Ross, of Moore, and Turlington, of Iredell, both led the opposition with the plea that the bill was not practicable and was not fair in certain of its provisions to the solicitors of the various districts.

The Martin bill requiring the filing of notice with the register of deeds eight days before license is issued, amended to apply only to persons under 21 years of age. The final vote on the bill was 55 to 38 after a motion to table had been killed by a vote of 51 to 47.

The battle developed nothing beyond demonstration of the utter impotence of the minority in the House. Representative Covles wanted a roll-call, and demanded it repeatedly, but at no time was there a sufficient sustaining vote to carry the motion, and he appealed in vain for a record.

A state-wide measure passing its third reading is that which provides for the building of a hospital for the treatment of tubercular state prisoners. The bill was amended before passage, placing the hospital's supervision in the hands of the board of directors of the state tuberculosis instead of leaving it under the control of the board of health, and cutting the appropriation from \$75,000 to \$50,000.

Gaining four votes and losing five after the membership of the House had slept over it for a night, the Bowie "Lost Provinces" railroad bill passed its final reading in the House, unamended by a vote of 55 to 45 and went its way to the Senate where its passage is expected by the author by a substantial majority.

"Volstead" Bill Reported Favorably.

Senate committee on propositions and grievances reported favorably the bill putting the Volstead act into effect in North Carolina. Harriet Clarkson, of Charlotte, chairman of the committee, appointed by the law enforcement convention to direct the advocacy of the bill, appeared before the senate committee. Mr. Clarkson also engaged the measure before the house committee. Mrs. E. W. Riblett also spoke for the bill as the representative of the women.

Orphanages Care for 2,940 Children.

In the 25 orphanages in North Carolina, 2,940 dependent children are being cared for at present, according to a survey of these particular institutions just completed and made public by the state board of charities and public welfare. The results, which have been tabulated, give a comprehensive view of how the orphanages are meeting the problem of the dependent child in this state and form a basis of recommendations for improvements.

These figures do not represent half the number of North Carolina dependent children, officials state. Because of lack of room, the orphanages are forced to turn away yearly more children than they can admit. Estimates from reports filed with the department place the total of the state's dependent children at 6,000 "at the very lowest."

A visit to every orphanage recently was made by Miss Mary G. Shotwell, of the bureau of child welfare, a part of the state board of charities and public welfare. The administration and work of each was studied and a full report written. To each superintendent was sent a questionnaire dealing with five phases of institutional management; administration, finances, number of children received and dismissed, education and physical care.

One thousand 456 hundred and eighty-one applications were received by the institutions in North Carolina last year, according to the survey, while only 431 children were admitted. Of the 331 children dismissed from orphanages during this period, "47 were graduated; 155 returned to relatives; 31 placed in homes; 23 secured positions; 21 entered college; 27 ran away; three sent to Caswell Training School; two died, and 17 were otherwise disposed of (no explanation of their disposition having been made by superintendents)."

Of the 2,940 children now in orphanages of the state, 2,869 were in school last year, distributed from the first to the eleventh grade. It was found that there is "marked decrease" in the number of children who are in grades higher than the sixth. Six institutions send their children to public schools in the community in which they are located. Three send their high school pupils to the city schools and two others receive salary from the county for one or more teachers employed in the orphanage school. The number of volumes in the libraries of the orphanages runs from 50 in the small home up to 3,000 in the larger, making a total of 15,059 in all the institutions, with a total of 120 magazines.

Seventeen of the 25 institutions require a physical examination of each child upon entrance; four have a physical examination at regular intervals and eight have regular dental examination. Only one orphanage, according to the survey, employs a director of physical education.

Planning Campaign Against Rats.

The agricultural extension service of North Carolina State college and the department of agriculture, in cooperation with the United States biological survey, is planning a state-wide campaign against rats. Nine counties already have been organized to conduct drives during the week March 5-10.

Workers of the extension service estimate there is a loss of five to 10 million dollars annually from rat depredations in North Carolina. Replies to circulars sent out by E. R. Ramey, of the farm engineering division, show an average loss of five per cent in corn kept in storage. This represents a loss of \$3,000,000 when applied to the state's \$60,000,000 corn crop.

"While the loss to corn probably represents the largest single damage, it is only a small percentage of the total damage," stated J. Silver, of the United States biological survey, who is in Raleigh to assist in the campaign. "Rats destroy all manner of farm produce from the time of planting until final consumption. These pests destroy by pollution 10 times as much as they eat.

"Losses in storage on the farm, in transit, in warehouses, in markets and in store all effect the ultimate price to the consumer. Nor does the loss stop with foodstuffs; all kinds of dry goods, furniture, other house furnishings and miscellaneous merchandise are constantly being destroyed by their incessant gnawing. Floods are caused by the rats gnawing lead pipes and by their burrowing in the embankments; foundations of buildings are weakened by their tunneling, while destructive fires often are caused by them.

"To this list of indictments, I also add the more serious one of their menace to the public health. The best means of getting rid of rats is the cooperative drive against them, followed by a general cleaning up and where possible, to guard against them in constructing new buildings and in making repairs," he said.

Interest on Notes Stopped October.

Holders of State of North Carolina 5.35 per cent notes need not hold these notes expecting to collect interest on them, says State Treasurer Lacy.

These notes mature in 1927, but under a contract set forth in the face of the note, were callable on October 1, 1922, by one month's notice. This notice was duly given through the press and yet quite a number of the notes are outstanding. One North Carolina bank overlooked the advertisement and last over a month's interest on \$100,000 of these notes.

Picnic Lemonade.

The lawyer was trying to make a point. He asked the witness if he had told everything and was told that he had.

"What did you drink at this party?" he asked.

"Water."

"Nothing stronger?" persisted the other.

"No."

"I ask you to refresh your recollection. 'Didn't you have lemonade?'"

"Yes, but I wouldn't call that stronger."

Mexico Has Bright Taxis.

Taxis in Mexico City, Mex., represent every hue of the rainbow. The colors include yellow, blue, white, brown, green, and variegated.

A cricket makes more noise than a hornet, but commands less respect.

YOU NEED CHENEY'S EXPECTORANT NOW!

If you are taking cold, head it off right now by taking Cheney's Expectorant.

Take a few doses every two hours apart and see how quickly you will get over that first chilly symptom of a cold and how brisk and lively you will feel later on. Your head will clear up, mucus stop forming, your throat will become easy and in a short while you will be feeling as well as you ever did.

Sold by all druggists and in smaller towns by general merchants in 30c and 60c bottles.—Advertisement.

Music in the Air.

New Boarder—See here, I thought you said this was a "walk-up" apartment.

Landlady—Sure I did; what's wrong with it?

New Boarder—Well, from the noise you hear in the morning, it ought to be called "wake-up."

Peppery Pulchritude.

"Bob's wife is pretty, but she has awful outbursts of temper."

"I heard she was a raving beauty."

IF SICK, BILIOUS! START YOUR LIVER

Don't Take Calomel! "Dodson's Liver Tone" Acts Better and Doesn't
Gripe, Salivate or Make You Sick—Don't Lose a
Day's Work—Read Guarantee!

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with sour bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad

or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight.

Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is entirely vegetable, therefore it can not salivate or make you sick.

Learn the truth about Fertilizer

Commercial fertilizer is not magic. It is no substitute for work, or for farming brains. It will not make a successful farmer out of a shiftless, ignorant failure. Fertilizer varies in quality like corn or tobacco or cotton, and some brands are worth more than others. Good fertilizers, like Royster's reliable old mixtures, are a godsend to good farmers who learn how to best use them to make money.

Each crop has its individual food requirements; different soils require different treatment. Every Royster fertilizer is a scientifically balanced food ration, compounded from the best materials obtainable in the proportions best calculated to supply the needs of the crop for which it is intended.

Nearly 40 years experience enters into the making of the Royster mixtures, and hundreds of thousands of the country's best farmers pin their faith to this famous old brand.

It's shortsighted economy to risk all the time, labor and seed put into a crop in order to save \$1 a ton on fertilizer. The most experienced farmers have decided that a fertilizer must have something beside price to recommend it, and they recognize that in the Royster trademark they have a guarantee of highest quality and surest results.

Remember, it is necessary to use sufficient fertilizer per acre to get worthwhile results. If you starve your crops you'll get the same results as if you starve your stock.

Unless a farmer is going to use Royster's fertilizers properly, we'd rather he'd misuse and abuse some other brand. We are proud of the Royster reputation for quality, and will preserve it in every way. To help our friends obtain the utmost in results we urge farmers to seek from us information about the proper use of fertilizer. Write freely for advice to Farm Service Department, F. S. Royster Guano Company.
