**HIS HEADACHES SOON HEADED OFF**

**Kentucky Man, Who Suffered With Severe Headaches, Says He Found Relief by Taking Black-Draught.**

Endicott, Ky.—Describing the trouble he used to have with headache and how he obtained relief by taking Theodor's Black-Draught, Mr. Jeff Jervis, of this place, says:

"I began having severe headaches. I can't tell just how they would begin, but soon my head felt like it would split open and I would be so sick I felt like I was paralyzed.

"I would have shooting pains in my neck, and if I turned my head I felt like it would crack at my neck. My eyeballs were sore and I would vomit. I would be 'torn to pieces' for a day or two. I would take headache medicine and feel so queer afterwards I'd be scared. I didn't feel right—I felt numb.

"I was telling a neighbor and he said: 'Get some Black-Draught and take a big dose when you feel a headache coming on.' I did it and took a few doses each night. Soon I had these headaches headed off. Now it is very seldom I have one at all. I just keep Black-Draught and use it when I need it. I don't let myself get constipated.

Theodor's Black-Draught has been found to relieve many of the symptoms described above, and others, when due to constipation or a torpid liver. It is a purely vegetable remedy, made from carefully selected herbs and roots, contains no dangerous drugs, and acts in a natural way on the system. Try it. Sold everywhere.

**Let Lydia E. Pinkham's Vegetable Compound Help You to Become Well.**

Thousands of girls have to work in homes, offices, stores, mills or factories who are physically unfit for work, with often an aged or invalid father or mother dependent upon them for support. Standing all day week in and week out, or sitting in cramped positions a girl often contracts some deranged condition of her organic system which calls a halt to her progress and demands restoration to health before she can be of use to herself or anyone else.

For these distressing weaknesses and derangements these girls have found health to do their work in Lydia E. Pinkham's Vegetable Compound.

Brooklyn, N.Y.—"The many girls I had troubles every month," says Carolyn Mangels, "and they interfered with my work as I could never be sure of my time. My mother often suggested that I take Lydia E. Pinkham's Vegetable Compound, but I never did until lately. I have had very good results, and am now a private secretary and do my work without missing a day. **Could Hardly Eat or Sleep Because of Chronic Indigestion—Now Praises Tanlac.**

W. N. Hatcher, 110 Lucile Ave., Greenville, S. C., is still another who has realized the wonderful merits of Tanlac. Mr. Hatcher has been a member of the Greenville Police department for thirty years and is one of the most efficient and popular officers on the force. In commenting on his experience with Tanlac Officer Hatcher said:

"I know many others, besides myself, Tanlac has helped and I am glad to speak out for it. I had suffered from indigestion and constipation for something like fifteen years. I had about reached the point where I could neither eat nor sleep, for every time I ate it hurt me and the misery kept me awake at night. I had lost energy and strength until when my day's work was over I would feel completely played out."

"I now eat anything I want, always have a fine appetite, and have gained eight pounds. I am certainly thankful to be able to enjoy a good meal once more and not suffer afterwards. I am just like a new man and Tanlac gets all the credit."

I find Teethina the best thing for them at such times and have always got good results from using it."

**JESUS CRUCIFIED**

**LESSON TEXT**—Luke 23:33-38.  
**GOLDEN TEXT**—He was wounded for our transgressions. He was bruised for our iniquities; the chastisement of our peace was upon Him, and with His stripes we are healed.—Isaiah 53:5.

**REFERENCE MATERIAL**—Psa. 22:1-21; 1 Cor. 1:23, 24; Gal. 3:13.

**PRIMARY TOPIC**—Jesus on the Cross.  
**JUNIOR TOPIC**—Jesus on the Cross.  
**INTERMEDIATE AND SENIOR TOPIC**—What Our Salvation Costs.  
**YOUNG PEOPLE AND ADULT TOPIC**—The Meaning of Christ's Death.

We now face the greatest tragedy of all time. No record in the annals of history approaches it. It is the very climax of all history. Though unique in its blackness, from it flows streams of liberty and life for all the world. Let every teacher have the personal experience of Christ's death for him, and then get his pupils to see that Christ's death was instead of their own death.

**I. The Place of Crucifixion (v. 33).**

They led Him away to Calvary, a hill north of Jerusalem resembling a skull. Calvary is the Latin word and Golgotha is the Hebrew. This is a significant name for the place where man's redemption was accomplished. The skull is an apt picture of man's condition as the result of sin—life and intelligence are gone, leaving only the dark empty cavern which once contained them. Jesus was not crucified in the city for He was to suffer without the gate (Heb. 13:12).

**II. His Companions on the Cross (v. 33).**

Two malefactors were crucified with Him. Their names are not given. This is a fulfillment of the Scriptures. "He was numbered with the transgressors." (Isaiah 53:12).

**III. His Forgiving Love (v. 34).**

He cried, "Father, forgive them." He doubtless had in mind not only the soldiers who acted for the government, but the Jews who in their blindness were ignorant of the enormity of their crime. He had no hatred in His heart. He yearned for their salvation.

**IV. The World Revealed (vv. 34-43).**

Jesus Christ on the cross is the supreme touchstone laying bare the heart of the world. Take a cross section of the world at any time since Christ was crucified and representatives of their classes were found around Jesus on the cross. The cross is the judgment of this world (John 12:31).

**1. The Covetous (v. 34).** They gumbled for His seamless robe right under the cross where He was dying. This represents those whose primary interest in Christ is a means to get gain.

**2. The Indifferent (v. 35).** The people stood beholding. The great mass of the world gaze upon the crucified Christ with stolid indifference.

**3. The Scoffers (vv. 35-39).** (1) The rulers reviled Him for His claim to be a Savior. They wanted a Savior, but not a crucified Savior. Many today are religious, but have only contempt for a salvation which centers in a blood atonement. (2) The soldiers reviled Him for claiming to be a king. The title, "King of the Jews" had been placed over him in bitter irony, but it was true, for by right of the Davidic covenant He shall be King over Israel (II Samuel 7:8-16). (3) The Impenitent Thief (v. 39). This brutal man joins in reviling the Savior even when he was under condemnation.

**4. The Penitent (vv. 40-43).** The conscious sinner who discerned the heart of the Savior prayed for mercy. The salvation of this penitent thief is a remarkable picture of the saving power of Christ. The man confessed his sin as against God and cried to Jesus for salvation. He saw that the dying man was the forgiving God. The fact that he acknowledged his sin as against God showed that he was penitent. His request for Christ to remember him when He came into His kingdom shows that he recognized that the one who was dying on the cross was making atonement for sin and that he would come to reign as King. His salvation was immediate. Christ said, "Today shalt thou be with me in paradise."

**V. The Death of Christ (vv. 40-46).**

So shocking was the crime that nature threw around the Son of God a shroud to hide Him from the Godless crowd. Darkness was upon the land at noonday. When the price of sin was paid He cried with a loud voice showing that He still had vitality—that His death was not through exhaustion but by His sovereign will.

**DESERVING OF HIGH HONORS**

Doctor Wagner of the Darmstadt (Germany) Experiment Station Has Done Much for Agriculture.

Fifty years ago Dr. Paul Wagner became director of the experiment station at Darmstadt, which had just been founded, and has since won for this institution a world renown, through his investigations on plant foods. Doctor Wagner certainly deserves to receive great commendation for having, with the help of his own method of pot experiments, substantially extended, and firmly established the foundation for the use of commercial fertilizers.

He was the first to recognize and correctly estimate the fertilizing effect of the Thomas phosphate or basic slag.

By a steady improvement in the methods of fertilizing experiments in the field, he succeeded in making of these field experiments a practical means of exact investigation.

Doctor Wagner, furthermore, has clearly shown the results of his investigations in the vegetation house, field and laboratory, to the practical farmer, either in articles which are easily understood, or in inspiring lectures; and in this way he has contributed in an enormous degree toward the proper use of commercial fertilizers in agriculture.

Here in the United States many of Doctor Wagner's articles are known, having been translated or summarized by numerous writers, to the great advantage of American agriculture.

Vanity makes a man think that everybody else thinks as much of him as he thinks of himself.

**HOW TURTLES FIND THE SEA**

Explanation, According to Harvard Scientist, Is Their Tendency to Travel Down Hill.

Why loggerhead turtles readily find their way to the sea soon after hatching, has been discovered by George H. Parker of the zoological department of Harvard university. These reptiles are hatched inland, and soon after birth crawl out of their nests, he explains. Then with a few exceptions they immediately start their journey in the exact direction of the sea.

The most important reason for this behavior of the turtle is their tendency to go down hill, Mr. Parker believes. They also show an inclination to move toward regions in which the horizon is clear and unobstructed by large masses. And blue areas seem to attract them more than other colors. Their actions should be regarded more complex than a simple response to light, for the retina of their eyes respond to the details, such as blue color, rather than to the image as a whole.
