Assassin's Bullet Causes Instant Death of Yancey Citizen.

Spears May 21.—Bill Burleson was instantly killed by a bullet from ambush while aiding Sheriff Stafford, of Avery County, in destroying a still, from which two blockaders ran as the two officers approached, according to reports reaching here. The bullet came from the top of a ridge and was the only one fired, Mr. Burleson falling instantly.

A 60-gallon copper outfit was being destroyed by the officers. Considerable mash was discovered at the still. The entire community is aroused over the shooting and a reward of \$100 is offered for the arrest of the assassin.—Asheville Citizen.

Senior Class Entertained

Last Thursday evening Mr. and Mrs. Coleman Ramsey entertained the Senior Class of Marshall High School with a delicious picnic supper, which was served at "Tisner's Cliff" just below Mr. Ramsey's house.

The supper was greatly enjoyed by all who were present, as they showed by the justice they did to the meal. Mr. Ramsey prepared coffee, while Mrs. Ramsey assisted by Miss English served the guests with "everything good to eat." It was found almost impossible to count the sandwiches that some of the boys stowed away.

After supper the guests returned to the home of the hostess where games were enjoyed for several hours.

The girls and boys felt very much at ease with Mrs. Ramsey in her home, because she, as Miss Maggie Morrow was the primary teacher of the Senior Class. Those present were: Miss English, one of the High School teachers, Misses Naomi Guthrie, Eva Rice, Carol McDevitt, Bonade Silvers, Anna Kate Ramsey, Josie Tipton, Jeanie Lee Chandler; Messrs. Lawrence McElroy, Olin Jarrett, Leo White and Wayne Farmer.

Ford Cars and Trucks

Daily production of Ford Cars and Trucks went over the 6,600 mark on Wednesday, May 9, it is just announced through The Ford News.

The production on that day was 6,615, exceeding by 25 the last highest day, Friday, May 4, when a record of 6,590 was established.

The twenty-eight assembly plants of the Ford Motor Company throughout the country operate on an eight-hour day basis, and the turning out of 6,615 completed Cars and Trucks in a day means that they were run off the assembly lines at the rate of one every four seconds.

To make this enormous output possible, the tremendous manufacturing facilities of the company, embracing the great Highland Park and River Rouge Plants and other factory units, are operating on a twenty-four hour day of three eight-hour working shifts employing more than 100,000 men.

Ford high quality standards are consistently maintained in every operation entering into the construction of these popular cars.

Letter From Carlinville, Ill.

221 First South East, St. Carlinville, Ill. May 12, 1923.

Editor News-Record Marshall, N. C., Dear Sir:—

You will find enclosed check \$2.50 to take the due of my paper and keep it coming this way so that we can learn the news of Madison County. Some times the paper is a little late arriving but we presume it is due to the fact that Joe Johnson is so busy carrying milk to get the paper out on time.

The weather has been fine here till Tuesday of this week and then we have had some weather of all kinds since, Tuesday for about three minutes I never seen it snow harder but lucky so far that we have not had any freezing weather and no damaging frost. Yesterday we had an awful storm but don't think any damage done in this section.

The Illinois Traction System Railroad, of which I am, one of the passenger conductors, between Springfield Ill., and St. Louis, Mo, had a bad freight wreck yesterday and tied up the line about twenty four hours. Six cars was derailed and piled themselves into a twisted heap along the right of way. The conductor was riding the caboose and was shaken up but not hurt.

Best wishes for the people of Dear old Madison and the News-Record. I am, a Madison County boy.

J. HENRY ROBERTS.

Paint for this house less than \$19.00

IT takes but 5 gallons of **Certain-teed** paint for two good coats on a house like this (30' x 35'). That means less than \$19 for the paint. When you consider the high cost of building today and how little paint it takes to protect the dollars now invested, can you afford to put off painting? Whether house, garage or interior work, come in and let us estimate the paint it takes. Our estimates always call for **Certain-teed**. When you dip in a brush and start to spread, you know why we recommend it.

WE recommend Certain-teed because it gives our customers more for their money. Our experience is that Certain-teed has more body and wears longer than ordinary paint.
