cademy, the milroad at ave been dias b

ber mills, and in building and construction lines which had the effect of curtailing operations affecting employment in the iron and steel industry continue to improve, and in some of the larger centers shortages of certain classes of htis labor are evident."

This information, assembled by the department's employment service from 1,428 firms ,was supplemented by other figures concerning the volume of employment during April, compiled by the bureau of labor statistics from reports made by 5,651 representative establishments in 43 manufacturing industries.

The bureau's summary said the establishments covered by it had reported increases during April over March of one-half of one per cent in the number of employes, 1.4 per cent in the total amount paid in wages, and nine-tenths of one per cent in the average weekly earnings.

As compared with March, 19 of the 43 industries showed increases in employment, the greatest being in the automobile, brick. carriage, sawmill Furniture company, one of High Point's year, and 3,213,483 of lint and 118,856 and petroleum industries.

Explosion in Grendel Mill.

Greenwood, S. C .- Two negroes are believed to have been killed, two white men are seriously injured and anum ber suffered minor injuries in a boller explosion which wrecked the boller and engine room of Grendel Mill, number one, here. Ben Riley, negro fireman, and an unknown negro stoker, are the two men supposed to have been killed. John F. Faulkner, night engineer, and Charley Shirley, master mechanic and night machinist, are both in a local hospital with their legs broken and suffering from cuts on their heads and bodies. Their injuries are not believed to be fatal.
