

# BIG RECEPTION

## The Bank Of French Broad Opening Her New Home

A county-wide celebration has been planned for the opening of the new banking house of the Bank of French Broad, which will occur on Saturday, July 21st.

On this occasion, the officers and directors of the well known local institution, have planned to give a big public reception lasting from ten in the morning continuously to eight in the evening, every resident of Madison and adjoining counties being cordially invited to attend.

The features of entertainment that have been provided for the day includes speaking, music, refreshments and souvenirs.

Visitors will be shown through the palatial new banking offices by directors of the Bank of French Broad, who number twelve of the leading business men of this section. The public will be admitted to all parts of the bank, an opportunity thus being afforded to inspect the burglar proof vault, with its massive door of many tons of drill-resisting steel, and the entire modern and costly equipment with which the institution will facilitate its business in the new home.

Co-incident with its removal, the Bank of French Broad will establish a Savings Department to encourage greater thrift in Madison County and to provide a welcome depository for the savings of the people.

The new home of the Bank of French Broad is easily one of the finest in the State. It has been remarked by many bankers and others whose knowledge gives them authority to speak, that Marshall can boast the finest banking house in any city in the country of similar size.

The housewarming of the Bank of French Broad is expected to attract thousands of visitors for the day. Prominent bankers will attend. Well known speakers will appear. And the occasion, it is said, will live long in the annals of Madison County's progress.

THE FULL PROGRAM OF THE CELEBRATION WILL BE REPORTED IN OUR NEXT ISSUE

Mr. J. J. Redmon, President, authorized The News-Record to say that he and his associates in the management of The BANK OF FRENCH BROAD will be very happy to shake hands with every man, woman and child in Madison County.

Mr. Peterson, with headquarters at Asheville, will take over forestry service handled until recently by C. H. Burrage, who resigned on April 23. The mountain counties of the State are being divided into two districts, in order to secure closer co-operation and greater efficiency. Mr. Peterson will have the southernmost district, his territory embracing the twelve counties south and west and including Marshall.

three of which are now co-operating in forest protection work. The warden for the other western district is yet to be appointed.

Motor vehicle owners and prospective owners are expected to pay out at least \$2,500,000,000 for cars and trucks this year.

#### Why Dodge the Issue?

The new income tax figures tell a plain story with a plain lesson. In one year, the number of Americans paying taxes on incomes above \$100,000 decreased from 3,600 to 2,300. That is a loss of 1,300.

The governments of the United States are practically inviting people to evade their taxes by seeking relief through investment in tax-free securities.

The governments, local and national, lay before the map of large income a great mass of their securities, every few days, and say to him:

If you will hand over some of your money in exchange for these securities, we will see that you pay no taxes on the income that you draw from the loan.

Many taxpayers accept this invitation and thus evade, or dodge, taxes, thereby unloading a fierce tax burden on the rest of us.

So long as the governments impose enormous taxes and at the same time offer a ready way out the present abuse will go on.

Politicians who rage against rich tax dodgers, and then vote for tax-free securities, are merely beating the air, and they know it.

#### Picnic.

The following persons had quite a nice outing last Thursday night: Misses Logan, Parnell Davis, Nevada Ward and George Gwaltney; Messers. Caston, Coats and others joining them on the way. They motored from Marshall to Blackwell Springs and there they stopped for supper, afterwards they went for a visit to Mr. and Mrs. A. E. Cole near Asheville spending some time very pleasantly there. They had such a good time they say they are going back.

#### Baiting the Supreme Court.

There is much being said these days in criticism of the power exercised by the United States Supreme Court.

"It is a proposition too plain to be contested that the Constitution controls any legislative act repugnant to it; or that the legislature may alter the Constitution by an ordinary act. Between these alternatives there is no middle ground. The Constitution is either a superior, paramount law, unchangeable by ordinary means, or it is on a level with ordinary legislative acts, and, like other acts, is alterable when the legislature shall please to alter it. If the former part of the alternative be true, then a legislative act contrary to the Constitution is not law; if the latter part be true then written constitutions are absurd attempts, on the part of the people, to limit a power in its own nature illimitable."

This doubtless will be the American constitutional view, in contrast with the British supreme parliamentary idea, so long as the governmental system left us by the builders of the republic is able to withstand the attacks of those who would have the political wisdom and intelligence of the average man reflected in our organic law rather than to set up a standard of wisdom and intelligence to operate as a check on popular clamor.

I will be in Marshall N. C. on 6, 7, day, of August, 1923.
