PROMINENT MADISON CITIZEN HERE

Ex-Representative N. B. McDevitt, one of the leading business men and politician extraordinary, of Madison County, was a business visitor in Bakersville Wednesday, and of course, he couldn't afford to "side-step" an old pal, and therefore he with our friend, Walter Berry, ambled into our shack, to shake and tell us the latest from old Madison, which has been a political storm center for a good many moons, and our information is that Mac has been right in the middle of turbulent fracas, and usually he emerged first best, showing the great popularity in which he is held. He's a great fellow, and we hope his shadow may never grow less.—Bakersville Banner.

Fat Girls! Here's A Tip For You

All over the world Kruschen Salts is appealing to girls and women who strive for an attractive, free from fat figure that cannot fail to win admiration.

Here's the recipe that banishes fat and brings into blossom all the natural attractiveness that every woman possesses.

Every morning take one half teaspoon of Kruschen Salts in a glass of hot water before breakfast.

Be sure and do this every morning for "It's the little daily dose that takes off the fat."—Don't miss a morning. The Kruschen habit means that every particle of poisonous waste matter and harmful acids and gases are expelled from the system.

At the same time the stomach, liver, kidneys and bowels are toned up and the pure, fresh blood containing Nature's six life-giving salts are carried to every organ, gland, nerve and fibre of the body and this is followed by "that Kruschen feeling" of energetic health and activity that is reflected in bright eyes, clear skin, cheerful vivacity and charming figure.

Get an 85c bottle of Kruschen Salts at the Marshall Pharmacy or any drug store (lasts 2 months) with the distinct understanding that you must be satisfied with results or money back.—Adv.

ATTENDANCE OF SCHOOL IN MADISON

Realizing the importance of regular attendance in our schools, not only from the point of view of the welfare of the child, but also from an economical standpoint, the Division of School Attendance of the State Board of Public Welfare has furnished the following information regarding the school attendance in Madison County. The figures include both white and colored schools.

According to the records of 1928-29, 5,896 children were enrolled in the schools in this county. Of that number 4,561 were present each day, and 1,335 were absent every day during the school year. The per capita cost for instructional service for last year is not available but in 1927-28 his county spent \$20.78 per white

Washington died in the last year of the century, the last month of the year, the last day of the week and the last hour of the day.

John Adams and Thomas Jefferson died on the same day—July 4, 1826. Jefferson's last words were: "This is the Fourth of July." Adams: "Thomas Jefferson still lives."

Zachary Taylor never voted or held an office until elected president.

John Adams lived to be 90—longer than any other president. "A. Slice. "Eight" was Benjamin Harrison's lucky number. He was nominated on the eighth ballot, elected in 1888, and there were eight letters in his first and last names.

It requires 13 letters to spell Woodrow Wilson and Herbert Hoover.

John Adams and Thomas Jefferson were signers of the Declaration of Independence.

Washington and Madison were signers of the constitution.

child \$14.40 per colored child) which shows that each year we are spending a large sum of money for which full value is not received due to the fact that so many children are absent each day during the school year and are not taking advantage of the opportunities provided for them.

Since the number of teachers permitted by the state equalizing board is based upon the average daily attendance, the county is forced to pay for extra teachers to care for the situation caused by poor attendance.

Due to the low average attendance in our schools last year, this county employed and paid from local funds 12 extra teachers, at a cost, according to the state average, of over \$900 each. This if every school child in the county was kept in school regularly.

In increasing our average daily attendance we will not only be giving the children of our county the opportunities which are rightfully theirs, but also lessening the burden of the local tax payers.
