HEARD AND SEEN By "POP"

Plenty of political talk going on around town... a big crowd in the courthouse Tuesday afternoon to hear Dr. McDonald's speech... a crowd outside listening to the speech by means of an amplifier... wire being put up at the tennis court... that a new X-Ray machine had been installed in the county... that Robel Redmon had SOME demonstration car... it seems that when one asks to borrow a car down there, Robel tells 'em to use a certain one. When they get in it they find that it is just the hull of a car... many disappointed because they just can't hit the "pool"... main street reminding me of the Indianapolis speedway Tuesday night when four cars came through town making something like 80 miles per... it happend to be officers after a liquor car... much excitement after the officers captured 240 gallons of liquor... they shot down three tires before getting the car... several boys takin' off to Hot Springs the other night.

SAY NEW FARM PROGRAM IS BEST EVER DEvised

Agricultural authorities say the new soil-improvement program is the best plan ever undertaken for the all-round development of North Carolina farming. If farmers cooperate whole-heartedly with the program, said Dean I. O. Schaub, of State College, it will elevate agriculture in this State to a higher plane than ever before. The new program embodies many of the fundamental principles advocated by the extension service for years, he said, but it is much more comprehensive and far-reaching than anything that has gone before.

new program. Among the matters to come before the committee are: the rate of payment for various soil-building practices, which practices will be considered soil-building, and the rate of payment for reducing the acreage of soil-building crops other than cotton, tobacco, and peanuts.

Speed Did This

In the Windshield

Out the Rear Window

Excessive speed on the highway doesn't always manifest itself in the usual type of smashup—the mass of crumpled steel and splintered wood that one sees so often pictured in the newspapers. Sometimes speed chooses odd, almost unbelievable ways of striking back at those who defy the laws of safety.
