

Household Hints

Save needless hours of repair work by catching small tears and tiny rips promptly. Besides, if you darn a small tear, the repair job will be less conspicuous.

Tuck a pet-holder into the knee of each stocking when you scrub the kitchen or bathroom floor. No sore knees tomorrow.

Treat spitters on your galoshes with vaseline if they have become rusted and are difficult to slide. Be careful not to get any on the fabric.

Don't forget those top shelves in the kitchen that hold infrequently-used items. They should be given a periodic washing. Remove items from the shelf and then go over it with a soapy cloth.

Make a neat gallery for family portraits. Instead of placing a host of them on the piano, frame all the favorites in the same kind of frame and hang them together on the wall.

When making biscuits with sour milk, measure one-half teaspoon of soda for each cup of sour milk. The flavor of the biscuits will be richer, their health value greater, and the biscuits will be light and fluffy.

Youngsters aren't fussy about realism. As long as their toys are painted in bright colors, they need not be exactly like the animals and objects they imitate.

Use godels to widen peg-style skirts. These are circular inserts set into the seam. Make them narrow at the top, tapering almost to a point. The full width is at the hemline to make a flared style of a straight skirt.
