SLOW ME DOWN, LAWD

Seldom, if ever, has Marshall and Madison County been so shocked as they were last Friday when it was learned that an expectant mother, and a Marine had been instantly killed and the husband of the expectant mother seriously injured on the N. C.-Tenn. State Line.

Mr. Dwight McDevitt had started to Greeneville. Tenn., with his wife, who was soon to give birth to a child. On the way to Greeneville they befriended a Marine who was hitch-hiking by stopping and offering him a ride.

As they reached the State line, an approaching car, swerving from one side to the other, went out of control, climbed the embankment and toppled over on top of the McDevitt car. Investigation revealed that the driver was drunk, and didn't even have an operator's license. A coroner's jury decided that the victims met death "because of the carelessness" of the Tennessee driver. This, in our opinion, is a most polite way of saying that these fine people met death due to a drunken 28-year-old murderer who had little enough sense to first, drive without a license; second, get dogged drunk; third, get behind the wheel of an automobile; fourth, attempt to drive on a heavily-used highway; and fifth, drive at a reckless, insane speed.

Yes, he has been charged with manslaughter, driving drunk and having no operator's license. Let's hope that this man will get "justice" in the eyes of our courts. No matter, however, what sentence he receives from our courts, it will not bring back Mrs. McDevitt, the Marine, or the unborn baby.

We read daily where some reckless, intoxicated driver "floorboards" the accelerator, making our highways dangerous for all the public. Our lawmakers MUST pass laws with more "teeth" and our courts MUST punish the drunkards and speedsters much more severely if our highways are to become safer. A suspension of a driver's license for a few months, suspended sentences, acquittals when all evidence seems to point to guilt, or "failing to answer" when a case is called merely encourages those who drink to "try it again."

Not only alcoholic beverages are the cause of so many accidents but the present emphasis on SPEED is also a major highway problem. Spin the wheels, see how much "she'll do," listen to the tires on a curve, gutted mufflers, drag races — these seem to to be the order of the day. Horsepower and more horsepower seems to be the goal of our manufacturers. Year by year, faster cars, faster drivers, inadequate laws, unsafe highways. How much longer will we go on without doing something?

All this speed brings to mind a prayer which has a great deal of good, common, down-to-earth sense. The prayer was made by a Negro preacher in a revival meeting.

LORD, PLEASE SLOW ME DOWN

"Slow me down, Lawd. Ah's goin' too fast. Ah can't see mah bruther when he's walking past. Ah miss a lot o' good things day by day; Ah doan't know a blessin' when it comes mah way. Slow me down, Lawd. Ah wants t' see more o' th' things that's good for me. A little less o' me an' a mite more o' you; Ah wants th' heavenly atmosphere t' trickle through. Let me help a bruther when th' goin's rough; when folks work t'gether it ain't so tough. Slow me down, Lawd, so I c'n talk with some o' your angels; slow me down t' a walk." — Jim Parker, Chatham News.

Taking Course At U. N. C.

County Farmers **Build Practical Building For Use**

By PRINTESS W. ENGLAND Assistant County Agent

Farmers are cooperating in providing facilities together that individually they could not provide economically. Frank Massey, Weaver Massey and Arthur Tranthan of the Baltimore Branch nunity in Madison County have built a tobacco case house which is two stories high. This house is 24 feet wide and 32 feet long. These farmers use the bottom story to case and hand the burley. The top story is used to pack the tobseco. By using lights hey can class and hand theih tosee in a short time regardless weather conditions. At one time ast season they had ten thousand pounds of burley ready for maximat. By building the proper size door in the upper story the tobacco can be leaded easily on a truck and hauled to market with

Attend Handicraft Workshop This Week ... At Camp Schaub

The 8th Annual Western District Handicraft Workshop ends ... today (Thursday) after a threeday session at Camp Schaub. Some 175 home demonstration club women and agents attended, according to Iola Pritchard, N. C. Agricultural Extension Service food conservation and marketing specialist.

The workshop, designed especially for home demonstration club women in 20 western North Carolina counties, began Tuesday of this week. Club women and agents participating from Madison County were: Mrs. Janie Ramsey, home demonstration agent, Marshall; and Mrs. J. E. Carter, Marshall R-2. Mrs. Shadrack Mace, chair bottoming at the workshop.

Get in the fine-car swim at the low Ford price!

America's favorite convertible is one of 21 Ford models for 1950

There's no need to pay a "fancy price" to enjoy fine-car luxury. Ford is lowest priced* of the low-price three, yet offers values you'd expect only in cars costing far more!

To start with, you can easily pay twice the money, and not find lines that can hold a candle to Ford's for lowness, loveliness, or just plain good taste.

But step inside. That's when you'll find the real evidence of ford's quality!

And, on the way in, note that Ford ers door checks that hold doors open either of two positions—for easy entire or exit. A little thing. But, in a see car, why not? Then, inside, notice aw comfortable those plush, foamabber seats are. They'll stay that way, and on long trips. For they're scientifially contoured over non-sag springs. door checks that hold doors open

extra kindly, too-with spring assists to help them open and close the doorswith the most leg room in Ford's field!

Fine cars are smooth—and that's other place Ford really shows its stuff! Ford delivers its famous V-8 power smooth as a whisper. That's because only Ford takes the pains to electronically balance each engine while running under its own power. Not even the makers of the most expensive automo-biles go this far to bring you super-

Ford rides fine-car smooth and quiet, too. You can thank the new "Inner Ford" for that. Ford, for instance, has

a swept-back front suspension that actually "rolls with the punch" of every road bump.

Ford's rear springs automatically adjust to give the right ride for every road. And Ford keeps things quiet, with the most sound insulation in its field.

Fine cars are built to stay solid. Se's Fanil

Ford has the only frame in its field to make use of rugged tubular steel beams. No car at the price offers so many roof-No car at the price offers so many roof-strengthening beams. Expensive cars aren't built of thicker body steel or with sounder engineering skill. Then, of course, in Ford you can have all the power assists and other conveniences found in fine cars. And they cost far less in Ford.* Yes sirl In every feature, every part, Ford is the fine car at half the fine-car price. Come in and seel
