Today's MEDITATION

The World's Most Widely Used Devotional Guide

The Upper Room

Oh teach us so to count our days, that we may take it to heart. (Psalm 90:12, Moffatt.) Read John 17:1-8.

It is said that one of the most beautiful windows in all the world is to be found in a certain church in England. The church window is made of broken pieces of glass that had once been considered worthless. Love and reverent gathered them up and put them together. Now when the sun shines through those pieces of glass, one can see a picture of Christ.

Each day of our lives can be like a broken and discarded piece of glass, if we fail to see that every day is a little life and that the whole of our lives is the sum of its days. But what if we consider the days as love gifts from God? Then we put all together with reverence, fashioning them into a magnificent whole. The light of God's love shines through them and the loveliness of Christ's character is seen in our lives.

PRAYER

Eternal God, Thou dost commit to us our day at a time. In the swift, solemn trust of life, awaken us to the claims of Thy holy will. Teach us as the time to serve Thee in today. Consecrate us to Thy service, that we may be profitable servants for the sake of Christ our Lord, in whose name we pray. Amen.

THOUGHT FOR THE DAY

I consider this day as a love gift from God.

—George Reid (Montana)

necessity be much more of socialism. There may be much tyranny in the rule of the majority.

WHO KNOWS?

1. In what ocean does the island of Mauritius lie?
2. When did Congress first meet in Washington?
3. Who is the Postmaster General of the United States?
4. One person out of ten suffers from Cöryza; what is it?
5. Why are Annapolis students called midshipmen?
6. What is the capital of Australia?
7. For what discovery was Dr. Selden Waksman given the Nobel Prize for Medicine and Physiology?
8. What is an atoll?
9. What type of vessel is called a "guppy"?
10. What is Bing Crosby's real name?

Answers To Above

1. The Indian Ocean.
2. November 17, 1800.
3. Arthur E. Summerfield.
4. The common cold.
5. Because, in former years, Navy seamen, studying to be officers, were stationed amidship.
6. Canberra.
7. Streptomycin.
8. A single coral island or belt of islands surrounding a central lagoon.
9. A snorkel submarine.
10. Harry L. Crosby.

Sgt. Ray Holt

Announces 94

Vacancies In USAF

Sergeant Ray C. Holt announced today that the U. S. Air Force has vacancies for ninety-four (94) missile men for duty with the 576th Strategic Missile Squadron at Cooke Air Force Base, California. Former Air Force airmen possessing certain Special Codes in the 30, 31 and 32 Career Fields and mental scores are eligible for these important and desired assignments. Further details may be obtained from Sgt. Holt by telephoning AL-23084, or visiting the Air Force Recruiting Office at the Federal Building, Asheville, N.C.

Ball City News

MISS SHELBA JEAN MOORE, Correspondent

A large crowd attended church at Ball City Sunday afternoon. The pastor was present, but the Rev. Mr. Chastene delivered the message.

Mr. L. P. Strickland took Sunday dinner with Mr. and Mrs. John Justice.

Miss Shelba Jean Moore was visiting Mr. and Mrs. L. J. Moore during the week-end.

Mr. and Mrs. Denver Moore and family were visiting his parents, Mr. and Mrs. R. L. Moore, of Leicester, Sunday.

Mr. and Mrs. Ted Mathis, Mr. and Mrs. Hugh Mathis and Mr.

and Mrs. Lloyd Mathis were visiting their parents Mr. and Mrs. Jack Mathis.

Mr. and Mrs. Arthur Moore and family were visiting Mr. and Mrs. Norman Arrington of Waynesville Saturday.

Fred Coward of Waynesville was visiting his mother, Mrs. Rachel Coward, Saturday.

Medford Burgess took dinner Sunday with Mr. and Mrs. Arthur Moore.

Mr. Avery Allen and daughter Jo Ann were visiting his brother, Reeves, of Hazelwood Saturday.

Auto Racing At McCormick Field Speedway

Asheville — McCormick Field Speedway sportsman drivers will get two chances to beat Banjo Matthews, winner of 3 straight sportsman races on this quarter-mile track, this Saturday night in a doubleheader event. Instead of the regular 40-lap

feature race, sportsmen will compete in two 30-lappers. Starting positions for the first main event will be determined by the finishes of two 10-lap heats and a 15-lap consolation race.

Starting positions for the second feature will be determined by the finish of the first feature. The first race finish will be inverted with the last-place finisher starting on the pole and the winner of the first race starting dead last.

Track director C. F. Powell is of the opinion that the double-

America was founded and built

header feature will provide extremely tough going for Banjo who is attempting to break the NASCAR record of 11 straight victories which he won on this track last summer.

However, it will be remembered that Banjo recorded a double victory last year in a doubleheader such as this. But the cards appear to be stacked against him Saturday night with such drivers as Harold Moore, Ralph Earnhardt, Grady and Ed Cox, Cecil Biddix, Bobby Waddell, Ned Jarrett and Dickie Plemmons running against him.

Tommy Boger expects to have his new GMC-powered Chevrolet racer ready Saturday. And Dickie Plemmons probably will be in his original Mr. Y, a fast car which he wrecked two weeks ago.

In addition to the doubleheader for sportsmen, amateurs will compete in their usual 30-lap feature and three 10-lap heats. Time trials will start at 7 p. m., and racing at 8:00.

by individuals. It was the individual that built the cabins and cleared the forests. It was the individual that threaded the forests, climbed the mountains, crossed the rivers and traversed the plains. The government was established mostly by individuals. The individual was favored. The larger part of all planning had to be done by the individuals. The foundations of many great industries were laid by individuals. Much that is great today had its beginnings in the work of an individual. However the day of the individual has almost wholly faded away.

Almost everything to be a success must today be backed by the masses and often by the majority. Great corporations are owned by man stockholders. Education, welfare and religious work is a work of the majorities. The individual is giving away to the big and organized farmer. The road systems are built and operated for the majorities. The air overhead is held for the majorities. The greatest fear of the politicians is the majorities. Whenever individuals stand in the way they must be sacrificed for the will of the majority. For the demand of the majorities many must be taxed and controlled. Even the constitution and many laws may have to be rewritten to please the majority. To meet the demands of the majority there must of
