RICHLY DESERVED

It isn't often that anyone has the honor and distinction of having a huge plant bear his name in tribute to his faithful years of service with a company. This honor, however, has been paid to Fred O. Tilson, of Marshall, by the Olin Mathieson Chemical Corporation, with which he has been associated for the past 35 years.

The new \$13,000,000 plant at Charleston, Tennessee, will bear the name of Fred O. Tilson. This great honor was announced at a Retirement Banquet which was held in Mr. Tilson's honor at Atlantic City, N. J., on August 31. Construction of the new chlorine and caustic soda plant will start soon and production is scheduled for the end of 1961.

We rejoice that this tribute was given to Mr. Tilson and we feel that it is richly deserved. The many letters of commendation and warmth received by Mr. Tilson at the banquet clearly indicate the high esteem in which he is held by officials, associates and friends. The expressions of his untiring efforts and of his 35 years of faithful service also indicate his value to this great company.

Perhaps the highest tribute of all, however, was the thought expressed in the beautiful gold-trimmed folio which reads, "In tribute to his ability to GIVE and EARN friendship and loyalty among those with whom he worked." This is one of the most heart-warming tributes any person can receive.

We congratulate Mr. Tilson on his years of devoted and loyal service with Olin Mathieson and wish for him every success as he retires as District Manager and enters a less strenuous routine.

We are delighted to welcome Mr. Tilson to "full time" residence in Marshall and Madison County where he has also given and earned friendship with us.

County Residents Congratulated On Bond Ownership

Madison County residents were congratulated this week for their part in increasing U. S. Savings Bond ownership to a new all-time high.

G. L. Rudisill Jr., Madison County Volunteer Chairman for the Bond Program, said that nationwide holdings of Series E and H Savings Bonds stood at \$42.8 billion, as of August 31, according to official word sent to him from the Treasury Department in Washington.

Of this total, North Carolina residents own nearly \$500,000,000, and Mr. Rudisill estimated Madison County's share of the total at approximately \$1,650,000.

The report to Mr. Rudisill came in the form of a congratulatory letter from William H. Neal, Assistant to the Secretary of the Treasury and National Director of the Savings Bonds program.

In it Mr. Neal said that the new \$42.8 billion total tops the World War II peak of E Bond holdings by some \$12 billion, out the steady growth which has characterized the bond program throughout the peacetime years since 1945.

"These statistical facts, however, are a comparatively minor part of the story," Mr. Neal told Mr. Rudisill. "Of vastly greater importance are the accomplishments of millions of families in making dreams come true through systematic savings; and the patriotic contribution of Savings Bond volunteers like you in making our program not alone successful, but even possible."

"I know I speak for Secretary Anderson and Under Secretary Board in expressing the Treasury's congratulations and thanks for your part in this newest Savings Bonds achievement."

Mr. Rudisill said that one of every four Madison County residents is a bond-owner — the national average. He has been county bond chairman since 1958.
