LAW DAY USA NEXT TUESDAY

The Madison County Bar Association, of which Attorney Joseph B. Huff is president, wishes to again remind our citizens that on May 1, 1962 — next Tuesday — we observe another significant day—the fifth anniversary of Law Day USA. We do so by Act of Congress, and by official proclamation of the President of the United States. It is an occasion for American citizens to "readed in the president of the United States." American citizens to "rededicate themselves to the ideals of freedom and justice under law . . . to cultivate respect for the law . . . to foster understanding and appreciation of our liberties and the legal and indical indicate them." judicial institutions which protect them.'

In these days of challenge to the concept of human freedom and dignity, these objectives are especially timely and important to Americans determined to preserve the values of our free society.

The Constitution of The United States of America, together with the subsequent amendments called the Bill of Rights, opened portals of freedom for all. Gladstone termed it "the most wonderful work ever struck off at a given time by the brain and purpose

of man." The foundation of law laid down in the Constitution made possible the flowering of our whole social order. Equal justice under law became an American tradition.

This year we celebrate the 175th anniversary of the drafting of our basic charter in the Constitu-tional Convention of 1787. Today, more than ever, the rule of law is indispensable in our daily lives and

to the hopes of mankind for a peaceful world.

Are we maintaining this high standard?

Recently, Law Day USA was announced during open court here and although very few people were present, it was a significant pronouncement. Booklets were presented to the court which are to be handed out to future inverse presents. handed out to future jurors, pointing out their re-

sponsibilities and duties. In cooperation with the Proclamation by the President of the United States, the flag of the United States is to be displayed on all government buildings next Tuesday. Schools are asked to cooperate with Law Day USA by telling the students the values of

our courts and the laws. We are often prone to criticize how our courts are "run" but how many of us are willing to accept our responsibilities when called on to serve as jurors? Do we seek to be excused when we actually should serve? Do we choose to leave it up to the other fellow and then criticize when we see things we don't approve of in our courts?

Let's take inventory of ourselves and resolve to do better on this Law Day USA next Tuesday.

Don't Confuse Name Of Woman Who Shot Husband

In the writeup last week about Mrs. William George, of Mars Hill RFD 1, being charged with assault with intent to kill her husband, a middle initial was not used. There seems to be more than one Mrs. William George.

The Mrs. George who is charged is Mrs. William A. George. This is to explain that the writeup did not in any way involve Mrs. Wil liam Guy George who is the former Miss Christine Carter, Democrat.

How I Increased My Tobacco Income By \$137 Per Acre

"I HEARD that tobacco farmers in my neighborhood were getting better yields and profits with Agrico fertilizer so I decided to follow the Agrico Program on one acre of my five-acre tobacco allot-ment," says Dewey Foster of Hot Springs (Madison Co), N. C. "The Agrico fieldman took soil samples and I followed the Agrico Soil Test recommenda-tions, using 3,000 lbs. of Agrico for Tobacco 3-9-9 on the one acre. I used my regular brand of 4-8-12 at my usual rate on the remaining four acres.

"The tobacco from each area was kept separate at harvest time, then cured, graded and sold separately. The Agrico-fertilized acre returned 2,-362 lbs. of high-quality tobacco per acre, 186 more lbs. per acre than the rest of the field. And when the crop was sold, Agrico returned \$137.22 extra income per acre.'
