FAN BEHAVIOR COSTLY

Sports of all kinds should be entertaining, exciting, cleanly played with sportsmanship being exhibited by both winners and losers. Fortunately, this is the way it is usually in Madison County. Even the bitterest of rivals understand that fair play and sportsmanship pay off in every way. Hotly contested games sometimes result in the loss of tempers among players but generally, these tempers are cooled down in seconds as play continues. More often than not, the losers are quick to congratulate the winners following a game. This is all a part of wholesome athletics.

The main trouble spots in our county in football, basketball and baseball are not the behavior of the players but the behavior of a few disgruntled fans. Many times when a fan disagrees with a referee he shouts insulting remarks at the official and in a few cases even attacks an official. This not only results in embarrassment for the players and school but also marks the fan as a poor sport. We are not saying that officials don't err. They do. But more often than not their angle on a play is different than the action seen by an irate fan. Moreover, we have never known of an official deliberately making bad calls to favor a team. Some officials are more strict than others. Some aren't as good as others. Generally speaking, however, officials do a fine job which should be appreciated rather than abused.

We have heard of several incidents this basketball season where fans have been completely out of line. It is a fan's prerogative to yell, cheer, and even boo, on occasion. He has paid his admission and many fans, not understanding the finer rules of the game, are so biased they see no wrong when his favorites are playing. This right to express your feelings, however, doesn't mean that you have a right to insult or strike an official.

When conditions get so intolerable, the officials can refuse to work a game on certain courts. It can only hurt the players and reputation of the schools when fans make this drastic action necessary.

Let's remember that the players are doing the best they know how. The coaches are trying to do the best job they can. The officials are qualified by the Association and are not interested in who wins or loses. They are doing the job they have been assigned. We urge the fans to also do the best they know how to preserve and protect sports in our county.

LICENSE DEADLINE

February 15 — a little over two weeks — is the deadline for displaying your 1965 license plates. Time passes by so swiftly if you aren't careful you'll find yourself waiting in line to receive your license. We suggest you purchase your license plates NOW and avoid the last-minute rush.

For many years our people have been waiting for a license bureau in Marshall so they would not have to travel to Asheville or some other distant place to purchase their tags. Fortunately, license plates are being sold HERE this year and hundreds of car and truck owners are well pleased. Instead of waiting in line in Asheville or having to write to Raleigh for their licenses, county people now have only to walk down to the Farm Bureau Office on Lower Bridge Street and in seconds get their licenses.

It sounds a bit foolish but we've been told that some of our local car owners have driven out of town to purchase plates when they could have purchased them here. We are also cognizant that many motorists wait until the last minute to purchase tags.

We congratulate the Farm Bureau on making the purchase of licenses possible in Marshall and we think the motorists of our county should buy their licenses here. Without a successful output of licenses this year, it is quite likely that by next year we will again have to go elsewhere for them.

LETTERS TO THE EDITOR

FLOWERS STOLEN

January 26, 1965

To whom it may concern: I will pay \$25.00 for information leading to the arrest and conviction of person or persons caught taking flowers of Charles South-erland's grave at the Fairview Cemetery.

This has been done several times in these few months, and I can identify the Christmas piece. There's nothing anybody can do that's any lower than this; and it's the least we can do for our loved ones, is to decorate the graves.

I'd love to meet you face-to-face — the one that did this — and just see what you look like. MRS. OSCAR SOUTHERLAND Hot Springs, N. C.

"No," she replied.
"Neither will Eddie."

MY DARKNESS

The little girl refused to go to sleep in a neighbor's home, unless the bedroom door was left open.

"Why, you're not afraid of the dark—a big girl like you," the neighbor teased.

"Yes I am," cried the little girl.
"But you're not afraid of the dark at your house."

"I know," answered the girl, "but that's my dark."

HER OPINION

A robust matron asked a fashion expert her opinion of the purple dress she was wearing.

"What colors should I wear?" she inquired.

"Madam," the expert said, "when God created butterflies, he made them with brilliant colors, but when he made the elephant, in His great wisdom, He made it gray."
