HEARD AND SEEN By "POP"

You've heard about how some girls "glow" when in the presence of a "special" boy friend — I know a certain MHS gal who really "glows" when she's near "the only one" — I've seen both girls' games between Marshall and Mars Hill and after two games only two points separate the total scores — Mars Hill won in overtime at Mars Hill by one point — Marshall won Tuesday night's game by three points — who could ask for closer and more exciting games? — both teams are quick and aggressive and are composed of fine talent — the crowd here Tuesday night resembled a tourney turnout — speaking of tourney, it's not too far off — have you ever seen so much haze and dust as we had Tuesday afternoon? — looked like smoke from a nearby forest fire but understand it was results of the dust storm in Oklahoma — I've been having the boys here at the office Bondexing the walls — Earl Davis had a narrow escape Monday when the ladder slipped — Earl came down from near the ceiling most gracefully (?) — and landed safely on the floor — but — the Bondex spilled all over a large switch box — hours of cleaning and driving didn't "heal" it — had to get Millard Tipton to "repair" it Tuesday afternoon — met the Rev. Durward Hoffer's father at the Girl Scout Banquet last Thursday night at the George Vanderbilt Hotel — (Durward is pastor of the Mars Hill Methodist Church) — he's a real fine gentleman — knew my father — in fact, he came from the same section of eastern North Carolina as we did — congratulations to the "Rocky" Bowmans on the arrival of a daughter — also to the Rev. and Mrs. Bill Deans on the arrival of Donna Elizabeth — Bill "lost" his voice soon after the new arrival — came in handing out cigars but could hardly speak — said it was bronchitis but I'll bet it was just a tired throat from telling about the arrival — it was so warm here Tuesday p. m., that many were out in shirtsleeves — but not so Wednesday — brrr — it was cold — all local flags are flying at half mast in respect to the late Sir Winston Churchill — the world has lost a truly great leader — we surely do miss Doug Robinson around here — hope he'll soon be able to return to Western North Carolina.

What do you think of the fashion experts wanting to raise women's skirts to about two or three inches above the knees? I think some one is getting a little "touched in the head!" Of course, I have no apologies for my OWN, but I'm worried about some of my friends, now, there's... whose knees look like a cup cake on a stick; and there's... whose knees have been hidden by fat for over 15 years — like someone said, it sure takes bee's knees to wear these styles!

If you haven't read this week's LOOK, you must. There's a story about this young lady who decided after a young marriage and five children and being on the welfare that she would finish high school and college — and she did! Also a story about how young interns who have to moonlight to make ends meet financially, and an amazing new basketball find in 17-year-old Lew Aleindor who is just 7 feet tall and a whiz at basketball.

Speaking of reading any magazine, the juniors are selling them for the next two weeks and my co-sponsors, Mrs. Fain Sprinkle and Mrs. Willie Lewis, are trying to outsell my class, but let them just wait — we'll see who comes in first and wins Leo, the Lion! Come on, MY YOUNGERS, and win! Ronny Shelton so far is heating all of us and I hate to mention that he's from Mrs. Sprinkle's room, but you just wait until my crowd really gets started!

Sure hated to miss the second traffic safety meeting at Raleigh this week, but I couldn't make it. It really did make me conscious of many things when I attended last year. I saw several 35 mile an hour signs after I attended that meeting that I'd never seen before! I guess I have a few more driving improvements I could make and I'm gonna try if this Ford will stay with me!

I was sorry that our new governor and his wife are hospitalized, and also about President Johnson and Lady Bird. Did you read where President Johnson said he didn't get cold because he had on "electric underwear!" The writer said he really had on thermal underwear. Poor Governor Moore went through his inaugural with a toothache and then off to Washington and got the cold bug. Ah, the price of fame! I'll take slight cold and swap places!

Observed — I wish you could hear my students judge the merits of the Constitution — we are just about through our study of it — they have some opinions, I'll tell you — Gald to see Mrs. Jack Lunsford back to school after a bout with the flu bug — What will happen to Dr. Martin Luther King if he stays too long down south? — Let me quote our new Vice President on a cute remark about the new office he has, "I weighed this decision about the Vice Presidency very carefully — not long, but carefully — if there's one quality I do not have it's reluctance — Who can forget those storied names (American Vice Presidents) from our glorious past — William A. Wheeler, Daniel D. Tompkins, Garrett A. Hobart, and Henry Wilson!" Come to think of it, I've been teaching history for some time and none of these ring a bell with me!
