"YOU ARE THE MAN"

Memory Selection: "I the Lord thy God am a jealous God, visiting the iniquity of the fathers upon the children unto the third and fourth generation of them that hate me; and showing mercy unto thousands of them that love me, and keep my command--(Exodus 20:5-6) ments."

Lesson Text: :2 Samuel 11

Today the theme of our lesson is in regard to the opportunities and responsibilities we have when we are confronted by our own sins and the sins of society.

Up until now we have been studying the life of David in his splendid manhood; his wisdom and sense of fairness and his sense of responsibility as a leader of his people chosen by God. In this lesson we are made acutely aware of the fact that David was a mortal man, such as we are, and as such, was extremely vulnerable to sudden temptation,

It is a remarkable fact that the Bible records the evil along with the good; thus we see that most of the men of great stature in Biblical times had their weaknesses and their failings. Temptation came to them just as it comes to us today, and then, as now, the sins of just one person can bring tragedy to the lives of many. David coveted the wife of another, and for this he paid dearly, as Nathan, the prophet, had warned.

Nathan, charged by God to confront David with his sinful acts, approached the matter obliquely; used the narable of the on ewe lamb. David, incensed at such rich man in the parable, and this lives?

gave Nathan the opening for which he sought. One can only imagine the shock David felt when he saw the truth of Nathan's

It is a human failing that we see the faults of others more readily than we see our own. But it is much to David's credit that he acknowledged his sin and repented. It takes a great man to do that, and to stand up to the consequences of a sinful act. This David did, and was forgiven of his sin, although that did not avert the punishment that was to befall him.

Here is another lesson for us to learn; confession and repentance will, by God's own covenant, restore the sinner to grace. It will not, however, undo the harm that has been done, and the natural consequences of a sinful act must be borne.

Sin and God are on opposite sides. God hates sin . . . but loves the sinner enough to send his only begotten Son to die an agonizing death on the cross in order to save mankind. No greater proof of His love could be offered. He is a merciful and forgiving God, but we must not lost sight of the fact that he is also a just God.

For what sins is he judging us? Are we selfish with our possessions, and careless of the possessions of others? Are we con? doning wrongs in our society that we could not condone individually? Is the "herd instinct" blinding us to what is right and what is wrong? Collective sin is just as bad as individual sin - in God's eyes. But in this case repentance cannot come from society . . It must come from the individual, because, in the final analysis, individuals make up so-

Society has its problems today. Because we are society, the problems are ours; and while we, as individuals, may have had no hand in the making, still the fact remains we are the ones who must do something about them. David was the servant of God; it was only after he repented of his sins that he was restored to God's

How much of a parallel can injustice, roundly condemned the the story of David find in our

Malinda Bullman Passes Thursday: Funeral Sunday

Mrs. Malinda Bullman, 84, of R.t. 3, died Thursday, March 29, 1965 in a Matauga County hospital after a long illness.

Surviving are four sons, Hobart and Ezekiel of Marshall Rt. 4. Emory of Swannanoa and James Bullman of Black Mountain; a daughter, Mrs. Boyd Cutshall of Black Mountain; 25 grandchildren and 39 great-grandchildren.

Services were held at 2:30 p. m., Sunday in Hopewell Baptist

The Rev. Lloyd Chandler officiated and burial was in Greene-Bullman Cemetery. Pallbearers were grandsons.

Bowman Funeral Home was in

5th Sunday Meeting At Bradburn Chapel On Sunday, May 30

The regular Fifth Sunday services will be held at the Bradburn Chapel Church of God on Bailey Branch.

Service will start at 2::00 p. m., and all singers, speakers and the public are invited to attend.

WHY LIME THE SOILS?

Is the principal function of lime in the soil to supply calcium and magnesium for plant nutrition or to inactivate toxic substances in the soil while increasing the availability of others? Leading agronomists differ in their answers to this question. Some hold that supplying the calcium and magnesium for maximum plant nutrition is the primary function of liming. Others maintain that decreasing the solubility of aluminum and
