HOPELESSLY LOST
It's a proven fact that people who beat around the bush take the long road to nowhere.

HEARD AND SEEN
By "POP"

It's quite a feat to pitch a no-hitter in any kind of baseball game but to pitch one in the State playoffs is really something — but wait — not only did Steve Davis pitch one no-hitter, but TWO in the playoffs — not to be outdone, teammate Charles Tolley took the mound in the final game and although his control was a bit erratic, he, too, pitched a no-hit game against Pantego — imagine, THREE no-hit games in State playoffs — three consecutive no-hitters — it's almost unbelievable but it's true — I saw 'em — that is, the last two — I'm positive this is and will be an all-time record — again I congratulate the Wildcats and Coach Wallin on winning the championship — was invited up to Mars Hill last Saturday night for the dinner at Warrick's honoring the Wildcats — the steaks were delicious — the boys presented Coach Wallin with a gold plaque and Jerry Plemmons, of WMMH presented the annual trophy for the county championship — I enjoyed being with the boys — a swell bunch — Mrs. Dick Anderson (Esty) who helped prepare the steaks, asked me how I got invited to so many dinners — says she reads this column every week — well, "Boy," I don't exactly know why I'm invited to so many, but I'm sure glad that I am — I enjoyed watching the VBS parade in town last Saturday afternoon — a very impressive parade — many attractive floats — congratulations to the leaders and children — one Marshall resident said it was the "best thing which has happened here in a long time" — I agree.

JUST A WOMAN'S OBSERVATIONS
By DOBOTHY E. SHUPE

I'm so glad that White and McDivitt got back from their weekend trip to outer space. Can't see what intrigued White so much in the wide open spaces — I believe I'd have hopped back in before I even got out! However, I'm all for this going into space and seeing just what goes on. They might find a place for all these worn out cars. I have always heard of people playing "possum," but until today I didn't really believe that one of those little animals would pull such tricks. Charlotte and I were on our way to Asheville when we drove by one squatted at the yellow line in the road. I was so happy that I didn't hit him, and when we looked back, he was lying all sprawled out as if we had blasted him to heaven. A car coming behind us passed him also as he lay there, pretending to be dead! Can't believe that school is really out yet. Of course today (Wednesday) is my first free day, and it just seems like Saturday. I imagine Ronnie Bishop, Fred Messer, Linda Kedmon, Barbara Edmonds, Angela Roberts, and several students would be willing to write 500 "Necessities" just to be back, not with me, but their school friends! Saw old Ray Davis Tuesday and he was already having a day off after working for one day! I guess it only took the A and P (or is it Colonial?) one day to find out he and work are complete strangers! Observed — Hope all that talking and pleading that I did will have some effect on those junior girls that plan to get married this summer — Enjoyed seeing Jerry Rice and hearing him talk at graduation — he has done well in the educational field and I know his parents are proud of him — Was so sorry for all those people that had water damage in the Walnut Creek area Tuesday night — Guess I'd better hush and get to work on this dirty house — this Spring cleaning come for too often!
