

## Hot Springs News

R. C. KIRBY, Correspondent

Miss Shirley Brooks, who is employed as librarian in Salisbury, was home over the week-end.

Mr. Joe Tilson, who has been in failing health for the past few months, has entered Laughlin Hospital in Greenville for a thorough examination.

Mrs. Bettie Ross and son, Larry, of Jacksonville, Fla., will arrive here for the Thanksgiving holiday to visit her aunt, Mrs. G. C. Long. On Friday night, Nov. 26 they will show the pictures made on their trip to Alaska, at the Presbyterian Church. All are invited to see them.

Dr. Mahy of Warren Wilson College, occupied the pulpit at the Presbyterian Church Sunday.

Mr. and Mrs. James Gentry

went to Brevard Sunday to visit their son, Ronnie, who is employed there with the Forestry Department.

Mr. and Mrs. O. W. Grubbs spent the week-end in Greens County with relatives.

Mrs. Frances Buquo spent Sunday in Asheville with Mrs. Leta Buquo.

Mrs. Mildred Izlar has returned from a visit with her daughter, Mrs. Bud Smith, and family in Richlands, Va.

Mrs. Peggy Dotterer spent Sunday in Burnsville with friends.

Mrs. Frank Ramsey is home again after a three weeks' visit with her daughter and family in Ohio.

## Here Comes The Bookmobile

"Minnie, Minnie, Min-al-e-o-o, Janet Buckner came into the Library looking sorter excited and asked if the new BOOKMOBILE had arrived. We said we didn't think so. She said there was a blue van up at Chick's. We took off on the double. There she was way up on the rack as new as tomorrow morning, as blue as the sky on a lovely summer day, and as be-you-tiful as the view of Bluff mountain from the highway on the way home. Charles was giving her some nourishing grease to rest her after her long trip so we didn't bother her on the first trip. Yes, we went back twice more. The last time we got inside and gave her a friendly pat, and told her our name was Peggy, and that we sure were happy to have her join our library family. We told her that we believed in using first names right off the bat because it seemed more friendly-like. Then she said her name was BLUE CLOUD. She said there was more to it than that but for us to call her that 'cause she sure did aim to be our friend. We told her that Mattie would be around a little later to tell her 'howdy.' We explained that was the friendly greeting around here. She said she would say 'howdy' to everybody she met if that was the case."

"Now Minnie we aren't running around like a turkey with our head cut off. We are just excited, thrilled and bubbling over 'cause BLUE CLOUD has finally come. We have been looking forward to this big event ever since September 18. And now that it has actually come to pass you can't expect us to be cool, calm and collected. Besides it is good for people to bubble every now and then."

"So-long Minnie, we have to go tell BLUE CLOUD about the house that Mack Ramsey is building for her."

According to Dr. Celso Ramon Garcia, research scientist who has conducted extensive tests with the oral contraceptive pill, women who have used "the pill" for as long as 80 cycles had no trouble conceiving when they discontinued its use. Sixty per cent of them, he reports, became pregnant within two months.

cording to Dr. Celso Ramon Garcia, research scientist who has conducted extensive tests with the oral contraceptive pill, women who have used "the pill" for as long as 80 cycles had no trouble conceiving when they discontinued its use. Sixty per cent of them, he reports, became pregnant within two months.

## WELCOME BLUE CLOUD

Welcome pretty Blue Cloud, To our friendly town. We wish to assure you We're glad to have you 'round.

You'll love our rugged mountains; Of this we're very sure. Once you've become affected, You'll find there is no cure.

You'll carry your precious cargo On winding roads so high; Where mighty majestic mountains Strive to meet the sky.

Down green, quiet valleys, Lullaby you will creep. Winding by cool streams, Dreaming, half asleep.

You're sure to love our people. They're the best God ever made. They'll greet you with a smile— One that never seems to fade.

They'll always be quite thankful; For doors you open wide, Into worlds they do not know, Through books you have inside.

In your mistress you will find You have the truest friend; A kind, unselfish lady, Whose corny jokes will not offend.

Welcome again, pretty Blue Cloud. We await with open arms, To make you a part of us, In our towns and on our farms.

## Mrs. Callie Stamey Passes Last Friday; Funeral On Sunday

Mrs. Callie Stamey, 85, of Rt. 2, Hot Springs, died Friday, November 12, 1966, at the home of a daughter, Mrs. D. T. Moore, Rt. 3, Canton, after a long illness.

She was the widow of T. F. Stamey and a member of Gap of the Mountain Methodist Church. Her parents were Henry and Hester Balding.

Surviving beside Mrs. Moore are three daughters, Mrs. Hester Fleming of Wayneville Rt. 1, Mrs. J. H. Caldwell of Hot Springs Rt. 2, and Mrs. L. M. Adams of Aiken, S. C.; five sons, Carl, of Black Mountain, Carl and Elmer of Hot Springs Rt. 2, Claude of Wilkesboro, and Carson Stamey of Charlotte; a brother, Newton Balding of Asheville; two sisters, Mrs. Howard Taylor of Marion, and Mrs. Roy Plemmons of Wayneville; 21 grandchildren and 24 great-grandchildren.

Services were held Sunday at 2 p. m., at Meadow Fork Baptist Church.

The Rev. Lloyd Young and the Rev. Elmer Keener officiated and burial was in the church cemetery. Grandsons were pallbearers and granddaughters were flower bearers.

## WOMEN'S HEALTH

Obesity Responds to Hormone Treatment

Preventing Rheumatic Fever in Children

Women Conceive Promptly After Going Off 'Pill'

## OBSESITY RESPONDS TO HORMONE TREATMENT

Los Angeles, Calif. (WMNS)—Noting that most obesity is due to overeating and not to glandular disorders, as has been widely thought, Los Angeles gynecologist, Dr. Joseph M. Harris, recently reported the successful use of a hormonal substance (human chorionic gonadotropin) as an appetite suppressant.

The physician observes that obesity is more than an esthetic problem. It can contribute to delayed menstruation as well as menstrual disorders, miscarriage, premature labor, and even infertility.

Using the hormone in conjunction with diet, the doctor reports that several of his patients not only lost a great deal of weight, but were relieved of many of their menstrual complaints and report-

ed feeling in generally good frame of mind while on a severely restricted diet.

## Preventing Rheumatic Fever In Children

New York, N. Y. (WMNS)—Rheumatic fever can often be prevented says the American Heart Association, if parents are on the alert for the earliest symptoms which can lead to the serious disease. If your child complains of a sudden sore throat that hurts mostly when he swallows; runs a fever over 101 degrees; has a headache; is nauseated — call your doctor at once. The youngster may have a strep throat, and strep infections can lead to rheumatic fever.

Unlike other childhood diseases, rheumatic fever can strike more than once, and can do serious injury to the heart. Doctors can knock out strep infections fairly easily with penicillin or sulfa drugs, but early treatment is essential. If a child is exposed to scarlet fever, his doctor should be alerted at once. Preventive treatment can ward off complications such as rheumatic fever.
