Feb. 4 — Laurel
Feb. 8 — Open
Feb. 11 — Open
Feb. 15 — at Fines Creek

SPRING CREEK MARKSMEN

Phil Price (right) and Benny Willett proudly display a sign showing how many points they combined to score against Marshall Tuesday night of last week. The 71 points resulted from a 39-point production by Willett and 32 by Price. Their Spring Creek High team defeated Marshall's boys' basketball team, 108-68.

Hot Springs News

MRS. NANCY CAREY, Correspondent; Phone 3415

The Reverend Harry and Lina Sellers had open house Sunday, December 12. Members of the Hot Springs W.S.C. served refreshments. Approximately forty guests came from three o'clock until five.
David Woodhouse is ill with a virus infection.
Hazel Swaney had to have a piece of glass removed from her eye last week.
Mr. and Mrs. Frank Moore of Charlotte visited Mr. and Mrs. Roy Henderson the past weekend.
Mr. Dennis Clark is ill, suffering from a cold.

Mr. and Mrs. Luntford, Mrs. Wright and daughter went to Pensacola, Fla., in order to bring Mrs. Luntford's grandson here for Christmas.
Melanie Aulls has been ill, but her condition is improved.
Mr. and Mrs. Robert Carey and family have all recovered from a recent virus.
Mrs. Nancy Carey would appreciate it very much if the people of Hot Springs would call her at 3415, giving her news that she might be able to send it in for publication.

Engagement Announced

MISS KAYRON JOY BALLARD is the daughter of Mrs. Edward Ballard of Weaverville, who announces her engagement to Kenneth Reavis. The bridegroom-elect is the son of Mr. and Mrs. Lawrence Reavis of Mars Hill. A March wedding is planned.

Mrs. Ollie Davis Buried In Locust Grove Cemetery

Funeral services for Mrs. Ollie Davis, 82, of Weaverville, Rt. 3, who died in her home Monday, November 29, 1965, were held in the Locust Grove Baptist Church on December 2. Mrs. Davis was a member of the church. Burial was in the church cemetery. The Rev. Clell Fisher officiated.

Survivors include a daughter, Mrs. Malinda Sprinkle, Detroit, Mich.; three sisters, Mrs. Blanch Smith, Weaverville; Mrs. Pearl Emrich, Spartanburg, S. C.; and Mrs. Rejetta Yelton, Mars Hill; a brother, Dexter Howell, of Washington, D. C.; two grandchildren and eight great-grandchildren.

Fall Application Of Methyl Bromide To Plant Beds In Favor

A number of farmers in the Forks of Ivy community of Madison County have recently applied their methyl bromide to tobacco and tomato plant beds. These farmers will be ahead of their neighbors when it comes time to seed their plant beds. Fall application of methyl bromide to plant bed sites has proven very satisfactory at agricultural research stations in Western North Carolina and Eastern Tennessee. The advantage of this practice gives farmers assurance that his plant bed will be ready when the time of year comes that he would like to seed it. The fear on the part of some farmers that weed seed will blow into the plant bed after they have been gassed has been unfounded. The normal precaution of ditching around the bed to prevent water from washing weed seed into the plant bed is justified and should be practiced.

Other farmers could take advantage of early fumigation of plant bed sites simply by preparing the plant beds for the application of gas, and when warm, clear days are present, apply the methyl bromide in the regular manner.

CHRISTMAS TREE SELECTION IS IMPORTANT

What do you look for when selecting a Christmas tree? Which species do you like best? Do you prefer a North Carolina grown tree or an imported one?
First, what do you look for when selecting a tree? Perhaps the first thing you should look for is freshness. Many trees are cut too soon and transported long distances to market. Frequently the leaves have dried out and are shedding before you buy it. Such handling lowers both the quality and color of the plan. Fragrance is also reduced.

Which species do you like best?

The Red Cedar has been a favorite for many, many years and still is. It can be grown from the Coastal Plains through the Piedmont. Due to the natural compact habit of growth, it requires little or no shearing. The fragrance is excellent. It should be used fresh as it has a tendency to dry out quickly after cutting. Probably best adapted for local retail sales.

Other species adapted to North Carolina are: Fraser Fir, White Pine, Scotch Pine, and Norway Spruce. Of these species, Fraser Fir and white Pine are, presently, the most important for commercial production in the mountains of North Carolina.

Fraser Fir has good color, pleasing fragrance, strong branches and excellent needle holding ability. It likes the cool environment provided by the higher elevations and prefers a moist soil. White Pine is a rapid grower,

has good shape, and flexible branches. It requires proper shearing to produce a compact tree. The color is good and the popularity of this species is on the increase.

As reported to you earlier, the growing of Christmas trees in North Carolina has developed into a full-fledged enterprise, backed by a lively Christmas Tree Association. While the industry is small, in comparison, it has an excellent potential and will grow as our people support it.

2 SPRING CREEK BASKETEERS HIT 71 POINTS

By RICHARD MORRIS
Two players in the 30 figures in scoring in college basketball in this day of free lancing, high scoring games isn't uncommon but in high school basketball one player with 30 or more points is

a rarity. Little Spring Creek High came up with two players setting that figure last week in a 108-68 triumph over Marshall.
Together the twosome totaled 71 of the points with senior Benny Willett notching 39 points and senior Phil Price scoring 32. The win avenged a beating that Spring Creek suffered two years ago when Marshall went over the century mark.
Spring Creek, a school of 85 students, owns a 5-1 record this

season with the lone loss being to strong Mars Hill by a single point.
The Spring Creek team is averaging 82 points a game and only three players on the team are averaging in double figures. Phil Price sets the pace with an average of 24 points a game. Willett, a cousin of coach F. N. Willett, is hitting at a clip of 21 points a game and Bobby Price, a junior is averaging an even dozen a game.

Robert W. Gardner Passes In Florida; Rites At Woodfin

Services for Robert Wade Gardner, 79, of Seffner, Fla., formerly of Woodfin, who died Saturday, December 11, 1965 were held at 2:30 p. m., Tuesday in Richland Baptist Church, Woodfin.

The Rev. Harry Dycus and the Rev. Glen Callahan officiated and burial was in West Memorial Park. Pallbearers were Herschel Ayers, Arnold Penland, A. V. Roberts, Glen Shuford, Doyce Marshbanks and Luther Carver.

Surviving are the widow, Mrs. Julia Marshbanks Gardner; three sons, James Gardner, Woodfin, Bobby of Asheville, and Arthur Gardner of High Springs, Fla.; a brother, John Gardner of Trust; three grandchildren and three great-grandchildren.

BLOODSHED BOXSCORE ON N. C. HIGHWAYS

Raleigh — The Motor Vehicles Department's Summary of traffic deaths through 10 a. m., Monday, December 13:

Killed to date — 1504
Killed to date last year — 1498

cialist, approximately one million trees are used in North Carolina homes each year, with 80 per cent of this number imported from Maine and other producing areas. So you can see the opportunity we have to support a home industry. Ask for North Carolina grown Christmas trees to brighten the Yule Season for you and yours.

REMOVE WARTS!

Amazing Compound Dissolves Common Warts Away Without Cutting or Burning. Doctors warn picking or scratching at warts may cause bleeding, spreading. Now amazing Compound W* penetrates into warts, destroys their cells, actually melts warts away without cutting or burning. Painless, colorless Compound W, used as directed, removes common warts safely, effectively, leaves no ugly scars.

Which Price Tag Would You Choose?

The sale price isn't the only thing that can affect your total cost in an equipment purchase. Important savings can mount up with sound financing, as in these three examples:

A Borrowing \$2,000 for five years on the "easy payment" plan ... with 6% interest, calculated on the original sum borrowed, plus a 5% "Carrying" charge, means five annual payments of \$540 each. Total cost: \$2,700.

B Borrowing \$2,000 for five years at 6% interest under the "interest-in-advance" plan, no carrying charge, but interest calculated on the original sum borrowed, means five annual installments of \$520 each. Total cost: \$2,600.

C Borrowing \$2,000 from PCA for five years at 6% interest, PCA charges only simple interest, figured on the unpaid balance for each year. The first year interest is \$120, but the last year only \$24. Total cost: \$2,360.

... the PCA Way is the easiest and most economical
