

NEWS FOR VETERANS

Below are authoritative answers by the Veterans Administration to some of the many current questions from former servicemen and their families. Further information on Veterans benefits may be obtained from any VA office.

Q—How can a veteran selling his home be relieved of liability on a VA guaranteed loan?

A—One method is to require the purchaser to pay off the GI loan with his own resources or obtain a new loan. Another method is to have the purchaser assume all the veteran's liabilities on the home and have the VA approve the assumption agreement and specifically release the veteran from further liability to the VA.

Q—In 1946 my ten percent disability was reduced to zero percent. The reduction to zero percent made reinstatement possible if my disability reoccurred. Does my zero percent entitle me to reinstate my National Service Life Insurance, which I dropped in 1946?

A—Since it appears that you have a service-connected disability, you may apply for the new insurance which is being sold by the Veterans Administration. Application must be made before May 2, 1966.

Q—My application for insurance under the law which permits service-connected disabled veterans to apply for insurance until May 2, 1966, was rejected because I had a non-service-connected disability in addition to my service-connected disability. This non-service connected condition has improved and is no longer disabling. Will the insurance now be granted?
