## Heard And Seen

By Pop Story

Just about the time I think summer is arriving the weather turns frigid...cold enough for electric blankets, car heaters and furnace heat...my gosh, maybe warm weather will get here soon and stay a spell...sometimes pleasant things happen when you least expect them...for instance, last Friday "Bill" and I were eating at Landers Restaurant when Lawrence and Hattie McElroy came in and after the four of us finished supper they invited us out to their lovely home to see a "new litter of pups"...they were real cute and their mother was really taking care

of them...after that Hattie asked me to play their Hammond organ...it's a fine organ and I enjoyed playing it...we sang many of the old favorites and even Hattie and I played a few duets...she on the piano and I at the organ...we enjoyed our visit there as we recalled many happenings in Marshall since our childhood..."Bill" and I also had the pleasure of "cat sitting" at the John Corbets over the week-end while they spent several days in Wilmington and other places...we always enjoy petting "Marcus", their beautiful Persian pet and we look forward to this opportunity any time they want us to...two new employees at Roberts Pharmacy have almost identical names...one

is Miss Terry Thompson and the other is Mrs. Terry Thomas...Miss Thompson is from Oxon Hill, Md., the daughter of the former Pauline Frisby who used to live here...and Mrs. Thomas is from Alameda, Calif., who is residing on Route 4...both girls seem to enjoy their work...the two Terrys, along with Janice Caldwell, Faye Flynn and Cheryl Flynn make a good team...the picture of the giant Chestnut tree elsewhere in this issue reminds me of the good old days when we used to go chestnut hunting real often...that was of course before the blight which destroyed the chestnut trees...

**MICRO OFFICIAL ATTENDS SEMINAR** - Ginni Siler of Micro Switch, Mars Hill, attended a special seminar last week on supervisory management. The short course, sponsored by the Center for Management Development (CMD) at Appalachian State University, was on "Employee Interviewing and Appraisal Techniques." It was led by Harwell (left) and Siler (right), who is employment interviewer at the Micro Switch Division of Honeywell. The day-long seminar was held Appalachian's Center for Continuing Education. The CMD offers special staff development courses and programs to meet the needs of business and industry in Northwestern North Carolina.

The Board of Directors of Woodlawn Academy, Chatham, Virginia, has selected Wayne D. Massey as new headmaster. Dr. Massey is a native of Norfolk, Virginia, and has undergraduate degrees in business administration from Bluefield College and Virginia Polytechnic Institute. He received his master's degree in English from Western Carolina University in 1970 and has recently earned his doctor of education with a major in English and a minor in educational administration from Ball State University, Muncie, Indiana. Dr. Massey has taught in private academies for ten years and has been on the English faculty at Ball State for the past three years. Mrs. Massey is the former Ann Ramsey, daughter of Mr. and Mrs. Walter P. Ramsey of Marshall.

Ever wonder how many races a horse could win during one career? Kingston, one of the fleetest thoroughbreds ever to circle the oval, won the slugging total of 89 races in 138 starts!

## Thank You, Lord

Lord, you blessed us with a child three years ago. Today Lord, she is three years old. I just want to thank you, for giving her to me. I'll do the best I can Lord, to raise her for thee. You give her life, you give her breath, I thank you Lord, for her good health. Thank you, for the Voice, that whispers to me. Thank you Lord, for her eyes that see. Thank you for the ears, that you have let hear. Thank you Lord, for these past three years. Thank you, for the arms that hug us so tight. Thank you for the feet that walk so light. Lord, I'll tell her about you, I'll teach her to pray. Watch over her Lord, and help her each day.

Amen  
Mrs. J. C. Hensley

## EDITORIAL

### That Important Car Litter Bag

GUEST EDITORIAL  
By HATTIE TEAGUE  
Member Bicentennial  
Committee

Now that vacation time is almost here and picnics, camping and taking trips are about to start - let's not forget to take along that sturdy brown paper bag. When we eat that candy bar and drink that coke instead of throwing the candy wrapper or coke can out the window, drop them in the bag.

Recently a man decided to find out how many bottles, cans and other kinds of litter could be found along a roadway. He drove with his family to a highway about 20 miles from a big city. Then they measured off a tenth of a mile of road and began collecting the litter they found along both sides of the road for that distance.

In a short time the family had collected 148 cans, 48 bottles, 137 pieces of paper and cardboard, and 30 other pieces of litter, including plastic containers and auto parts.

Some people have suggested that we get rid of wastes by sending them into space. Imagine a huge rocketship loaded with litter! But sending junk into space would be too expensive.

But the people in Madison County don't have to worry about the rocketship. We have a landfill which will take care of all the litter in our county. People are being informed about this and asked to cooperate in gathering together all the litter along the roadsides and around our homes - put it into bags or all in one place to be picked up. It will be taken to the landfill and buried from our sights forever.

Our schools can do a lot to solve this litter problem by encouraging young people to use their sense of perception and see what they can do about the litter that is spoiling the environment. Our schools can also present the concept that enormous amounts of money are spent for litter removal and that money could be better spent for more worthwhile projects if the problems of litter were solved.

Here are a few suggestions school children would

enjoy participating in.

1. Form a litter bag brigade. Make litter bags as a project. Pass them out to your family, neighbors, friends and teachers. Put one in each school bus.

2. At one specific time every day pick up litter for a few minutes. You can do this anywhere you go. It will set a good example for others.

3. Pick out a piece of property that no one is taking care of. Ask the owner if you may remove the litter and weeds. He might even let you plant flowers and take care of them.

4. Ask the owner of a service station if he will donate several empty oil drums. Clean them out, then paint and stencil them with anti-litter slogans. Place them around the school or town for trash deposit.

5. Hold a contest for the best poster on litter prevention. Ask local merchants to display the posters in store windows and ask your newspaper to print the winning poster.

6. Let your local newspaper editors and radio managers know what you are doing. They can tell the public about it and get others interested in joining you. If others know that you care about where you live, they will care too! For more information on what you can do to help, write - Keep America Beautiful, 99 Park Ave. New York, N. Y. 10016.

High School students can learn a lesson on littering while taking their driver training. The instructor should place a litter bag in the car and set a good example of pitching in. Everyone, along with the students are going to have to learn to care about what kind of environment we are going to live in. We are going to have to set a good example in our own lifestyle. Nothing's going to change unless we are willing to live it ourselves.

## Let's Go Camping

By Donna L. Kuss  
County Extension Intern

With the coming of summer, also comes many, many other things and being that it's almost summer it's time to look forward to these things. Among one of the most rewarding, enriching and enjoyable of these events for the youth is 4-H Camp.

This summer Madison County will hold its camp June 10-15 at Camp Schaub near Waynesville. The total cost of camp will be \$28.00 which includes camp rental, refreshments each evening, handicraft materials, accident and illness insurance and transportation. There is also an optional fee of \$12. If you want to take the horsemanship class which will be offered. There will be several classes such as swimming and handicraft offered along with many group activities. There are places for varied types of

recreation, such as canoeing and volleyball.

Each camper is required to bring his own bed linen, toilet articles and is encouraged to bring lots of jeans. The departure time is 12 noon June 10 from the Marshall school, but be there a little early. It's a perfect opportunity to meet new friends, enjoy new experiences and learn! Any boy or girl between the ages of 9-14 is invited, although 4-Hers will have seniority. For any further questions and applications, please contact the County Extension Office.

## Candidates'

"Thank You"  
Ads

## Next Week

Due to the time element for printing this issue of The News-Record, it will be impossible for candidates to express their thanks for those who voted for them in Tuesday's Primary. Their appreciation notices will be published next week.

Candidates wishing to have advertisements are asked to prepare their copy and size of advertisement before next Monday noon.

"If I may assist you I will be glad to do so," Jim Story, editor, stated.

## Marshall Alumni Meeting Saturday, May 18

The 19th annual meeting of Marshall High School Alumni Association will be held in the school cafeteria on Saturday evening, May 18th, beginning at 7 o'clock.

Richard Wilde, president of the Association, stated that no cards are being mailed this year and urges all members to "spread the word."

It was also announced that

this year's meeting will be informal with no guest speaker. Following a buffet supper and business session, those present will enjoy fellowship with classmates and friends.

Members of the 1924 class are planning to celebrate the 50th anniversary of their graduation and urge their classmates to attend.

## Volunteers Needed For Project Here

"We are in desperate need of volunteer helpers to work on the improvement of the Marshall swimming pool and recreation center," Francis Pizzulo, supervisor stated this week.

Mr. Pizzulo is being aided

by a few civic minded men but many more are needed for various jobs in order to get the pool in condition for this summer. He stated that the proposed project was "two months behind" due to the lack of men showing enough interest in the community improvement to "pitch in and help."

"It is going to take more than one or two men willing to work in order to complete the job," Mr. Pizzulo said.

If interested in the community and wish to help in the project, call:

FRANCIS PIZZULO  
649-2035  
Marshall, N. C.

## Personal Mention

Mr. and Mrs. John Corbett returned to their home in Marshall Monday night after spending the week-end in Wilmington with their son and daughter-in-law, Mr. and Mrs. John A. Corbett, and their two daughters. Mr. and Mrs. Corbett also visited his sister, Mrs. Lois C. McCarty in Charlotte; and their daughter, Mrs. Ken Sanford and her family in Shelby.

# Northwestern will pay you 7 1/4 percent.\*

\*7 1/4% interest on a \$1,000 minimum, 4-year maturity Certificate of Deposit

Northwestern continues to pay the highest legal interest rate to its customers by offering this new higher-rate Certificate of Deposit. Federal law and regulation prohibit the payment of a time deposit prior to maturity unless three months of the interest thereon is forfeited and interest on the amount withdrawn is reduced to the passbook rate. Stop by or call any Northwestern branch.

**We Salute Thee, Mother!**

What is it about a Mother who loves her children equally, yet in different ways. Who will die for the life of her child, yet when it comes time for that child to become an adult, steps aside unselfishly and yields to the new personality?

What is it about a Mother who feeds, clothes, and sees to it that education is high on the list of priorities for her young. Who disciplines, though in her heart she wants to spoil. Who attends our sick, feverish days like they are her own. And who teaches us love, devotion, and compassion not from some book, but first hand through example?

Let us salute thee, Mother, for all you've done for us kids. We know it's not enough, just one day, to say thank you, we love you - but it's a start.

Love, Your Children

Each week we present the above comments for your information. We very much appreciate your comments and would be especially happy to have you advise your editor regarding all comments in this column.
