**Let us flip your coin**

There are two sides to the prescription drug coin. Side one is making absolutely sure that the drug(s) you receive is precisely what your doctor intended. That's our responsibility.

Side two is making certain you understand the correct usage of your prescription, so you'll receive the result(s) intended. That's your responsibility.

In both cases, however, the pharmacist flips the coin. We fill your prescription and provide you with proper directions for taking it. Yet, it's you who must receive those directions and follow them.

So, let us "flip your coin," with our super, personal service!

We're not only your drug store, but your friend. Come see us soon.

## Deringer Employees Distribute Gift Baskets

Employees of Deringer Manufacturing Co. in Marshall have come up with an idea that fits the spirit of holiday giving and promises to bring cheer to some county residents who have few visitors at a time of year when visits mean the most.

There is a concession stand at the Deringer plant that sells pop, candy and other snacks, and someone noticed that the stand had gathered some

modest "excess profits" — not on the scale of the oil companies, of course, but enough to make a difference at holiday time.

So the employees got together and decided to invest those profits in half a dozen gift baskets for people in the county. Each will contain a ham and a variety of fruit, to be arranged by Jimmy Buckner at Walnut Cash & Carry.

"We have an employees' committee," said Jean Wallin of the personnel department, "and we thought that this would bring some cheer to people who don't have a lot of relatives and so on at this time of year." Ruth Ramsey of the inspection department is chairperson of the project.

The baskets are being distributed up on Nov. 21, the day before Thanksgiving.
