

Building The Wall

Students from Madison High demonstrate the steps involved in building the wall behind the school. (From top, left to right) Ray Waldroup and Keith Wilde load pickup truck with rocks for trip to wall. Chris Peek adds water to cement mixer for mortar. Howard Shelton and Mark Barron place and line up large rock on wall. Randy Rice measures a section of wall to insure the

correct height. Rock wall construction site located above stadium. Wayne Robinson, masonry teacher, gives pointers to students on keeping top of wall level. D.G. Brackins, Wayne Shelton and Gary Ball pack mortar around newly placed rock. J.H. Fender scratches the mortar so that the rocks will stand out in relief from the mortar.
