The wet weather during the past few months has thrown the farmers badly behind in their work. But the coming of spring and an abundance of fair weather sees them busily engaged in preparing lands for sowing and cultivation.

The banks of the city observed an unusual holiday Monday. The day was proclaimed "Jarvis County Birthday" and the occasion of the closing was due to the fact that a large number of citizens were in Raleigh to work for Jarvis county. She was accompanied by her friend, Miss May Kaddell, of Shelby, who attends the same institution. Dr. W. L. Hudson, of Rocky Branch, was in town for a few days last week. Godwin, one of this section's most successful farmers, to a Dispatch representative a few days ago. He is of that type who board at home and live at the same place, and was commenting on the fact that so many farmers depend on sources other than their own farms, and go in for one staple crop. He says, however, that the farmers are fast growing out of this idea, and that the coming crop year will prove more conclusively than ever that diversification is the proper plan for all farmers to follow.

Howard, who has recently acquired the agency for the celebrated Maxwell automobile, made a trip to Rocky Mount Saturday to secure his demonstration car. Mr. Herman Bell, of Goldsboro, spent Sunday here with his people.

THE STOCK LAW Ex-Senator J. E. Foster of Clinton, Sampson County, believes the stock law has helped Sampson and that it would make a mistake to go back to the old free range. He expressed himself when asked as to the action of the committee recently in laying to rest the proposition to relieve the stock law issue in Sampson, after hearing objection from Sampson delegation, as follows: "It is undisputed that North Carolina is to become a cattle growing country, and Mr. Fowler had noted that the men who are really going into the cattle raising business in earnest are mostly land in possessors of the stock law. And to bring more money into Sampson by reason of cattle raising on a large scale, he argues, is to benefit every man of the county."—Raleigh Times.

THE SON OF SELFISHNESS It is hardly possible to contemplate anything more heinous, more wicked, than a human being so completely wrapped up in self that he has no time to consider anyone else, even one who should be near and dear to him. Yet there is such in the world and it is to be hoped the number is small. Selfishness is an abominable thing; it cankers the soul. It narrows one's perspective on the world and life about him. It is next to impossible for a selfish man to see anything except himself and his gain in every thought, in every action. A victim shrinks spiritually and mentally. A story goes that there was once a man who took his daily walks in tin shoes, and subsisted wholly upon tepid milk, had all of his work cut out for him in considerate dealings with his digestion and developed a fancy for rooms with regulated temperatures, etc., ad infinitum. Thus the care and comfort of one important body and soul became so engrossing and engulfing that the calls and cries for service from the outer world became low and indistinct. Prudence in the care of his person destroyed his capacity for general acts. A selfish man never makes a good citizen nor a good friend. One never goes to such a person for square dealing; one goes to a man who has least fear of his own carcass because such a person has most time to consider others. On the other hand, there is nothing more attractive or more pleasing than to see a man filled with a spirit of unselfishness and self-sacrifice. The man who carries his heart on his sleeve, so to speak, makes an acquaintance with the world that is wonderful to behold. He puts his health and his soul in the care of the Supreme being and goes out into the world doing good, relieving distress, and living the life of a real man.

WANT A SLICE OF CUMBERLAND A big delegation of Sampson, Cumberland, Harnett and Johnston citizens were in Raleigh yesterday for a new county to be called "Jarvis." The plan is to make it up of portions of Sampson, Cumberland, Harnett, and Johnston counties. If created, it will be Republican, as all the territory which will form it is peopled largely by regular old "moss-backs." It seems like a queer move to petition a Democratic Legislature to create a Republican county. And, queerer still, to name the Republican county for the old Democratic war horse, T. J. Jarvis. And queerest of all, for Democrats to create a lot of offices for Republicans. We have heard nothing of a delegation going to Raleigh to prevent the capture of Black River township by the would-be county makers.—Fayetteville Observer.

AN INTERESTING GAME is that of watching interest grow. Adolph Meiser, retired Soap Manufacturer, of Evansville, Ind., has given \$1,000.00 each to Illinois, New York, Mississippi and Indiana, the money to be held in trust for 250 years and 3 months, and computed semi-annually at 4 per cent. The sum finally produced will total Eighty Million Dollars and is to be used for benevolent purposes. You don't expect to live 250 years? Even so, interest will work surprisingly hard and fast, even for a shorter time, as doubtless you have learned from experience, while payment on a loan. Better begin too save, and watch the interest come instead of go. This bank is owned by home folks, who will appreciate your business. Under strict state supervision. The Bank of Cape Fear, G. M. Tighman, President T. V. Smith, Cashier, North Carolina, Dunn.
