Spring has arrived. If not officially, it is here informally, and following the custom of all country newspapers, we hereby announce its coming to get in line with everybody else. The latest plan to prevent Germany from starving is to forward food by international parcel post. The only drawback to this scheme is that the cost of transportation is prohibitive. But a twenty-five pound bag of flour during war times is a life saver. A number of them will feed scores for days. If German sympathizers can keep the pace, the food problem is partially solved anyway.

SUNDAY AFTERNOON ON FIRE

The damage was small and will not amount to over \$25 at most.

A WISE JAPANESE PROVERB

The Japanese have a proverb: "A thousand miles begin with one step." Its meaning is so obvious that it is unnecessary for us "to point the moral and adorn the tale," except to suggest that the sooner you begin your efforts in the financial world and the harder you work at it, that much sooner you will begin to reap the harvest. And it is a most magnificent harvest.

This bank is owned by home folks, who have your interest at heart as thoroughly as they have the matter of making money for themselves, and will be only too glad to have you "Take the first step" in that road which leads to financial success and future happiness, with us. Let us meet "with the smile that don't wear off" and assure you that small as well as large accounts are appreciated.

Under strict State supervision.
