LITTLE EMMA POTEAT BYRD
Last Sunday evening, shadows were lengthening, death with its black pinions, hovered over the home of Mr. and Mrs. W. P. Byrd and claimed as his own their precious baby, Emma Poteat. She was 17 months old, just at the age when every little act and look endeared her to her fond parents and loved ones and strengthened the cords of love that bound her to them.
But God never errs. He saw fit to put forth his hand and pluck the little reedbud, and so he did. All his acts, though they sometimes seem inexplicable to us, are wise and just.

The body was taken to Mrs. Byrd's home church near Clayton Monday for burial. Rev. Mr. Davis, of Four Oaks, conducted the burial service. Our entire community extends to the bereaved parents its heartfelt sympathy.—Harnett Post.

The Harnett County Circuit Community Fair Association was organized at Lillington last Monday. The idea had originated in the fertile brain of Mr. Joel G. Layton, who was this year President of the Buie's Creek Community Fair. Mr. Layton called the meeting and was elected chairman. There was some opposition to the idea of relating the meeting place for the fair as advocated by Mr. Layton, by some gentlemen, including Messrs. G. A. Cole, L. H. Campbell and J. R. Baggett, but the Layton idea was sustained by the crowd present. The following officers were elected: President, Joel G. Layton; Secretary, Superintendent B. P. Gentry; Treasurer, Dr. J. W. Halford. The following executive committee was elected: C. M. Tikhman, of Dunn; L. H. Campbell, of Buie's Creek; J. C. Byrd, of Burnsville; Chas. Ross and G. A. Cole, of Lillington. The executive committee is to draw up a constitution and by-laws to be adopted at the next meeting of the association to be held at the court house at one o'clock first Monday in December. The first community circuit fair will be held in either Dunn or Lillington sometime next fall. This will not necessarily interfere with the community fairs heretofore held in the county. Five community fairs have been held in the county this year and all of them are said to have been successful efforts. The last one held at Morris Chapel, an account of which will be found elsewhere in this paper.—Harnett Post.

WOULD RATHER STARVE THAN SEVER RELATIONS
In Debate in Sterling Dr. Mowinkel Says Norway Would Not Approach America as Beggar.
Christiania, Saturday, Nov. 10.—During the course of a debate in the storting today on the American note, Dr. Mowinkel, president of the house declared that Norway did not approach America as "beggars." He added: "We have and can render the western powers great services, and if we come to an agreement with America would be paid for too dearly if it were to be at the expense of our neutrality or a rupture with the other northern powers. In that event we would prefer to resign on the question."

Mr. Mowinkel said it was significant that the three northern countries were acting together at this difficult time, and declared: "We should lose more by breaking with the northern powers and receiving provisions from America than if we kept together and starved."

The will of the late J. P. Pittman Editor of the Durham Guide, was admitted to probate in the office of the Clerk of the Superior Court last Tuesday. The estate is valued at ten thousand dollars. Mrs. Pittman, widow of the deceased, is named as executrix, and is also the chief beneficiary named in the will.—Harnett Post.

Geo. L. Canady returned from a business trip to I. Oakville and Spry. He was called there to render his services as auctioneer at a land sale which was conducted by C. C. Murphy

GROWING A CROP OF OATS

Of all the cereals, oats, with the exception of rye, has the widest adaptation for North Carolina conditions. Oats when put in properly and given a good opportunity to grow will ordinarily produce very good returns on well drained lands, although it is a little late to sow this crop in the upper Piedmont section of the State, yet in other portions of the State oats may be expected ordinarily to produce good returns when put in properly this late or a little later, and fertilized intelligently. Oats cannot be expected to give satisfactory returns on poor land unless the land receives an application of manure, or fertilizer, or manure supplemented by the right kind of fertilizer application.

A small piece of land properly prepared should produce a goodly amount of feed for stock next year. It is certainly not creditable to North Carolina that hay must be bought from other sections. In this time of expensive feeds it would certainly seem the part of wisdom to make a

strong effort, in this State, this year, to put in the necessary acreage to feed crops so that the needs of the stock on our own farms can be taken care of. With a little extra effort this can be done easily.

Where a small amount of crimson clover or vetch seed is available, it will be well to sow these with the oats. They will materially improve the quality of the oat hay next year. Good standard varieties of oats for this State are the Appier and Red Rust Proof of the later maturing types; Fulghum and Bart for earlier maturing.

In putting in oats, as of other small grains, it will be necessary that the seeding is not delayed too long. Of the small grains—probably rye can be seeded latest with safety, but even with this crop the earlier seedings, within the ordinary dates of seeding the crop in the fall, is much to be preferred. C. B. WILLIAMS, Chief, Division of Agronomy, N. C. Extension Service, West Raleigh.

NOVEMBER IS THRIFT MONTH.

The Agricultural Extension Service of the College of Agriculture and the Mechanics of Agriculture

is pleased to announce that the month of November is "Thrift Month." Director B. W. Kilgore has called on all of his co-workers to advocate and spread the doctrine of this proclamation to all with whom they come in contact. The farmers of North Carolina have had an unusually prosperous year during 1917, and if the money which they have received for their products is frittered away, very little permanent good will result.

Governor Bickett has called into consultation several men prominent in agricultural work in North Carolina and has asked their aid and co-operation in putting the matter of "Thrift Month" before the farmers of North Carolina.

The committee has decided on eight specific accomplishments which the average farmer can do and which will be of value to him later on. These are:

- 1. Buy a liberty loan bond.
2. If he be a tenant, to buy, if possible a small farm and make the first payment on the purchase price.
3. To pay off all debts and go on a cash basis next year.
4. To start a saving account in some bank or credit union.
5. To buy a milk cow or brooding sow.
6. To install home waterworks and lights.
7. To paint his house.
8. To set out an orchard.

Most of these matters have had the attention of the Extension Service and Experiment Station for many years. Always they have been encouraged and urged. Now is a good time for them to be put in operation. Not every family has a good milk cow, and therefore does not realize the value and profit to the family by such a possession. With the high price of pork a brood sow would be a most valuable possession. In those rural homes where the home demonstration agents have succeeded in having waterworks and lights established the housewife has considered them the greatest boon yet received.

There is no need to call attention to the importance of paying off all debts, for these impoverish, discourage and make trepid, spell disaster and a comfortless old age. In many cases they paralyze the will of the debtor and make him incapable of his best efforts. "Thrift Month" is a valuable innovation, reflects credit to the thoughtfulness of our governor and should be followed carefully by those who have profited from the unusually good prices of all farm products. F. H. JETTER, Agri. Editor, N. C. Extension Service.

The will of the late J. P. Pittman Editor of the Durham Guide, was admitted to probate in the office of the Clerk of the Superior Court last Tuesday. The estate is valued at ten thousand dollars. Mrs. Pittman, widow of the deceased, is named as executrix, and is also the chief beneficiary named in the will.—Harnett Post.

HOME MISSION PAGEANT

"Christ in America" at Presbyterian Church Sunday

A very impressive Home Mission Pageant, "Christ in America," will be given in the Presbyterian Church Sunday evening, November the eighteenth at 8:15 o'clock. The object of this Pageant is to show our great opportunity to give Christ to all the nations of the earth in America. Columbia, clad in white draped with stars and stripes, and bearing a torch in her uplifted hand calls the representatives of the different nations and peoples dwelling in America to tell why they had come to her and what they seek. One by one they make their plea for Christ in America. Columbia replies that she has given liberty to all. In acknowledgment of this the representatives of the nations sing the Starry Stripes, but they urge that liberty and justice are not enough. They plead for Christ in America. Columbia then turns to the church as the
