Mayor J. W. Turnage is in West Virginia this week to purchase coal for the municipal power plant. If it is available Mayor Turnage will surely get his share and relieve the situation for a while at least. The latest order from those in authority is to cut off all lights at 10 o'clock at night and to furnish no current at all during the day. We hope the present condition will be of short duration.

Lack of fuel at the municipal power plant forced the Dispatch to come out a day late this week. We are also forced to cut down the size of our paper. We are compelled to have current to operate the machinery in the shop and a great deal of the work this week has been done at night. No day current has been furnished since Tuesday morning and at night the town is in total darkness after 10 o'clock. Mayor Turnage is at the coal mines in West Virginia this week and it is hoped he will make some arrangements to relieve the situation here.
