## Keeps the Money at Home

Have you ever stopped to think what it would have meant to the South if the billions of insurance money which has been sent to the North and East could have been kept at home?

The Southern Life and Trust Company of Greensboro, North Carolina, was one of the first companies to begin preaching the doctrine of keeping the South's money in the South.

Let us tell you something of what this policy on the part of this Home Life Insurance Company has meant to our own community.

J. L. WADE, Manager.

## Tell What Gave Him Relief After Suffering Agony With Rheumatism in Bed 3 Months.

### Carpenter Forced to Bed and Unable to Work With Rheumatism and Scitica Pulling Him Down, Finds Relief By Taking Concentrated Form of Iron

Having No Alcohol in It Claimed to be Better and Stronger And Much Cheaper Blood Medicine

WILLIAMS' PINK PILLS FOR PALE PEOPLE

John Williams, who suffered the dreadful tortures of rheumatism in its worst form writes: "I suffered from rheumatism for two years and was confined to my room for three months. I tried everything. The suffering was so severe I thought I was forever done with work. I tried everything I and my friends could get, but it looked like I was done with business and work for the balance of my life. It struck me worse in the small of my back and in the left leg," continued Mr. Williams. "My chance he heard of what iron pills do for people with blood and system full of toxic acid and the blood not acting right. He bought a bottle of Acid Iron Mineral, obtained at once drug stores. This is the highly concentrated natural product of a natural deposit of medicinal iron. It is pleasant and being concentrated, a few drops in a glass of water being a full dose. It struck me regularly a short while and my pain was gone."

"I bought a bottle of A-I-M and before I finished that I saw I was getting better. I took three bottles and by the time I had finished them I was as well as I ever was. I was relieved of the pain in my back and leg and now I can do any kind of work I want to. I am sixty years old and I can do any kind of work I want to. I am sixty years old and I can do any kind of work I want to. I am sixty years old and I can do any kind of work I want to."

I am sixty years old and I can do any kind of work I want to."

further reduction of 20 per cent in the bread ration would soon become imperative. Denmark is now looking forward to a reduction of wheat rations. Final figures for the cereal harvest show a total of about 62,000,000 bushels, which is 20,000,000 bushels less than in 1916 and about 10,000,000 less than was estimated in the summer, when the populace was put on bread rations. The authorities are already considering a further reduction in the allowed consumption.

DIXIE

"The Points I Want In My Car Are—"

A Dixie Flyer Point You Will Want In Your Car—

MOTOR—The Dixie Lycoming Hi-speed motor, 4-cylinder, 30 H. P. That is power enough to pull you merrily through any road you will encounter in everyday driving, and more speed than you will ever have occasion to use when driving for business or pleasure.

SPECIFICATIONS—Unit power plant with Grant-Less selection sliding gear transmission. Three point suspension. Single flexible universal. Spiral bevel drive. Full floating rear axle. Dynaflo 2-unit starting and lighting system with Bendix drive. Willard storage battery. Tires, 32x34. Wheelbase, 112-inch. Bowler roller bearings and S. K. F. ball bearings throughout.

IN KENTUCKY, the home of the thoroughbred, there is an old saying, "It's a difference of opinion which makes a horse race."

But it's a difference in performance that decides.

Also, it is true that it is a difference of taste which makes the automobile, and, likewise, a difference in performance.

To the Dixie Flyer we have brought those admirable qualities in performance which have won for the Kentucky thoroughbred the admiration, respect and homage of all.

- Off at full speed;
- Able and sure to go the distance;
- Staunch and sound in every quarter
- Easy riding.

Recognizing, too, that the luxury of this season is the essential of next, we have ever looked forward, always giving the most for the least. When you say, "The conveniences I want in my car are—" we believe you will find them already in the Dixie Flyer.

You are, therefore, urged to investigate the Dixie Flyer. You will see that it has those qualities you are looking for—and more usable service-value than in other cars in its price class.

The food situation in Switzerland is rapidly falling to the danger line. A ration that is far below the consumption in many of the countries at war has already been ordered. Under the new regulations the Swiss may have only a pound and a half

of sugar per person per month. The bread ration has been fixed at about half a pound a day, and the butter ration at one-fifth of a pound a month.

FOR SALE—I HAVE FOUR thoroughbred Duroc Jersey pigs for sale at once for \$12.50 each. See or write to Rev. H. H. Coz, Falmes, N. C. 1-8-41.

WOODS BANGS AND THE REACTION

West Raleigh, N. C., Jan. 22.—It might locally it does not matter so much as where they have to be ordered. A good plan, however, even if it is to be bought locally, would be to have them bought in the local market. This is because the local market is the best place to buy them. It is the best place to buy them. It is the best place to buy them.
