The biggest Social Event of the Winter Months in Dunn. Don't Miss it

MAXWELL

\$1195

F. O. B. DETROIT

The apple always falls to the ground. It cannot FALL UP.

The price of the Maxwell closed cars—\$1195—was fixed in accordance with another inexorable law.

For less than \$1195 it would be impossible to give you closed cars combining—as they are combined in the Maxwell—beauty, grace, comfort, efficiency, durability, economy and standard equipment.

For more than that, on the other hand, you could only get larger size or fancier furnishings.

New-Passenger Sedan, \$1195; Six-Passenger Tourer Car, \$1295; Touring Car with All-Weather Top, \$855; Touring Car, \$745; Roadster, \$745. All Prices F. O. B. Detroit

DUNN, N. C.

ease coughs or sneezes without using a handkerchief for a muffer or strainer, causing others who have not had the disease to inhale polluted second hand air particularly in closed rooms or poorly ventilated schools, offices, churches and stores. To prevent infection as in the case of most other infectious diseases, all discharges from the mouth, nose and throat should be carefully destroyed and not scattered out on common roller towels, drinking cups and door knobs.

Mumps are usually characterized by feverishness and a severe swelling just below and in front of one or both ears. Eating, chewing and talking sometimes become difficult or very painful. While very few fatalities result from mumps it is very important that the patient remain quietly in bed during the height of the disease. Working, walking, or even sitting up frequently cause serious complications involving other glands. Ordinarily no medicine is required and if the bowels are kept freely opened and hot or cold compresses applied to the affected parts, the disease will run its course in from one to two weeks.

**TIME TO TAKE OUT WAR RISK INSURANCE MOVED UP TO APRIL TWELFTH**

Washington, Feb. 9.—The House today passed the Senate resolution extending from February 12 to next April 12 the time within which soldiers and sailors may file applications for war risk insurance. Chairman Sims, of the Interstate Commerce Committee, in urging the resolution, explained that it was necessary before the length of time required for communication between Washington and the American expeditionary forces.

**THE COLORED AMERICAN CITIZENS**

Americans of every section, of every class, and of every race have answered the call of their country. "Twelve million colored people have rallied to the defense of their country in this crisis, and will do their full share in helping to win this world war for democracy," Dr. Robert R. Moton, principal of Tuskegee Institute, successor to Booker T. Washington in that office, said recently in an address at the Twenty-

seventh Tuskegee Conference.

The colored American citizens will do their part in producing foodstuffs on the farm, in conserving food in the home, and in fighting in the trenches in Europe, said Dr. Moton, and in addition the colored ministry and the colored teachers will preach and teach thrift among their race.

It has been impossible to obtain figures on the amount of Liberty bonds purchased by colored Americans in the first and second loans, but it is known that according to their means and ability the colored race were very loyal and active and most liberal subscribers to the loans.

Dealers in feedstuffs are again being warned that after February 15 they will not be permitted to trade without a license from the Food Administration. Every manufacturer, importer, dealer, handler, or storer of about 50 of the principal ingredients used in making commercial mixed feeds is included in the requirements. This covers baled hay, shell and ear corn.

Pity and need make all flesh kin.—Sir Edwin Arnold.

### Announcement!

I have opened an office on the second floor in the Gerald building, Dunn, N. C., and will give advice on the following subjects: The soil, stable manures, green manures, commercial fertilizers, soil drainage and tillage.

I will also test soils, write agricultural prescriptions and teach farmers how to buy and use fertilizers, and lime. If you have phosphate, cotton seed meal and other fertilizing materials and wish to do your own mixing, it will pay you to bring me sample cup full of your soil taken six inches deep and let me tell you what quantity of each to use in a ton for different soils and crops. If you have soils that fail to produce crops of any kind bring me sample of same and state your trouble.

If you are troubled with "Root Lice" bring sample of your soil, one cup full taken six inches deep and I will tell you how to destroy them.

FRIDAY, SATURDAY AND MONDAY OFFICE DAYS

Yours very truly,

**GEO. I. SMITH,**

Feb. 5, 1918, Dunn, N. C.

Inserted and solid tooth, both Cut-off and

Rip. See us for anything in Machinery or Machine work.

Over Quarter Century of Knowing How

The John A. McKay Mfg. Company,  
Dunn, N. C.

**CERTIFICATE OF DISSOLUTION**

To all whom these presents may come—Greeting:

Whereas, It appears to my satisfaction, by duly authenticated record of the proceedings for the voluntary dissolution thereof by the unanimous consent of all the stockholders, deposited in my office, that the Cape Fear Stock Farm, incorporated, a corporation of this State, whose principal office is situated in the town of Dunn, County of Harnett, State of North Carolina (Marvin L. Wade being agent therein and in charge thereof, upon whom process may be served), has complied with the requirements of Chapter 21, Revisal of 1905, entitled "Corporations," preliminary to the issuing of this Certificate of Dissolution:

Now, therefore, I, J. Bryan Grimes, Secretary of the State of North Carolina, do hereby certify that the said corporation did, on the 2 day of February, 1918, file in my office a duly executed and attested consent in writing to the dissolution of said corporation, executed by all the stockholders thereof, which said consent and the record of the proceedings aforesaid are now on file in my said office as provided by law.

In testimony whereof, I have hereunto set my hand and affixed my official seal at Raleigh, this 2 day of February, A. D. 1918.

J. BRYAN GRIMES,  
Secretary of State

It is never too late to be happy. It is never too late to smile; It is never too late to extend a hand And a cheerful word once in a while —Anon.

No individual licenses are now required by the War Trade Board for the exportation of horses to Canada and Newfoundland. Shippers will be given notice through the press if there should be a change in this ruling in the future.

**MUMPS**

What it is and What to do For It

Mumps is generally considered a very little disease and a job by everybody except the patient. Health authorities, as a rule, pay very little attention to it, because its prevention usually costs more in time, effort and money than the ravages of the disease warrant. But even at that, the disease ranked fifth in the United States navy in importance in 1915, and even now many of our men in the training camps are incapacitated as a result of a "swell" case of mumps.

Thus far no one successfully isolated the germ or specific cause of mumps. It appears that the infection is carried in the secretion of the mouth and nose and that it is "catching" when a victim of the disease sneezes or coughs without using a handkerchief for a muffer or strainer, causing others who have not had the disease to inhale polluted second hand air particularly in closed rooms or poorly ventilated schools, offices, churches and stores. To prevent infection as in the case of most other infectious diseases, all discharges from the mouth, nose and throat should be carefully destroyed and not scattered out on common roller towels, drinking cups and door knobs.
