

DELCO-LIGHT

The Complete Electric Light and Power Plant

Specified and used by
the U.S. Army and Navy
the Red Cross and the Y.M.C.A.

ARMY

More than four thousand Delco-Light plants were delivered for war work. They were used to supply electric light in warehouses, hospitals, Y. M. C. A. huts, hangars, sub-chasers, and other branches of the service.

In Red Cross hospitals at the front, Delco-Light operated life-saving X-ray apparatus.

Delco-Light was specified by the government because it is dependable, easy to operate, requires little attention, and because it is AIR-COOLED.

Delco-Light runs in the same way as a car engine. It runs twenty-four hours a day with a minimum of attention.

Over 60,000 satisfied users in this country know from experience that Delco-Light eases

the ways of peace just as much as it has so recently been lightening the burdens of war.

By simply pressing a convenient button, you can flood the home, barns, or other buildings on the farm—or stores and homes in the towns—with Delco-Light, modern, brilliant and clean.

Delco-Light operates a pressure water system, giving you all the advantages of fresh running water for your house and barn, protecting you from fire and enabling you to have a complete modern bathroom.

Delco-Light power will run the churn, washing machine, and a hundred other labor-saving appliances. It will operate the coffee grinder, meat chopper, carbonated drink mixer, and various labor-saving appliances—or charge automobile batteries.

Install Delco-Light because—

DELCO-LIGHT better living conditions, increases efficiency and saves for itself in time and labor saved

Call, phone or write for your copy of the new Delco-Light Catalogue—a nicely illustrated 16-page book, showing how Delco-Light Pays for Itself in Time and Labor Saved.
