

DUNN'S FASTEST GROWING MERCANTILE ESTABLISHMENT

The Building in which we started on our business career January 1, 1911

Our old warehouse on Clinton avenue which was built for us. We began using this as a storage and salesroom in 1913. This gave us ample room for a few years. But we were soon crowded again and were forced to look for larger quarters.

Our present building at the corner of Wilson avenue and Broad Street. This building is 3 stories high and has a basement under the entire building. We moved into this building, which was built expressly for us, November 1, 1918. It contains 15,400 square feet of floor space and is one of the handsomest business houses in the city.

We attribute the rapid growth of our business since we started in 1911, to two things: 1. We have always given our customers a square deal and shown them every consideration possible. 2. We have endeavored to carry a complete line of honest merchandise and have sold it at a reasonable price.

Now that we have more spacious and convenient quarters it is our intention to increase this stock of merchandise as trade demands it, and make it possible for the people of Dunn and vicinity to find any articles they need at our store. We are adding new lines constantly and will continue to do so as they are put upon the market. Our customers are increasing daily and we will not be satisfied until we have in our store any article that we may be called on to furnish. You can usually find it at BUTLER BROTHERS, the store of Quality and Service.

Our principal lines are: Hardware, Farming Implements, consisting of the Avery Line of Stalk Cutters, Cutaway Harrows, Cultivators, Chilled Plows and Distributors; House Furnishings' Goods, Paints, Oils, Varnishes, and Stains; Furniture, Stoves and Ranges, Cutlery, Jewelry, Watches and Clocks; Bicycles and General Repair Shop; Ford Supplies, Tires and Tubes; Shingles, Doors, Windows, Sash, and Builders' Supplies; Musical Instruments and Records; Guns, Cartridges and Shells; Crockery and China Ware. We have just received a large shipment of American Steel Wire Fencing and Nails, which we can offer at a reasonable price. If you do not see what you want listed here come to our store and call for it. In all probability we have it..

We buy all our goods in quantities large enough to get the best prices and can save you money in your purchases. Come to see us and let us take you through our magnificent store.

BUTLER BROTHERS, ————— Dunn, North Carolina

PROVISIONS FOR THE ENFORCEMENT OF PROHIBITION LAW

Senate Judiciary Committee is Considering Measure
Washington, Aug. 11.—Prohibition enforcement legislation advanced another step in congress today when the senate judiciary committee began consideration of the bill passed by the house last June as amended and liberalized by the judiciary sub-committee.

Although the general house plan for enforcement of war time and constitutional prohibitions remain in effect, the sub-committee eliminated several house provisions and modified others.

In its work, the sub-committee, comprising Senators Sterling, Republican of South Dakota, chairman; Fall of New Mexico, and Norris of Nebraska, Republican, and Overman, of North Carolina, Walsh of Montana and King, of Utah, democrats, first revised the senate amendments and then incorporated their amendments in the house bill, representing the latter as amended by unanimous vote to the full committee.

Like the house, the senate sub-committee adopted the plan of having separate sections in the bill to deal with wartime and constitutional prohibitions.

The sub-committee left unchanged the house definition of intoxicating beverages as those containing one-half of one per cent or more of alcohol.

As revised the bill will not interfere with storage and personal use of intoxicants in the homes of individuals.

Probably the most liberal amendment to the house bill is a provision exempting from penalties any person who manufactures, non-intoxicating cider and fruit juices exclusively for use in his home. This would permit home manufacture of light wines and cider for personal consumption and the amendment except by implication in connection with the definition of intoxicants does not define "non-intoxicating" beverages.

HOBBLER BY COTTON

Cotton fastened slavery on the South, and slavery a false economic policy.

I have often said that if the South had never raised a bale of cotton it would be infinitely richer today than it is. Without cotton the South would be the center of the food-producing power of America. Without cotton the South would long ago have become the industrial center of America for its resources in minerals and its under-power and its climatic advantages give it prominent possibilities unmet in the world.

Nevertheless, we are now largely tied to the cotton industry, and it is the supreme duty of the South to make the most of the opportunity and to win from cotton production a prosperity such that which the West has gained from grain production.

For years diversified agriculture was well-nigh destroyed. The South put its corn crib and meat house in the West. Almost every dollar earned for its crop was in advance borrowed for the loan and the corn and the West—Richard E. Edwards in Manufacturers Record.

HOLLY SPRINGS WILL CELEBRATE

Holly Springs, July 12.—Thursday and Friday of this week will be big days in the Holly Springs neighborhood when the entire community will take these days to come together in a sort of thanksgiving celebration for having recovered from the terrible hailstorm that annihilated crops here July a year ago.

Thursday will be Veterans' day, and all members of Oscar Rand camp U. C. V. have been notified that the annual reunion will be held at Holly Springs on that day, beginning at ten o'clock. An important meeting of the Oscar R. Rand Camp Memorial Association will be held during the day and all members are requested to be present.

Friday will be Community day when a farmers' picnic will be held. Mr. J. W. Bailey will be the speaker. Governor Bickett also will be invited to be the guest of Holly Springs. Mr. Bailey will speak at 11:30 and the dinner will take place at 12:30. A band has been secured for the occasion.

In the afternoon there will be a farm conference led by Dr. E. W. Kitzore of the Agricultural Extension Service and members of his staff.

Mr. W. A. Seagraves and Mr. O. H. Alford, who are arranging the events, were in Raleigh yesterday putting the finishing touches to the program.

SCHOOL BONDS GET A MAJORITY

On the ballot last Tuesday for the issuance of \$15,000 bonds for Lillington High and Farm-Life School the vote was 99 for bonds and 19 against. Many who registered did not vote, and consequently the majority was cut down. A citizen who registered and did not vote allowed his registration to stand against the bond issue, inasmuch as registration counted as a vote. In other words, the carrying of the election meant that those who favored the bonds were compelled to get a majority of those registered, whether voting or not.

Considering this handicap, the majority is an excellent one, and indicates that a great majority of the citizens of Lillington school district were in favor of the bonds. A statement by the board of trustees appeared in last week's paper. In that statement they showed what was intended as an expenditure of the bond money—the retiring of the old debt, improvements at the school building

and grounds, on the farm, and other things needed.

The expenditure of this new bond money will put the school on the footing required by the State school regulations to maintain a high school and farm-life school.

GOOD ROADS CONVENTION OPENS AT WILMINGTON

Wilmington, Aug. 11.—Delegates and other people interested are arriving on every train to attend the good roads convention at Wrightsville Beach, which opens Wednesday. Already quite a large number have gone to the beach. Reservations have been made by several hundred persons and local committees announce completed arrangements for over 1,000. Everything has been made ready for the meeting, which will be held jointly by the Good Roads, Automobile and County Commissioners' Associations.

Col. Joseph H. Pratt, late of the 185th Engineers, and E. W. Wolf, of the Federal Good Roads Office, will be the principal speakers on the program. Chief among the events of the week will be the formation of the State Highway Council to cooperate with the Federal Council to secure additional federal appropriations. President W. A. McCall and Miss Patty Perry, secretary of Chapel Hill, of the Good Roads Association, announce satisfaction over arrangements made and prospects for an important conference of the good roads interests.

BROTHERS LIVING IN SAME TOWN MEET AFTER YEARS

Tulsa, Okla., August 9.—The other day D. F. Park agreed to answer the telephone calls for his sons, who are in the baggage business, as they had to be out on engagements. The sons have a booth near the Frisco Depot here.

Mr. Park was busy, but not too busy, despite his seventy-eight years, to notice a very old gentleman who walked up and down the station platform, watching him. After this had continued for some time he approached the stranger and said:

"Do you mind telling me where you came from?"

"Not in the least—I am from Missouri," said the stranger, with a smile.

"What part?" asked Mr. Park. "I, too, am a Missourian."

"I came from Crawford County," said the other old man.

"So did I," shouted Mr. Park. After a little more conversation it developed they were brothers who had not seen each other since they parted forty-nine years ago. No word had passed between D. F. Park and his brother Samuel, now eighty, since they left Crawford County.

This Camel's 8 days are up!

Man, but he's thirsty!

He'll never go eight days without a drink again. He had never tasted Pepsi-Cola when he started that stuff!

The desert's awfully hot, the Oases few and far between: PEPSI-COLA is simply priceless to this old one-hump sailing slip of the sandy Sahara.

With Pepsi-Cola as an incentive he could keep going all day. Why don't you drink Pepsi-Cola, too, this hot weather, and keep going all day at full speed? Drink!

Stimulating—Revivifying—Sparkling
PEPSI-COLA
"It Makes You Scintillate"

Drink PEPSI-COLA
