### CHAIRMAN BARNES WITH THE BOARD

Bill, Resolutions, Orders, Appropriations Face "County Fathers" and are Disposed of in Business-Like Fashion

The Board of County Commissioners, attended his first meeting in many months when the board met in regular session Monday. Mr. Barnes has been seeking restoration of health at a Battle Creek sanitarium. He is looking well now and is in fine spirits. This jovial, good-natured gentleman has been sorely missed by everyone during his absence and all are glad to see him back in Harnett County.  
The board did not have a great amount of business to come before it. Only a few matters out of the regular routine were taken up. These in brief were:  
An order was passed that happens and surface closets be removed from the county courthouse premises, to comply with the sanitary law.  
The salary of Recorder D. H. McLean was raised from \$80 to \$100. This is a praiseworthy move, inasmuch as the recorder's court is saving the county quite a sum of money annually, and collects a handsome sum in fees for schools.  
J. L. Smith was given \$100 to defray expenses of twelve veterans attending the reunion at Atlanta.  
A. A. McDonald, clerk of court.

During these Three Bargain Days—3 Days We make this extraordinary special value offer to you. Buy your Majestic Range NOW! The price is the same! The regular Great Majestic price. No extra charge whatever for your complete set of fine cooking ware. Yet you could not buy this set of cooking ware anywhere, any time, for less than \$10.00. And you cannot buy at any price a range that is the equal of the Great Majestic. Its first cost is practically its only cost. Long range life, economy of fuel, durability, and satisfactory service—make the Majestic the most economical of ranges.

The representative of the manufacturer will be here at our store to help us show and explain to you the many Majestic features of superiority.

### A few of the reasons why The Majestic is the range for you.

1. All-copper hot water reservoir; patented shifting lever controls water temperature.
2. Body of Charcoal Iron; resists rust and lasts 3 times longer than steel.
3. Lined with Asbestos Board, 1-4 inch thick; prevents loss of heat and saves fuel.
4. Air-tight oven; all parts riveted together, assures perfect baking.
5. Large warming closets; roomy and convenient, with drop doors.

6. No springs on oven door; it is supported with strong, durable stake, and holds any weight placed on it.
7. Unbreakable malleable iron; permits rivet-tight joints; saves fuel and repair expense.
8. First joint of pipe double weight; pipe collar double strength; front of flue at top and bottom of oven covered with indestructible malleable iron—strongest where others are weakest.
9. Open end ash pan; like shovel, removes ashes easily and cleanly. Ash cup catches ashes that otherwise fall on floor.
10. Doors and splasher back beautifully paneled in White or Blue Enamel, if desired.
11. Cooking top burnished dark blue, requires no polish.
12. Heavy nickel trimmings; smooth as glass; stay bright, easy to keep clean.

There are many other Majestic Superiorities No other range gives you such value for your money. See and examine the Majestic critically at our special Bargain Week Demonstration. The more you know about it, the more you will want it. And get your set of Cooking Ware, without charge, by purchasing your Majestic now.

### FOUR CLASSES OF MEMBERSHIP DUES

Raleigh, Oct. 8.—Four classes of membership dues are provided in the North Carolina Division of the American Cotton Association, and the basis of dues is the bale production of the individual cotton farmer. The only fixed fee for membership is that for the professional men, who will be asked to join the association and pay \$5 each for membership.  
For growers of cotton, the producer, the fee will be 25 cents per bale of cotton produced in 1917, with minimum dues of \$5 per year where less than eight bales are grown.  
For bankers, business men, merchants and manufacturers the dues will be 25 cents for every \$1,000 in-

vested in the business.  
Professional men, including lawyers, doctors, dentists, clerks, school teachers and others engaged in professional work, the dues will be \$5 per year.  
Charter memberships are open to everyone at \$100 each. Just at this time the association is seeking charter memberships in order to enable the State association to get well on its feet.  
This scale of dues will be effective until January 31, 1921. After that time the members are promised a reduction because it is not believed there will be the same need for as large amount of money once the cotton planters are thoroughly organized and have the sale of their product under their own control. During the years 1921 and 1922 the dues are:  
For cotton farmers, 10 cents per bale produced.  
For bankers, merchants, manufacturers and business men, 10 cents per \$1,000 worth of capital invested in the business.  
The membership dues for the other two classes of membership is unchanged for the next year.  
The organization of the American Cotton Association, say State officials,

is the first effort of the cotton farmer to organize a permanent organization, and the payment of the membership dues is expected to result in more than a temporary advantage, or the relief of the present bearish condition of the cotton market.  
The objects of the American Cotton Association as outlined in the statement of purpose follow:  
1.—Protecting the interest of the cotton producer and bettering his condition.  
2.—Promoting the economic regulation of cotton production so that the supply will be adjusted to the demand; in other words, to grow as nearly as possible only so much cotton as the world will need.  
3.—Promote diversification of the crops and free the cotton belt from the curse of "one crop system."  
4.—Improving and securing existing warehouses and securing additional warehouses, which will issue warehouse receipts.  
5.—Broadening the market for raw cotton and enlarging the use of cotton.  
6.—Improving and increasing transportation facilities.  
7.—Collecting information about domestic and foreign consumption of cotton, the state of trade, acreage

and condition of crop, and distributing this accurate information to every township association in the cotton states.  
8.—Maintaining a unified and solid effort for retaining a fair and reasonable price for cotton.  
9.—Unifying all the cotton interests of the South in the interest of a greater business South.  
10.—Doing collectively all and everything that may be helpful to the stability and profitability of the cotton producing industry.  
JULIE E. WARREN,  
Publicity Director.  
Failure to Withdraw Tax Confusing  
Much confusion has arisen throughout the country because of the failure of the Senate to concur in the passage of the act repealing the tax on soda, ice cream and soft drinks. Reports are constantly coming into the Bureau of Internal Revenue that patrons are refusing to pay the tax. The tax became effective May 1, since which time it has netted several millions of dollars in revenue. The House repealed the tax June 25, but so far the Senate has taken no action and the tax remains in effect.  
Anybody can see the silver lining in the other fellow's cloud but it takes a super-optimist to see his own silver lining.
