**WHAT 1920 WILL BRING**

The business man, farmer and merchant of today must read a reliable, progressive and independent newspaper, and keep up with the happenings of his day in order to be successful.

The year 1920 will bring the Presidential election in which every one is interested and the discriminating reader wants both sides of every question. The Greensboro Daily News is "Now leading them all in North Carolina" for the reason that it supplies this demand.

**THE GREENSBORO DAILY NEWS** is well equipped to handle the news completely and quickly. This newspaper is served not only by the full Associated Press service, but maintains an extra private leased wire from Washington to Greensboro.

Among the special features of the Daily News service are the David Lawrence articles, the C. W. Gilbert articles, (exclusive rights for the state covering both), the Washington service of Theodore Tiller, special Raleigh service and many Sunday features, including a colored comic section.

Send \$3.50 for a six month's subscription, daily and Sunday or \$2.50 for the daily issue only.

Cardinal Gibbons says: "If the members of the Red organization don't like this country, let them go home, and if they don't go, then we will have to send them. They will have to become future citizens, not to be dictators. We cannot let them become dictators."

**WOMEN SPEAKERS TAKE SOCIALISTS**

Veteran Leader Says Suspended Socialists Can Be in Courts.  
New York—Samuel Gompers, old-time Socialist Federation leader, today took issue with the New York assembly, by his attack toward the suspended Socialist assemblymen had made Socialists out of non-socialists.  
Speaking at a conference of the Federation on radicalism, Mr. Gompers said that if the suspended assemblymen were guilty of treason or sedition they should be convicted in the courts and then would be ineligible for the legislature. In this matter, he said, he agreed with Charles E. Hughes, without the dotting of an "i" or the crossing of a "t."  
"I count myself fortunate to have given to my countrymen the fundamental fallacies of Socialism and Socialist doctrine," he continued, "but Americans were too busy to heed this warning."  
Mr. Gompers accused large corporations of hindering Americanization of aliens by subsidizing foreign language newspapers to oppose the American Federation of Labor, and Congress had failed properly to cope with reconstruction problems.

**GREEN COTTON STAPLE ACHIEVED IN GEORGIA**

Farmer At Dalton, Ga., Claims To Have Succeeded in the Dream Of Scientists and Agriculturists.  
Dalton, Ga.—C. F. O'Brian, a farmer residing in the Pleasant Grove district of this county, claims to have produced cotton, the staple of which is a pronounced green, thus attaining the objective long sought by agriculturists and scientists.  
The sample of this "viridescent cotton" is of beautiful green color and of very fine texture and fiber, resembling lamb's wool.  
Mr. O'Brian has experimented for years in his effort to produce a cotton plant bearing a colored fiber and has announced his intention of producing a full crop of his new staple the coming year.  
Civic Constructiveness.

In a recent book Frederick S. Lee has once more exhibited what is known about the working of the human machine and the little use that is made of that knowledge. We know perfectly well how to eradicate malarial fever, yet, yet these diseases still claim many victims. We know that we could prevent half of all the deaths that occur every year, and yet they are not prevented. Thirty percent of the blind people would see if only a few drops of an antiseptic solution had been put into their eyes at birth; but this very simple precaution is not yet in general use. The reasons lie in the fact that there is no effective program for the organization of mankind in health concerns, no effective agencies to carry such a program, and little public interest in special medicine.  
We can already foresee the time when every school of medicine will devote the greatest part of its activities to social medicine. By enlarging its aim and broadening its method, by dropping its academic and professional aloofness, medicine will become the center of community service.—Dr. Rene S. Lecomte, University of Brussels.

**Why We Prefer Dogs.**  
Friday we felt sorry for all animals out in the sleet and snow and rain. A cat came along and we invited her in to get warm and have a cozy time before the fire. After she had got warm she went in the back office to look things over, and in her exploit she pried a whole galley of the mailing list giving the compositor and the rest of us trouble enough to last a week. Not that Tabby cared the least bit.

Dogs are different. If old Jack, the Advocate mascot, had caused us so much unrest he would have sensed something wrong and shown us plainly enough that he was sorry. Good old Jack! he has been with us for years, most of the time here under the table where we write. He understands our moods and sometimes we think he reads our thoughts. His sense of protection is ever present. We sometimes wonder about it, and hope, when Jack has lived out his life, that the "home-thing" which gives him his devotion, his kindness, and his sense of guardianship, will find its reward in a higher realm, where dogs are not just plain ordinary dogs.—Woodson County (Kansas) Advocate.

**Little River Record.**

It is well now and then to take inventory of ourselves to see which way we are moving. The Minutes of the Little River Baptist Association for the year 1904 gave the membership of our churches as follows:

Angier	1904	1919
Antioch	75	200
Baysboro	256	399
Baptist Grove	84	35
Bethel	11	162
Buie's Creek	84	75
Buie's Creek	192	443
Chalybeate Springs	144	282
Coats	172	172
Cumberland-Union	190	79
Dukes	21	141
Dunn, First	127	475
Friendship	172	211
Holly Springs	84	191
Lillington	85	93
Macedonia	82	158
Neill's Creek	215	172
Oak Grove	55	55
Pine Forest	55	55
Rawles	55	55
Sherwood	22	19
South Dunn	74	74
Total	1589	5747

This shows that our gain for fifteen years, 1917, or a little more than 104 per cent, doubling our membership in fifteen years.

The net result of immigration and emigration during 1919 was an increase in the population of the United States by only 40,245.

Frank A. Vanderlip declares that the United States does not possess the requisite knowledge to become the leader of the world in business.

**SUPREME COUNCIL WILL REPLY TO WILSON NOTE**

London.—The Supreme Council was engaged Monday in completing the draft of its reply to the letter of President Wilson concerning the Adriatic situation.  
It is stated authoritatively that forecast of the allied reply published in France should be taken with reserve. It also was stated that the report from France that President Wilson announced that the United States would hold aloof from European affairs unless the United States was considered in the settlement of the Adriatic question was too sweeping.  
The council will finally decide on its reply to President Wilson tomorrow and it will be immediately cabled to Washington. The council is cabling to the United States government the reports on its deliberations or decisions in which it considers the United States is interested.

**War Plants Make Ammonium.**

Washington, D. C.—Plants built by the Government during the war to produce nitrogen are being converted for the manufacture of ammonium sulphate and other normal products so that they can be retained for use in time of necessity, the War Department announces.

War Department announces. Their output of ammonium sulphate and the like will meet agricultural and commercial demands. Lowered on offices in New York's financial district are being renewed and increases of from 100 to 200 per cent.

**E. V. GAINEY, Dunn, N. C.**

The Ford Sedan with electric starting and lighting system and demountable rims with 3 1/2-inch tires all around, for every day in the year has no equal as a family car. Just as popular on the farm as it is in the city. In fact, it fits the family demands in every vocation of life. Large, roomy seats, finely upholstered, plate glass windows make it an open car in pleasant weather, while in rainy and inclement weather it becomes a closed car, dust-proof and rain-proof. It is ideal for social functions, the theatre, or parties; carrying the children to school, or for touring. It is not only comfortable, but really cozy, and above all, economical in operation and maintenance, and has all the Ford merits of strength and durability. We solicit your order for one. Come in and see it.
