Discovered by J. P. Foster, enematical the following specific purposes:

ist of one of the big sugar plantations the following specific purposes:

on the island of Maui, Hawaii, proon the island of Maui, Hawa duction within the next three months may be wise and just in view of the will be sufficient to furnish fuel for actual value of the property in the all cars on the Islands should a gas- State as accertained by the revalua-

all cars on the islands should a gasoline shortage occur.

According to the first reports of
the new fuel, brought to San Francisco by District Manager F. E. Carroll of The Goodycar Tire & Rubber
Company of California, "motor alcohol" gives more power, greater mileage, oasier starting and more freedom from carbon than gasoline. It
tan be used without an adjustment
of the carburetor.

The new fuel is performing in au-

dom from earbon than gasoline. It can be used without an adjustment of the carburetor.

The new fuel is performing in automobile, marine, stationary, truck and tractor engines. In a 36-hour lest made with a 75 horsepower tractor the consumption of "motor alcohol" was four gallons an hour compared to feur and a half gailons of gasoline in the same engine on the same work. Examination of the cylinders showed most of the old carbon deposit removed and the remainder so soft it could be removed with the fingers. Sugar plantations have been letting their molames run to waste or burning it for the potash recovery. Nitrogen and phosphoric acid are also valuable by-products of molames. Now, however, preduction of the new fuel is found to be more profitable than obtaining other by-products.

At present there is enough molasses to produce 9,000,000 gallons of "motor alcohol" enough to supply all automobiles in Hawaii. Development of this industry will release shipping space formerly used for transporting gasoline from the United States.

PASQUOTANK CITIZEN

"In witness whereof, I, Thomas W. Bickett, Governor and Commander in Chief, have hereunto set my hand and caused the Great Seal of the State to be affixed.

"Done in our city of Ralcigh, this the 7th day of July, in the year of our Lord one thousand nine hundred and forty-fifth year of our independent. "Gigned" "THOMAS WALTER BICKETT.

SWEDEN AND FINLAND IN BELLIGERENT STATE Critical Situation A lees Over

Dispute Regarding Aland

mination on the basis of a referent foreign policy if elected. We under ASSAILANT POSITIVELY

Chapel Hill, N. C., July 8.—Continuing the investigation of the structural materials of the State that was begun in the early part of the sum-mer, Dr. Joseph Hyde Pratt, Direc-tor of the North Carolina Geological and Economic Survey, has employed Mr. J. L. Stuckey, a geologist of the State University, to do the field wor., in connection with this investigation. The investigation, which includes such structural materials as cisy,

sand, gravel, and such stone as gran sand, gravel, and such atopo as gran-ite, immestine, sandstone, rhyelite, irap, etc., was begun with the idea of iocating commercial deposits of these raw materials and of determining, to tests and experiments, their suitabilfacture; limestone for coment; stone and gravel for concrete and road building; sand for concrete, plaster,

and for foundry purposes.

Because of the tremendous amount of construction under way and just alread of us, this data will be of groat alread of us, this data will be of great service to engineers, contractors, and others contemplating enestruction work in which these flaterials will be needed. This investigation will also be of great service to those owning deposits of any of these materials as it will bring them in touch with a market for them.

In this work Mr. Stuckey will visit the fellowing places where it is known that deposits of structural materials as a first that want to build these things right, will have to come here to see the model.

In this work Mr. Stuckey will visit the fellowing places where it is known that deposits of structural materials are to be found: Yuquay Springs, Lillington, Kinston, Pitt County near Bruce, Contentaus, Elm City, Tarboro, Speed, Theims, Wise, Greystone, Wendell, Neverson, Cairthage, Wadesboro, Grantte Quarry, Faith, Mount Airy, Rockford, Mt. Ulla, Hiddenite, McDowelf County near Old Fort, Asheville, Balfour, and Hot Springs.

Figure Says It Is Difficult to Predict is Foreign Policy Should He Bo Elected

the hotel remained \$1.10 at 2 o'clock in the morning, when weary committeemen wore leaving the sessions or resolutions and wore tired enough to put up with almost any impositions. These things may seem but trivial factors in the record of big and feveral transactions, but be assured they won endless kind words for this great Pacific capital from a body of mm and women representatives of every section of this country.

But the abiding memory the delegates will take with them to their name is the memory of the cleanliness, the convention hall, a structure spacious enough for all their purposes but so well arranged that it did not swallow up their deliberations. After the week of crucial test to which the nuilding has been subjected, one is ready to believe what the San Franciscans told us upon our arrival, which was that 14 shows and meetings could be given simultaneously under the roof without disturbing one another, and that in the main hall as many as five big meetings have been held within 72 heurs without

COX HAS THE FRENCH LYNCH NEGRO FOR **ASSAULT ON YOUNG GIRL AT ROXBORO**

Ed Roach Taken From Jail By Mob of 260 Men Following Attempted Crime

O. Hall, W. M. Kirby, E. E. Bradhaw and N. Lunsford, all of whom were on duty with the sheriff as deputies when the mob first reached the jail. All testified that thay were anable to identify any members of the marks worn by the men.

Solicitor Gettis remained here only a few hours, leaving at 4 o'clock to ioin his family at Buffelo Springs, Va. He announced that he would return next Wednesday to resum his avestigation. So far as known, the only witness yet to be examined is another density who was asked when

of the town.

There have been no indications of any race trouble as a result of the lynching. However, the entire road force of which Roach was a member, comprising about 75 men, has quit, he negroes declaring they will not work any more in Person county. The force was engaged in the country. Before leaving town Solletter Gathis issued a statement virtually enmenting Sheriff Thompson for reponsibility for the lynching. The tatement points out that the sheriff had no intimation of the lynching, he deputies having been sworn in to prevent an expected attempt to resue the negro by members of the road force, and that owing to the lateness of the hour, it was impossible for the aboriff to raise a posse strong enough to resist the mob. Keys of the jail; were not surrendered by the mob forced their way into the jail.

ONE KILLED AS TRAIN

New Bern, Jaly 6.—Traveling at a speed of 40 miles an hour an Atlantic Coast Line train. enroute from Wilmington to New Barn, last night, at a point a mile south of Pollockwille, Jones county struck a horse and huggy in which were Mrs. Nan Morton, wife of Alex Morton; her daughter, Julis Grace, and her little grand-daughter, Elizabeth Saunders, aged viz. Mrs. Morton was instantly killed and her daughter was more or less seriously injured, but the little Saunserously injured, but the little Saunserously injured, but the little Saunserously injured,
