BUTLER BROS.

Dunn, N. C.

Bringing in the BISCUITS

Made with Occo-nee-chee Self-Rising Flour, biscuits, waffles and hot-cakes fairly melt in your mouth.

This flour is easy to use because it contains baking-powder, soda and salt in exact proportions to insure perfect baking. Occo-nee-chee is also very economical since the extra ingredients are already in it, because they cost less than when bought separately.

It takes but a few seconds to mix Occo-nee-chee with water or milk and a few minutes more for baking.

OCCO-NEE-CHEE Self-Rising Flour

Keeps the Gases out of Baking and Saves you Money

Be sure to look for the Indian Head to be found on every sack of Occo-nee-chee Self-Rising Flour. Let your grocer sell you a bag today.

Devoted to Women's Needs

Ideas to Lighten Household Work

Woman needs no longer to be prematurely aged by a hard, hard work. Every day her labor and inventions have helped to lighten her work until she is relieved of most of the old-time drudgery.

The new easy Clean Easy method of washing has taken all of the misery out of "Monday." Now, the wife who has a bar of Clean Easy Soap, soaks her clothes over night. Cuts up a bar of Clean Easy a 4 1/2 gallon tub of water. Lets it to dissolve and boils her clothes for ten minutes; rinses, bleaches and dries. Pronto, in a few minutes an average week's washing is done with no more work and for only a few cents.

This marvelous wash soap has done more for women than anything since the sewing machine. It sounds like a wonderful idea to think of getting your washing done without scrubbing and rubbing and all sorts of mean work. But it is a live fact.

In these times of high prices you will find Clean Easy washing a wonderful revelation. All heavy clothes can be easily and cheaply cleaned. Light fabrics, will be cleaned, too.

Let Clean Easy do your work and you'll find it always will do! Ask your grocer. Follow the directions on inside of wrapper. Notice how different Clean Easy looks from other soaps.

FORD

The Universal car

March 3, 1920, the Ford Motor Co. advanced the prices of Ford cars because of the increased cost of production. No specific announcement was deemed necessary at the time, but it has developed that misrepresentations and misquotations of these advanced prices have been, and are being given out. So to safeguard the public against the evils of misrepresentation, we herewith give the present prices:

| | | | |
|---------------|-------|--|-------|
| RUNABOUT | \$550 | with dual electric starting and lighting system | \$625 |
| TOURING CAR | \$575 | with dual electric starting and lighting system | \$650 |
| COUPE | \$750 | with dual electric starting and lighting system and demountable rims | \$850 |
| SEDAN | \$875 | with dual electric starting and lighting system and demountable rims | \$975 |
| TRUCK CHASSIS | | with solid tires and clincher rims | \$600 |

(With pneumatic tires and demountable rims \$640)

These prices are all f. o. b. Detroit.

Fordson Tractor \$450.00 f. o. b. Dearborn, Mich.

What's done as much as anything else to fill up the movie houses

LOOK at the crowds that step out of their cars in front of the movies every summer evening.

The movie managers would be renting half of their theatres for store space, if it weren't for the automobile.

It is typical of Americans that they took to the automobile as a matter of course — just as they have to the movies and to every other great invention of the last half century.

And the same thing has happened everytime. Taking things as they come is a fine way to foster waste and extravagance.

As regards tires, the comeback is about due. People are pretty near through pay-

ing for something that isn't there when they look for it.

What a man pays for in a tire is quality—not a limited number of miles or the privilege of getting a rebate in case the miles don't come up to the limit.

U. S. Tires are guaranteed as to quality—with no limitation of mileage.

And that holds just as good for the small car tire as for the biggest U. S. Tire we've got. There's only one standard of quality with U. S.—and the size of the car has nothing whatever to do with it.

We represent U. S. Tires in this town. You'll find it worth while to talk to us before you buy any more tires.

Select your tires according to the roads they have to travel:
In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Hobby.
For ordinary country roads—The U. S. Chain of U.S.
For front wheels—The U. S. Plain.
For best results—everywhere—U. S. Royal Cores.
