Bank Vice-President

Tells How Ziron Iron Tonic Helped His Daughter After Operation for Appendicitis.

AFTER any serious illness, the first thing you notice when you begin to get around is your lack of strength and energy—a tired, weak feeling. The sooner you get your strength back the better. The thing to do is to eat plenty of good, nourishing food, get all the fresh air you can, exercise conservatively, and take Ziron Iron Tonic three times a day. Your doctor will tell you this is the best way for you to follow it.

Read this letter from Mr. J. B. Kelly, vice-president of the First National Bank, Graceville, Fla.: "My daughter had been in bad health since last April. She was operated on for appendicitis. She has been taking Ziron for two weeks. Her appetite is better than it has been. Her nerves are better, and she says she feels better. . . I know that Ziron is good for weak and feeble people."

Ziron is a scientific, reconstructive tonic, prepared from valuable strength-building ingredients, for weak people with thin blood. Druggists sell Ziron on a money-back guarantee. Try it.
