Dunn masons and their families enjoyed a great outing Friday afternoon with a delightful picnic spread at Surles' pond. About three hundred people attended the big dinner and participated in the Masonic event. The Masonic orchestra was on hand and rendered a number of selections. Many went in swimming and boating, but the real class of the event was the monstrous spread of all kinds of eats, which was participated in by all present. The lunches had been prepared by the Masonic families of the town and when put together in one huge outlay, proved to be a dinner greatly relished.

BRING YOUR COTTON TO THE BIG GIN

The "Big Utility Gin," in the town of Dunn, has on hand at all times Buckeye Cotton Seed Meal to exchange for seed. This concern also carries the highest cash market price for seed every day. If the gin your cotton your products will all be right at the best markets in the country and you have no hauling away to the markets to do. They save you time and money and render you the very best all round service that can be found any where in the world in their line of business. If Dunn is your market, it makes no difference how far you come, it will pay you to bring your cotton to the big plant to get it ginned. This company never gets through making improvements for better service to its customers and they are near to perfection this year as a gin has ever been known to be. Dunn is the best market in the state so if you deal with this Big Dunn company you will have the best of everything that is to be found—Adv.

MORRISON IS THERE MUST BE LAW AND ORDER

Governor Tells Concord Delegation Law Enforcement Men Should Be Fired

Charlotte, Sept. 5.—The State of North Carolina will see that peace is established and order maintained in Cabarrus county. Governor Cameron Morrison told a Concord delegation which visited him at his room in the Southern Manufacturers' Club here. He also told the delegation that the Sheriff of Concord should be "fired" out for what he termed their failure to perform sworn duties. He deplored the lack of executive authority so that the preservation of peace could be insured.

THREE NEW PROFESSORS ARE SECURED FOR WAKE FOREST

Wake Forest, Sept. 2.—Wake Forest college begins its 87th term next Tuesday, September 6, with the prospects for a most successful session. All plans for the opening have been completed and the 40-odd faculty members are returning to the Hill after spending the summer at other colleges and universities either specializing in research work or holding summer professorships.

MONEY FOR FARM EXPORTS

The War Finance Corporation has been empowered by Congress to issue bonds for \$1,500,000,000, and use a billion dollars of the money to aid the farmers in exporting their products. This was a lot of talk in Congress about this legislation, and all hoped that it would be helpful to the farmers in their present difficulties.

YES, THERE'S SOMETHING BESIDES POLITICS HERE

The Harnett County News asks (rhetorically, of course) if "anything can come out of a capital city, except politics, anyhow?" The News was discussing the rock quarry and its draining, which it termed "A Piker Sensation." Pretty good term, too, as far as that goes; the quarry did not disclose the collection of crime that many expected it to.

community, not at all consonant with the prevailing opinion that everybody in Raleigh is a politician. Somehow we believe in a spirit of the fact that there is a lot of political conversation running loose at Raleigh, that there is less personal politics and less party politics in this town than in any other of the same size in the State. Most of the political conversation is factious in its nature, from other sections who think they have to talk politics while here. The average Raleigh citizen, however, is a fair-minded man who is not a politician. He is a man who is not a politician. He is a man who is not a politician.

MR. ALBERT — THE WIZARD

Mr. Albert, the wonderful cotton gin wizard who has been carrying thousands of bales of cotton in a season just as easy as "falling of a leaf" and does it so easy and attractive that it is a real pleasure to watch him and his big machines work. He does not let his customers get tired out waiting and he is so courteous and pleasing that they are always glad to see him again. Mr. Albert is operating the "Big Utility Gin at Dunn," and makes his wonderful power and control of machinery this big plant is doing in far the most wonderful work that has ever been done.

HIGH SCHOOL TO OPEN TUES.

The Lillington Schools will begin their year's session Tuesday of next week, September 6th, and judging from the number who have made application for admission the attendance will be much larger than ever before at the beginning of the year. We are glad that the school has a large number of boys and girls who have applied, and what is rather remarkable, as many or more boys than girls have asked for rooms.
