

O. T. WILLAMSON FAILS TO ANSWER WHEN CALLED

O. T. Williamson, alias "Wild Bill" who was under bond of 2,000 to appear at the May term of Recorder's Court on the charge of retaining liquor, failed to answer when his name was called Tuesday. Sheriff McArthur has been informed that Williamson has disposed of his goods and chattels, such as cows, pigs, chickens, farm implements of whatever nature, and so forth, and has departed onto a country unnamed in the bond and unknown to the officers of the law.

Considerable difficulty was experienced by Williamson in the giving of bond when his preliminary was held a month ago. Finally, however, appraisers valued his farm high enough to cover the bond required, whereupon Williamson was released, and he has appeared upon the streets of Lillington several times since. It is learned that he was in this vicinity as late as last Saturday, but a search of his premises, it is said, failed to reveal any trace of him. The premises had been vacated. The county holds a deed of trust to the farm, upon which stands a new dwelling and outhouses, which, together with the 80-odd acres of land, are said to be worth more than \$2,000. Furthermore, it will be noted, the country is rid of Williamson.—Harnett County News.

To the Hog Raiser

As you know, it is absolutely impossible to fatten a hog when fattening time comes unless he is properly cared for during the dry, hot summer. And it is very necessary that he has the right kind of feed to keep him in a healthy and growing condition. And it has also been proven that I, without a doubt, have the only real hog feed on the market today. That is PIG CHOW. There has lately been quite a change in the analysis and ingredients, both are as follows:

Protein ----- 20.0 per ct. Fat ----- 3.2 per ct.
Carbohydrates ----- 52.0 per ct. Fiber ----- 8.0 per ct.
Ash ----- 6 to 7.0 per ct. Nitrogen, Free, ex. 46.0 per ct.

First, compare these analysis with the feed you are using, then notice what it is made from. The ingredients of this feed are as follows: Hominy meal digester tankage, cane molasses, old process linseed flour, alfalfa leaf flour, corn gluten, wheat middlings, salt and charcoal.

This is no doubt, the only real hog feed. It grows, fattens, and regulates and here are the ingredients it takes for all three. For growth: Alfalfa leaf flour, digester tankage linseed oil meal and wheat middlings.

For fattening: Cane molasses, and hominy feed. For regulation, alfalfa leaf flour, cane molasses, linseed oil meal, charcoal and salt.

Each and every bag of this feed is guaranteed to give entire satisfaction or money refunded. I will allow in exchange for this feed, 75 cents per bushel for corn.

If you can't remember the name just call for hog feed in the checkerboard bag.

No War Tax
Effective May 5, 1922, the Excise Tax on United States Tires for passenger cars, both casings and tubes is absorbed by the makers and is not added to the selling price.

Never before could you get so much tire worth for \$10.90

AR-OWNERS who bought a 30x3 1/2 "U.S." for \$10.90 last Fall have discovered this by now—
Nobody before ever got so much tire value in the neighborhood of ten dollars.

They never had to question the quality—with the makers of U. S. Royal Cords behind it.

They couldn't help admiring the price—spontaneously made to meet the new economy times.

A tire that would be high value at more than \$10.90.
At \$10.90 it is unapproached.
