WE GET THE AGENT
Through the combined efforts of Harnett L. Godwin and the Chamber of Commerce Harnett's commissioners have been persuaded that the welfare of the county depends upon their employing a firm demonstration agent, and we are assured that such an agent will be on the job by September.

We have the further assurance that if the agent employed does not prove satisfactory, he can be fired on thirty days notice.

The Dispatch likes this feature and it gives fair warning that if the agent does not find that there is an eastern end of Harnett pretty soon after he arrives in Lillington his services will not be acceptable to this part of the county.

THE WEEVIL BEAR US
Every day now we see news dispatches from the counties bordering Harnett telling the world about the invasion of the boll weevil. And wherever he has appeared in numbers, the crop is going to the low water. There isn't any guess work about what the weevil will do to next year. He will be here. There is no doubt about that. We can't stop him. If there is any chance of stopping him, it will be by the use of insecticides.

FARMER IN POLITICS
Every once in a while we see some fellow advising the farmer to keep out of politics. But we cannot understand why he should.

Why not advise the stockholders of corporations to have nothing to do with the election of officers and directors who run their business for them.

The farmer has as much business in politics as anybody else has. He should make politics one of his principal concerns. It is through politics that the farmer is governed; that his crops and his lands are taxed. It is through politics that, to some extent, the prices of his products are affected.

FINE PROGRAM FOURTH OF JULY AT UNIVERSITY OF N. C.
Chapel Hill, July 4.—The Fourth of July was celebrated by the University Summer School students with

a rich program of stunts and exercises put on in Memorial hall by delegations from the various colleges and schools in the state, and students from the States of Georgia, South Carolina, and Virginia. The program also included a procession headed by the figure of Uncle Sam, represented by Mr. G. L. Sawyer, of Gastonia, Carolina, represented by Miss Doria Taylor, of Roxboro, and Columbia, represented by Miss Hulda Hester of Chattanooga, Tenn.

The first two weeks of the Summer Session closes with work in all departments rapidly under way, and a student body of more than 1,500 seriously down at it, some working for normal and some for college credit, many in the Graduate School studying in some special field.

The Teacher's Bureau, is proving indispensable to the teacher students and those preparing to be teachers. It is rendering a service that is available nowhere else, in placing so many students in desirable positions, and in like manner furnishing so many school teachers they are looking.

The recreational side of summer school life is this year receiving considerable attention. Two swimming pools, one in the gymnasium, and one near town, are affording swimming advantages during the hot weather, and proving thoroughly enjoyable in the afternoons. Dances each Saturday night in the Gymnasium, under the supervision of the social committee, are attended by all students interested in terpsichore and are splendid social events. Other entertainments are being given throughout the session.

Field Day exercises will have their place in this session of the University Summer School, according to an announcement of Miss Henrietta Manning, director of Physical Culture, and for the past nine years a member of the Summer School faculty. A whole day will be devoted to events of this nature with the students participating. Miss Manning has a class of 222 women this year, which is larger than ever before. When she began teaching this work in the Summer School her class was composed of 25 members.

Both members of the Playmakers, as directors. This play will be presented at an early date in the Forest Theatre in Battle Park which has been used for the past several summers each session for presentation of Shakespeare plays.

The opera Faust will be staged by the Department of Music, under the direction of Prof. John Paul Weaver, as a part of the elaborate musical festival arranged for July 25 and 26. Miss Julia Clousen will also appear on this program.

NEW ENGINE WILL SAVE BIG GAS BILL
Syracuse, N. Y.—Pay five and one-half cents for a gallon fuel oil.

Put in the gas tank of your auto. And travel 300 miles. You can do that with a new oil engine, just perfected here by H. H. Elmer, the inventor says—and tests bear out his claim.

Experts who've flocked here to inspect the new device declare it will turn the automobile world inside out and may bring automobile travel within the reach of the poorest.

Besides, they predict, it will cheapen transportation and cut down the prices of many manufactured articles, for the engine can be used to operate machinery as well as to run an automobile or truck.

The new engine is simply a device for separating that power from the other elements in the oil and converting it to productive end. Starting features of the engine are: Entire mechanism consists of but three adjustments. It can be run at 3,000 revolutions a minute and can be throttled down to 100 revolutions almost instantaneously.

A single-cylinder, three-horsepower model has run 18 consecutive hours on 20 ounces of fuel oil. Engines built for the heaviest work will weigh only 350 pounds. Auto engines of other types often weigh 600.

It will be 60 per cent cheaper to produce than engines used now. It requires no spark, carburetor or other kind of ignition. "The engine is a marvel of simplicity," Elmer says. "When you realize a Diesel engine has 12,000 parts you'll know it means something to simplify an engine to 64 parts, including all screws."

Elmer expects to have his engine on the market within 60 days. He will manufacture five different types.

B. Y. P. U. PROGRAM
First Baptist Church, Monday evening, July 10, at 8 o'clock. Subject: Bible Study Meeting—Great chapters.

NOTICE OF STOCKHOLDERS MEETING
At a meeting of the directors of the Roanoke and Salem Railway Company held in Clinton, N. C., after three days notice thereof having been given to each of the Directors, and at which all members of said Board were present, and their meeting was called for the purpose of passing upon the following resolution, the following resolution was unanimously adopted by said board.

Resolved by the Board of Directors of the Roanoke and Salem Railway Company:
1. That in the judgment of said Board of Directors it is deemed advisable and for the benefit of said Roanoke and Salem Railway Company that said corporation be dissolved.

That notice of the adoption of this resolution be mailed to each stockholder of said corporation residing within the United States, to his last known post office address, giving the date and place of a meeting of said stockholders for the purpose of passing on the resolution, and that notice shall be published in a newspaper as required by law.

The above notice is given for the purpose of obtaining the consent of all stockholders, who have not mailed in to the office of said company in Dunn, N. C. their request for the dissolution, as requested at a meeting at Piney Green, Sampson county, December 20th, 1921, and each stockholder who has sent in said request, will not be required to attend this stockholders meeting, as their consent is now in the office of said company in writing.

This is the 3rd day of July 1922.
C. S. ROYAL, President of the Roanoke and Salem Railway Company.
JESSE P. WILSON, Sec.

Your Salary
is what you are worth to the boss.
The amount you save is what you are worth to yourself.
You may be worth a great deal to your boss but if you waste your earnings and fail to save a part of them, you are worth little to yourself. Your means are frittered away and you can not even buy the things you really want.
The man who wants to be worth a great deal to himself is one who lives as he wants to live, creates or commands his opportunities and such a man needs and appreciates the value of a savings account.
This bank is open from 9 a. m. to 3 p. m. Every courtesy to new and old depositors.

When You See That Label You Know You Have the Goods
FOR TWENTY-FIVE years the Sandhill Fruit Growers have been perfecting the peach. Now they are able to offer fruit that is without a rival they are able to offer fruit that is without a rival anywhere on earth. The pack of 1922 goes out with that distinguishing label, and that label identifies the Sandhill Redskin.
The U. S. Standard Fancy No. 1 Sandhill Redskin Peach
Is what all other fruit will be compared with this summer. It is the 24-carat measure that will test all the rest, for it is the highest grade the government sets, and the most rigid system of inspection will see that no peach goes out under that brand that does not have the quality.
To put an inferior peach in a package with the Redskin label is the gravest crime in the Sandhills, and forty inspectors are watching to see that it cannot be done. Practically the entire orchard acreage is in the Fruit Growers' Association, and the association has issued emphatic instructions that no inferior fruit shall be brought to the packers of the fancy brands.
You buy Redskin label peaches with the assurance that you buy the best. The association is doing more than try to sell peaches. It is trying to make a peach that will sell itself. And it is succeeding wonderfully.
Fruit Men and Grocers have a great chance to tie in with a best seller. Communicate with the Secretary.
THE SANDHILL FRUIT GROWERS' ASSOCIATION
Aberdeen, N. C.
A strictly Co-operative Organization.
