

**B. Y. P. U. PROGRAM FOR OCT.**

E. M. Slaughter, Group Leader.  
 Subject:  
 Topic: Bible Study Meeting II  
 Thessalonians I.  
 Scripture Reading—II Thessalonians—Mrs. W. D. Holland.  
 Introduction—E. M. Slaughter.  
 Talk—Paul's prayer for these Thessalonians—Miss Gertrude Price.  
 Song—Group No. 2.  
 Talk—The good qualities of those Thessalonian Christians—their faith—Miss Katherine Allen. Their love—L. W. Strickland. Their steadfastness—Perry Godwin.  
 Duet—Miss Sallie Naylor and Mrs. R. L. Denning.  
 Talk—God will punish their enemies.  
 Talk—The two classes of guilty people. (1) Them that know not their God—Miss Jessamine Starling. (2) Them that obey not the Gospel—Miss Ruth Westbrook.  
 Talk—The nature of God's vengeance on the day of Judgment—Miss Lelia Currin.  
 Trombone Solo—E. M. Slaughter.  
 Talk—The nature of the Christians' future bliss—Miss Janie Ipoek.

Your exhibit at the fair will help boost a community enterprise and will advertise your product. Advertising in your local papers pays for the same two reasons.

**Collapse of Coal Combine**

For the present, industry seems to have put a crimp into the plans of the coal controllers for a wholesale looting of the public. A single protest brought the unholy edifice of price exploitation tumbling about the profiteers' heads. The protest was, as must always be expected, viciously misinterpreted. The sob cry was diligently persisted in by the capitalistic organs until it became positively nauseating. Interest that had deliberately arranged to wring the last dollar out of the families of America by maintaining all through the winter the menace of empty bins and fireless homes, were suddenly consumed with sympathy for the poor workingman when industries closed down in protest rather than submit to the unspeakably wicked robbery which had been designed upon the American people. Interests that would have kept the country on curbed fires and would have made fuel the biggest item in this winter's family budget, pretended to be melted into pity for the poor employes who sacrificed \$25 in wages to save \$150 on their coal bill. It is the typical old bunk, but this year it was very badly stage-managed, in that it was directed against the wrong target.

The effect of the industrial protest was immediately felt. At the time the warning was given that in three weeks a mammoth industry would have to close unless coal conditions

improved, coal was selling to manufacturers at as high as \$9 a ton. When the announcement was made, the price wavered a little. Then came the cry that it was only "bluff," a statement which arose in the same quarters when the "sympathy" cry afterward came, and for the moment the high coal price was strengthened again. \$5.50. On Tuesday it was \$4.50. A

Then, as the earnestness of the protest became apparent (nothing is harder for the exploiters to understand than a straightforward, honest statement) a break became noticeable. Coal climbed down to \$8 and \$7. The Saturday of the shutdown it reached \$6.50. On Monday it was \$5.50. On Tuesday it was \$4.50. A

week later, at this writing, it is off to \$3. If bought on contract (which also plays into the hands of the profiteers) it can be had at \$2.50. The rapid collapse of prices shows the artificial nature of the whole situation. There was always plenty of coal. The scarcity was made-

leave. The only dangerous moment came when the government created a real scarcity by announcing "control" of distribution. The coal problem then became an acute transportation problem. When, as a further course, see that the domestic coal market gets just as immediate an attention. There was always plenty of coal. The scarcity was made-

LIGHT-SIX SEDAN  
\$1550

**Studebaker**

Let Us Show You the Difference!

Vibration is destructive. It shortens the life of a car. It takes the pleasure out of riding because it causes rattles, squeaks and other irritating noises.

Vibration is particularly annoying in closed cars.

There is no perceptible period of vibration in the Studebaker Light-Six at any speed. This is due in part to Studebaker's method of machining the crankshaft and connecting rods on all surfaces. No other car, at anywhere near the price, follows this practice.

Lack of vibration and the quiet, smooth-running motor and quick approval from everyone who rides in the Light-Six Sedan.

And every driver is similarly enthralled.

astic over the way it throttles down to a walking gait in high gear—and the quick response that follows the touch of the accelerator.

Aside from its mechanical excellence, the Light-Six Sedan is notable for its sterling coach work. The substantial body, like the chassis, is built complete in Studebaker plants. Materials and workmanship are of highest grade.

Long, semi-elliptic springs and deep, restful, nine-inch cushions afford genuine comfort. Upholstery is of a rich, mohair velvet plush—good-looking and durable.

Today's price is the lowest at which the Light-Six Sedan has ever been sold.

The name Studebaker on your car is the best protection you can have!

Standard motor, light-ray clock, self-cleaning windshield wipers, hood ornament, door locks, door weatherstripping, door weatherstripping, door weatherstripping.
