KNOW NORTH CAROLINA
Going Some
In Chairman Frank Page's little
chat Monday night to 30,000 people
over the radio-phonograph, he told them
that the state's road building results
daily in two miles of hard surface and
three of other construction, and that
the building from first to last re-
quires 18,000 men.

A FITTING TRIBUTE
Dunn is proposing to erect a hos-
pital there as a memorial to the late
McD. Holliday. We know of no
more fitting tribute that could be
paid to the memory of such a man as
Holliday, super-citizen and genius of
public spirit that he was. If he
might have a voice in the selection of
a memorial to his service to his com-
munity, we doubt not that he would
choose a hospital, because he always
had a heart full of sympathy for his
fellowman.

STATE POULTRYMEN TO
EXHIBIT DEC. 13 TO 16
Greensboro, Nov. 16.—The joint
poultry show of the North Carolina
Poultry Association and the Central
Carolina Poultry Association, to be
held here on December 13, 14, 15 and
16, is expected to bring together the
finest, most comprehensive collection
of blooded birds ever seen in the
South Atlantic states.

tence passed on a defendant in Su-
perior Court Friday led to a petition
by Citizens of Masonboro township,
where the crime was committed, that
Judge C. W. Connor, presiding, re-
consider his decision in the case of
William McClammy, negro, sentenced
to three years imprisonment for the
killing of Dallas Ripley, negro, there
last week when McClammy "shot up"
a dance hall, and Ripley was hit by
a wild bullet.

License
Auto Drivers?
What is responsible for the great
number of automobile accidents?
Usually accidents can be traced to
one of three causes—inexperience,
intoxication or disregard of the traf-
fic rules and common courtesy of
the road.

FOR SALE
Purina feed of all kinds and with-
out many good things that has been
said, here is proof that the checker-
board feed is bound to be in the
lead.
I sold year ending September 30th,
1922, 4,531 bags. This is proof
enough if nothing else was said that
it is the leading feed of today. Of
course much has been said about the
results people have gotten from pig
chow, cow chow and poultry feeds
but there has never been much said
about O-Molene for hard worked hor-
ses and mules. O-Molene is by far
the greatest horse and mule feed that
can be obtained, giving best results at
the lowest cost. Watch for some
strong testimonial ads from others
who are using it.

"BE YE HEALED"
Since the fall of man and his con-
sequent detrimental effect upon the
physical being, man have sought
means of healing. In all ages suffer-
ing humanity has sought relief from
the diseases to which sin has made
flesh the heir.
By the exercise of faith, a very
large number have found in-
stant relief from every kind of dis-
ease in prayer to God. When Christ,
the second person in the triune God-
head was on earth he was much
sought after for his healing power
and it was said of Him that He never
refused a single earnest applicant for
physical or spiritual relief. His power
is supreme. Why do we not all go
to Him for healing? Because, He has
left us with certain duties to per-
form in His name and for His sake;
among them is the duty of carrying
relief to the suffering, help to the
helpless, comfort to the sorrowing
and provisions to the destitute, pray-
ing always for the guidance of His
Spirit so that nothing may hinder His
blessing which alone will make our
feeble efforts of any avail. While He
is able to heal by the miraculous pow-
er of His word He has shown us by
his own act that the use of temporal
means in treating disease is not con-
trary to His Will. Read St. John
9:6-7. Then if we wish to serve Him,
the logical thing to do is to use the
means at hand to show our faith.

Clinton, Nov. 20.—Mr. and Mrs.
John Smith, of this place, were both
struck and knocked down by an au-
tomobile last night about half past
seven o'clock. The automobile was
driven by a man named Strickland,
who had just bought it and who was
said to be unfamiliar with its opera-
tion.

Forty Thousand
Idle Dollars.
Thanks to a clause in the contract
signed by the Carolina Power and
Light Company through which the
company was permitted to retire its
indebtedness to the town ten years
ahead of maturity, the municipal
government has \$40,000 in hand with
which it knows not what to do. The
money is idle, and the town finds it-
self much like a little boy who dis-
covers that his penny savings bank
can be opened before Christmas. It
is just itching to spend the money
which burns its pockets.

FORD IS THE RICHEST
OF MEN, PAPER SAYS
New York—Henry Ford is the rich-
est man in the world, according to
an article published today by the Wall
Street Journal.
"Henry Ford has in the Ford Mo-
tor company the largest income and,
if capitalized, the largest fortune in
the world," said the newspaper.

Still, after buying these bonds,
there would be left another \$20,000.
That should not be permitted to lie
idle. The Home Building and Loan
Association an institution founded
solely to promote home building, re-
turns about six and a half per cent
to its stockholders. Why should not
the town, in whose interests this as-
sociation works, invest \$20,000 in its
stock?
Soon, too, the school district is to
sell \$40,000 in school bonds. Why not
buy them?

Even a Republican congress unites
to add to the Ford wealth. The com-
pany paid more than \$50,000,000 in
federal taxes in 1921. Because of the
abolition of the excess profits levy, it
will pay only \$16,000,000 in 1922.
The Fords are \$34,000,000 richer,
though if they were to draw the riches
out they would pay more than 50 per
cent additional in person income tax-
es.

BOB WHITE, FARMER'S FRIEND
As the hunting season approaches,
death awaits numbers of our partici-
pates unless the farmers call a halt
and issue a decree that these friends
of theirs shall be protected. It was
recently pointed out to us that the
partridge is an enemy of the boll weev-
il and certainly if this is so, hunters
and farmers alike will endeavor to
protect these birds. "Bob White" is
not a bird of passage. He does not
migrate from a colder to a warmer
climate in winter, but if undisturbed
will remain in the same vicinity for
several years in succession.
