CASH IN ADVANCE

Address all communications to The Dispatch, All departments of The Dispatch can be reached through telephone 123.

Communications upon live topics are invited, but under all circumstances the reader of such communications must furnish with his name, it is not necessary that the name be published, but we insist that it be given as an evidence of good faith.

Short accounts of weddings, entertainments, club meetings, etc., are invited.

COMMUNITY PRIDE

To the visitor within our gates or to a native returning from other sections nothing is more noticeable or impressive than the community pride exhibited and exemplified by the citizens of Dunn. And why not?

We have practically every agency that works for the betterment of making and for civic and moral advancement. We have ten churches, their spires pointing heavenwards, with able and consecrated men at the helm to assist us in curbing our passions and providing for our spiritual welfare.

The Chamber of Commerce, though yet a youngster, has accomplished many things of which we are proud and our latest acquisition the Building and Loan is bringing wonderful things to pass.

The carnival including the "48", came and went. It came by permission of the City Fathers and left the same way. We have not yet learned whether or not they "auspiced".

These are busy days hereabouts. The stores and thoroughfares of the Best Town are daily crowded with throngs who have learned the wisdom of doing their Christmas shopping early and better still of doing it at home with their neighbors who contribute to their welfare and happiness.

As the joyous season approaches folks generally become imbued with the Yuletide spirit and, to the casual observer, both old and young seem to have had a few shots already. The small boys scamper along in happy anticipation, the "sweet young things" almost effervescent with excitement.

Today we grasped the hand of our old friend, Mr. Nathan Duncan, originally from our sister county of Sampson and a brother of Dunn's Chief of Police in days past.

Many friends of this section were saddened when it became known that Mr. J. E. Tew was dead—a victim of his own hand.

Perhaps there are some of our readers who have not heard of the Halfway House. No, sister, it isn't a road house where Pleasure Seekers keep stop to Jess but the peaceful domicile of "Big Boy" Kasey where the cooling of the E. C. Loghorns and Bull Oryingtons blends with the chirping of the mocking birds and swallows.

"Big Boy" was formerly engaged in the plumbing business here but some time ago he returned from one of his pilgrimages to the Mystic Shrine with a lot on his stomach and more on his mind.

Our wish for him is a million; he deserves it, and more.—Harnett county News.

Impossible For Next Crop Owing To Scarcity of The Material (N. Y. Commercial.)

The most satisfactory check upon the boll weevil thus far employed is calcium arsenate. Unfortunately this article is scarce and expensive.

"In order to show the measure of relief which may be expected next season it is necessary to give some thought to the question of the present available supply of raw arsenic.

The American Smelting and Refining Company plant at Tacoma has a maximum output of seven tons per day.

The American Smelting and Refining Company plant at Murray, Utah, East Helena, Mont., and Leadville, Col., have a combined maximum output of ten tons per day.

Our wish for him is a million; he deserves it, and more.—Harnett county News.

production. He loses no sleep over the price of tobacco and fears of the Boll Weevil are to him unknown.

We have heard confidentially that ministers are in the habit of keeping their shock absorbers well adjusted but a magnificent thing occurred last Sunday morning at the First Baptist church when the congregation presented to Rev. E. N. Johnson, the pastor, a brand new "base" as a token of their appreciation of his splendid ministry for the past year.

The carnival including the "48", came and went. It came by permission of the City Fathers and left the same way.

DUKE NEWS

Bank, Dec. 11.—Mr. and Mrs. L. Thomas entertained the members of the Junior Epworth League of the Methodist church at a very enjoyable party given at their home Saturday night.

The Junior Order of United American Mechanics Lodge here served a very delicious and appetizing "Dinner Stew" to their members and several invited friends Saturday night in the lodge rooms.

Miss Minnie Ryals and mother, spent the week-end with relatives at Benson.

Miss Etta Williams of the graded school faculty, is confined to her home at Linden by illness.

Mr. and Mrs. E. L. Hassel, were week end visitors in Raleigh.

J. Morgan Davis of Butler, Pa., is spending several days here on a hunting trip, the guest of Wade H. Coffey.

The latest acquisitions to the Erwin Park Zoo are "Tom and Jerry" reputed to be South American badgers, which were purchased by the park management from a carnival show.

Miss Addie Holder and Mr. W. T. Cameron wed Saturday at noon at the residence of Rev. C. R. Ross, in Lillington, Miss.

Studebaker There Is No Substitute for Quality When you buy a house you make sure that the foundation, the walls and the roof are constructed for permanence. Buy a motor car in the same way. The sturdy body of the Studebaker Light-Six Sedan is an admirable example of substantial body-building. It is constructed of the finest materials and with a high degree of craftsmanship to give years of satisfactory service—no makeshift construction merely to meet a price. Eight stout ash pillars, from floor to roof, insure permanent strength and rigidity. The four wide-opening doors are a real convenience in getting in and out. Broad windows provide clear vision in every direction. Seats are of generous proportions with deep springs to give lasting comfort. The upholstery is of mohair velvet plush, as durable as it is attractive. The heater will give warmth and comfort on cold days. The Light-Six has proved its reliability on the highways of the world. The ample power, quietness and remarkable flexibility of its motor are a source of continuous satisfaction. It is easy to handle in traffic. Constant gear shifting is unnecessary because it throttles down to a walking pace in high gear. Vibration, which is so annoying in cheap cars, is virtually eliminated. The low price is due to complete manufacture by Studebaker in one of the most modern and complete automobile plants in the world. Middlemen's profits are eliminated and the savings are passed on to the buyer. The name Studebaker stands for comfort, quality and durability.
