 Three Months .50
 CASH IN ADVANCE

Address all communications to The Dispatch. All departments of The Dispatch can be reached through telephone 168.
 Communications upon five topics are invited, but under all circumstances the sender of such communications must furnish us with his name. It is not necessary that the name be published, but we insist that it be given as an evidence of good faith.
 Short accounts of weddings, entertainments, club meetings, etc., are invited.

MR. BRITT COMES TO DUNN

Mr. F. Grover Britt, recently elected secretary of the Dunn Chamber of Commerce, arrived here yesterday to assume his duties in that capacity. Mr. Britt comes to Dunn from Lumberton, where for the past 10 years he has been business manager and local editor of The Lumberton Robesonian. He will also be associated with The Dispatch, dividing his time between the duties connected with the work of the Chamber of Commerce and work on the paper.

Mr. Britt expects to move his family here Monday of next week, and will live in the Bixzell residence, West Broad street. The Lumberton paper, with which Mr. Britt severed his connection to take up the work here, carried the following editorial in its issue of Monday, January 29:

"A change will be made in The Robesonian's staff on February first. Mr. Grover Britt, who has been local editor and business manager of the paper for the past ten years has accepted the position of editor of The Dunn Dispatch and secretary of the Dunn Chamber of Commerce, and he will be succeeded on The Robesonian by Mr. Hal V. Brown of Fairmont.

"Mr. Britt became known to Robesonian readers as 'Happy Jack' by correspondence from Mt. Elin before he became connected with the paper, also as field representative. When an opening came he naturally stepped into it, and has been with the paper ever since. He has been faithful, has done good work on the paper, steadily increasing in usefulness, and The Robesonian parts with him with genuine regret, wishing for him, and expecting him to achieve, success in his new field.

"Mr. Brown needs no introduction to Robesonian readers. He has for more than a year done good work as Fairmont correspondent of this paper and on special work occasionally. He knows Robeson county and its people, among whom he has lived all his life, and The Robesonian is fortunate, since it has to lose Mr. Britt in securing to take his place another Robeson county young man who is fitted by training and ability to step into the position thus made vacant."

DEVELOPMENT EDITION

The Lumberton Robesonian came out last Monday with a 64-page "Robeson County Development" edition, which portrays in a creditable manner the vast resources of "the State of Robeson." What the county of Robeson now has in the way of rich soil, industrial, enterprising, schools, shipping facilities and churches and the possibilities for continued advancement along all progressive lines is told in this special edition of the Lumberton paper.

Not only is "Dunn the best town under the sun," but it is one of the largest, cotton markets in North Carolina. A total of 20,400 bales of 1922 cotton had been sold or 'pooled' in the Co-operative Marketing warehouse here prior to February 1, according to Mr. W. T. Royal, local public cotton weigher. Approximately 22 bales of cotton is being marketed here daily and Mr. Royal thinks at least 25,000 bales of last year's cotton crop will be sold on the Dunn market.

The largest number of bales marketed here during any one day of the rush selling season was 296. That number of bales were marketed here one day during the month of September 1922.

It's just as easy to boost as to knock, and who is it that wouldn't rather be a booster than a knocker? Boost your home town.

If you cannot boost the town or community in which you live, it's time to move to another.

Dunn needs an we hotel, and needs it now.

"POSTERITY" AND POPPYCOCK

There is no discounting the prevalence which brought Governor Morrison his recent rebuke to the reactionaries who are professing love for the State and allying desire to see its great development program carried on, but who are at the same time selling against "posting a debt on the posterity." It is strange how gently educated these reactionaries have become about the welfare of "posterity." To listen to their argument one might suppose that the people of today are deliberately planning the bankruptcy of the people of tomorrow. This "posterity" talk has become childish. Some of the leaders engaged in it are of the class commonly referred to as "peanut politicians." The Observer believes that all there is back of it is political preference. The anti-bond talkers do not have so much at heart the welfare of the State as they do their possible political advancement at some future time. In issuing bonds for highways, public education, development of State commerce and caring for the State's unfortunate, the people of today are not passing on a burden to the people of another generation—"posterity," as the reactionaries are saying. In any county now recently equipped with good roads evidence to combat the contention is to be found by any one inclined to look for it. The roads are paying for themselves when the State system is yet in its infancy. Even before the State is connected up from one county seat to another, the roads are liquidating their own debt. Where a father of "posterity" today is worth one dollar, posterity, itself, will be worth anywhere from ten, twenty, fifty and even one hundred dollars by reason of wealth created by good roads. In short, where the people of today are able to pay one dollar, "posterity" will be able to pay fifty and a hundred-fold.

The explanation is that public litigation endures but for a day while obnoxious goes on forever.—Rocheater Times-Union.

The 1922 award for public factory should go to the New York bargainer who raised a poet's apartments.—Long Island City Star.

BUY THE FAMOUS
"VANCE FISH BRAND"
FERTILIZERS
 MADE BY
VANCE GUANO WORKS
 Henderson, North Carolina
 Ex-Sheriff W. H. Turlington, Local Salesman
 This fertilizer is made of the best materials money can buy. The crops raised in this and other sections of the State have been most satisfactory. It pays to use good fertilizers, especially at this time when we want to raise a large crop of cotton under boll weevil conditions.
 I want all my friends to see me before buying their Fertilizers for the coming season.
W. H. Turlington, Duke, N. C.
