SAYS NOTHING IS NOW IMPOSSIBLE

Scientific Authority Details Wonders To Members Chemical Club

Durham, Feb. 16. — Aeroplanes soaring down over orchards and spraying them with a liquid which will carry death and destruction to insect and fungi growth; automobiles running more miles on smaller quantities of fuel; gardening made a thing of beauty and joy forever by lessened labor; liquid fuels; and even the world and the people therein working as a harmonious whole were pictures in the realm of possibility through scientific research as painted last evening by Dr. H. E. Howe, of New York, speaking before the North Carolina section of the American Chemical Society and the Crowell Scientific Club at Trinity college. Dr. Howe is editor of the "Journal of Industrial and Engineering Chemistry," publication of the American Chemical Society and the Crowell Scientific Club at Trinity College. Dr. Howe is editor of the "Journal of Industrial and Engineering Chemistry," publication of the American Chemical Society, and as such speaks as one having authority on the subject of research. Forty chemists from various institutions and towns of the State, augmented by a number of Trinity College students heard the address.

Step by step Dr. Howe briefed the case for scientific research. He showed how the chemist had made it possible to produce 4,000 pounds of sugar to the acre where formerly only 300 had been produced; how the laboratory hermits had finally made a silk yarn out of raw silk in contradiction of the world-known statement of the impossibility and how each year 10,000,000 pounds of artificiality; and how grain alcohol was secured from sawdust and with profit during the war.

When it came to radio and wireless telephony, Dr. Howe waxed enthusiastic and predicted that scientific principles now being employed in radio telephony would eventually lead to the control of large masses of matter through the qualities of the vacuum tubes which go into every wireless telephone set.

In the realm of medicine, Dr. Howe predicted that eventually the chemist will be able to build molecules by order as the carpenter now follows the blue print in erecting a house. He declared that prescriptions, having taken note of the disease to be combated, would specify the style of molecule desired in the composition of the remedy.

DUKE NEWS

Duke, Feb. 19.—The Girls' Friendly Society held a very delightful Valentine party last Wednesday night in their club rooms at the library. Different games were played by those present with the "Hearts," which had been made. All present report that an enjoyable time was had by everyone.

M. M. McDonald, superintendent of farms for the Erwin Cotton Mills Co., here left Monday for Atlanta, Ga. where he will attend the Boll Weevil Convention. This convention has been called for the Southern States for the purpose of seeing whether any method may be found for the eradication of the pest. The weevil is perhaps the most discussed subject at this time among the farmers in these parts, who have been very skeptical as to the outcome of this year's crop of cotton and who are also uneasy because they have their profits upon cotton, which is the principal crop. Mr. McDonald's trip is of vital importance to the farmers and they earnestly hope that he will be able to learn some way by which they may be able to thwart the self-devoted pest.

E. R. Thomas spent the week end in Durham with his family.

E. L. Hamed is spending several days in New York and other Northern markets for the purpose of buying spring and summer goods for the Hamed-Johnson Co.

Miss Pearl Lucas is getting along nicely in the Good Hope Hospital after having undergone an operation for appendicitis.

The Duke High School basketball team defeated the strong Duke's Creek team here last Saturday by the score of 25 to 21. Woodworth and Fowler starred for the local team

with their spectacular work, while the other members also performed creditably. A large crowd witnessed the contest.

DUNN, ROUTE ONE

The past week has been one of activity. Everybody was busy hauling fertilizer and preparing land for spring planting, but this cold weather has caused some halt in this activity. Some think that this cold spell will freeze many boll weevils. Some have been found in the cotton fields the past week, and they seemed to be dead, however they may awake from their Rip Van Winkle, when warm weather comes.

Rev. J. A. Campbell, of Bules Creek, filled his regular appointment at Spring Branch Sunday evening, using as his subject: "The transforming power of prayer."

Miss Lucy Naylor, student at State School, Salemburg, spent the week end with her mother, Mrs. J. T. Naylor.

Rev. G. A. Bain, filled his regular appointment at Mount Elam Sunday.

Jrof. J. M. Page, of Dismal, attended preaching service at Spring Branch Sunday.

Rev. W. M. Page of Bules Creek, attended services at Spring Branch Sunday. He was on his way from Clement Baptist Church, where he is Pastor. He is a member of the faculty at Bules Creek Academy.

Miss Mollie Mae Hawley, was the guest of Miss Lucy Naylor Sunday.

Mr. Hugh Carroll was the guest of Mr. Winston Naylor Saturday night.

Miss Lucy Floyd, who has been on an extended visit to friends and relatives in South Carolina returned home Saturday.

Mr. E. L. Tart a progressive young man of this community was married to Miss Page of Godwin the past week. We wish for them a happy and prosperous voyage upon the sea of life together.

A great deal of interest is being taken here in a bill introduced in the General Assembly by Representative T. E. Owen, to put the officers of Sampson on a salary, and abolish the fee system. Many men of both parties believe that Sampson has passed the stage of the old fee system. Both Mr. Owen and Mr. Hobbs, made their campaign on this issue last fall and both promised to work for this change if elected. There seems to be little opposition manifested except by the office holders.

Mingo Camp No. 363 W. O. W. held an interesting meeting Saturday evening. This was a business meeting and the auditors report showed that the Camp is in good condition.

A project for a railroad to run from Dunn to Clinton is being discussed here. If the plans come to a head this township (Mingo) will be asked to vote bonds to help build the road. No definite plans so far have been fixed, however, we believe that there is great demand for the road.

SIMPLE SCRIBE.

Feb. 19, 1923.

"UNLUCKIEST" MAN IN UNION COUNTY

(Monroe Journal.)

Mr. J. C. Austin, of Marshville township, has probably had more bad luck than any other living man. He is unquestionably a child of misfortune, but to meet him on the street one would think he was the very personification of good humor. "Yes," he said yesterday in response to an inquiry from the writer, "I suppose in a way I am the unluckiest man in the world. But I'll never complain so long as I continue to enjoy my accustomed good health and retain the ability to work and out more than any of my neighbors." Mr. Austin has forgotten his many trials and tribulations prior to April, 1921, but beginning with that date he enumerated to the writer the following misfortunes: "To start with, a valuable Guernsey bull, which I had been offered \$5,000 for, swallowed a feed bag and died. In October 1921, seventeen of my blue ribbon heifers were burned to death in a railroad fire near Rockingham. My automobile, being driven from Oakboro to Marshville by my daughter, caught fire. It was a total loss. The month following, while I was away from home, a spark from the pipe of one of my hired hands set fire to my barn. It went up in the flames along with a number of blooded heifers, entailing the loss of \$5,000. Then to cap the climax, I contracted blood poison from a cut I received in my leg while raking hay."

A BIRTHDAY PARTY

Miss Elizabeth Thornton entertained a number of her friends in honor of her twelfth birthday at her home Wednesday afternoon. The spirit of Valentine day was artistically carried out, the color scheme being red and white.

As the guests entered the hall they were delightfully entertained by a guessing contest which consisted of a jar of sandy hearts. The lucky guesser was Mrs. E. D. Bunn, whose guess was 151 hearts in the jar.

They were next engaged in the shooting of cupid's heart. Eliza Moseley Hatcher with the skill of a little Indian girl pierced the heart nearest the center with her bow and arrow, winning the prize.

Next the guests were ushered into the dining room. In the center of the table was a large birthday cake, decorated with red hearts and candles. This was enjoyed very much. After this sandwiches and cream were served.

Those enjoying Miss Thornton's party were: Mrs. E. D. Bunn and Misses Louise Clifford, Ruth Bell, Mary Lovie Floyd, Mary Bell Bass, Marie Gaine, Eliza Moseley Hatcher, Edith Gray Wade, Julia Baggett, Annie Dove Wilson, Catherine Womble, Vivian Jeffreys, Inez Pridden, Frances Purdie, Ruby Bailey, Margaret Lucas, Dorothy Driver, Doris Gardner, Vera Lee Thornton, and Louise Brewer; Masters Paul Cooper, Duncan Wilson and Connelly Pridden.

RAILROAD REPORT THAT HAS EXCITED

When one comes to think about it, there is very much more to the Norfolk Southern than the main line that runs across-State from Charlotte to Norfolk. That company holds lease on the Atlantic and North Carolina, from Goldsboro to Beaufort and its branch lines traverse many eastern counties. The information that the Pennsylvania had bought the Norfolk Southern, or had laid plans to take it over, had rapidly spread throughout eastern North Carolina. This fact was manifested in the way in which people gathered at Raleigh make inquiries about the deal. The first question, they ask of the Charlotte visitor at the Capital City is in connection with the report. They lose sight of politics, altogether. What they want to know is if it is "so." Elisabeth people say if it is, then the happy day is on the way when they will have Pullman service between their town and Charlotte. The Norfolk Southern is capable of tremendous possibilities with Pennsylvania's money back of it.—Charlotte Observer.

M. R. Beaman of Raleigh Monday was elected secretary-manager of the Lee County Chamber of Commerce. Mr. Beaman was formerly secretary of the Raleigh Chamber of Commerce and later was secretary of the North Carolina Traffic Association.

LEGAL ADVERTISING

NOTICE Under the power of sale contained in a mortgage deed executed by H.

P. Johnson and L. H. Draughon on the 10th day of February 1920 to the undersigned mortgages which mortgage deed is recorded in Harnett County in Book 118, page 565, default having been made in the payment of the notes secured thereby, the undersigned will expose to sale at public auction to the highest bidder for cash at the court house door, Lillington, Harnett county, N. C., at 12:00 M. on Friday, March 9, 1923 the following described property: A certain piece or tract of land lying in Averettsboro Township, Harnett county and State of North Carolina and described and defined as follows, to-wit: Being a portion of Lots Nos. 9 and 10 in the division of Lot No. 3 in Block "L" according to the plan of the Town of Dunn, N. C., bounded on the north by Cumberland Street, on the East by Culbreth Street, on the south by lot now owned by Z. V. Snipes, and on the west by lot sold off by these grantors to Smith and Prince. Being lot of land fronting 90 feet on Cumberland St., and running square back with Culbreth Alley 60 feet. Said lot being ninety (90) feet by sixty (60) feet. This February 3, 1923.

P. T. MASSENGILL, Mortgagee.

February 6 13 20 27.

NOTICE My adopted son, "Aaron Langston McLean" has left home and I hereby forbid anybody feeding, sheltering or harboring him. This Feb. 3rd, 1923. J. AARON McLEAN. Feb 6 13 20 27 pd.

NOTICE OF SALE By virtue of the terms of a certain Mortgage Deed executed by T. L. Pearson, which mortgage deed is duly registered in Book 108, page 289 in the office of the Register of Deeds of Harnett County, default having been made in the payment of the note secured by said mortgage deed, the undersigned commissioner, mortgagee, named in said mortgage deed.

will on Friday the 16th day of March, 1922, at 12 o'clock M., offer for sale at public auction at the courthouse door in Lillington, N. C., for cash, the following lands in Harnett county, to-wit:

Lying on the waters of Hughes and Middle Prong Creeks in the fork of said creeks, near Bules Creek Academy, and known as the Ferguson entry, adjoining the lands of Charles Bain, William Pearson, Frances Gregory and others,—beginning at a stone corner on the knoll with white oak pointers in the line of the so-called McCraigs land and a corner of the Pearson and McKay land, and running thence N. 59 degrees and 30 minutes east 20 chains with the McCraigs line to his corner; thence N. 27 degrees and 45 minutes West 17.18 chains to a red oak in the swamp of Middle Prong Creek, Byrd, Gregory and McKay's corner; thence S. 4 degrees and 45 minutes E. 3.43 chains to a stone corner in the side of the road leading from Pearson's

to Bules Creek Academy, it being Pearson's and McKay's corner; thence S. 22 degrees and 30 minutes West 23.50 chains to the beginning, containing 18 acres, more or less, the same being the lands described in a deed from John A. McKay, Sr. to George Preston McKay and Leon Edward McKay, dated the 7th day of September 1904, registered in Book 163, page 338, of the records of Harnett County, the calls and distances in the description herein given as per survey made by Geo. E. Prince, surveyor, in January, 1920.

The successful bidder will be required to deposit with the undersigned 10 per cent of his bid before the sale is closed as evidence of the good faith of his bid. Balance of purchase money to be paid upon delivery of deed.

This the 13th day of February, 1923. J. C. CLIFFORD, Commissioner, Mortgages. Feb. 13 20 27 Mar 6.
