E. J. NOBLES,

Dunn, North Carolina

SCHOOL BUILDING DEDICATED HERE ON FRIDAY NIGHT
(Continued from page 1.)

new negro school building is the best equipped building in Harnett, he said, adding that some others now under construction will probably be just as well equipped when completed. Mr. Clifford declared that he felt good over what he had attempted to do for the colored population of Dunn in the erection of the new building, which he said came in answer to the aspirations of the past and was a reality of former dreams.

Prof. Snipes stated that he was just as proud of the new school building as were the negroes. The building, he said, was the result of work and prayer. He urged the parents of the importance of keeping the children in school every school day and appealed to them to make the new school building a social center for the colored population.

Mr. Grantham spoke words of encouragement to the negro, declaring that there is a great deal of good in the colored race. He urged that they get it into their minds and keep it there that they live in the best State in the Union, in one of the best counties in the State, and especially that they live in one of the very best towns in the State and among a good people. This idea, he said, will lead to success. The new building, Mr. Grantham said, is worth all the efforts to get it completed. He appealed to the faculty to teach honesty, economy and thrift to their pupils. The speaker took occasion to pay his respects to the late Chas. B. Aycock. He stated also that he felt a keen interest in the colored people and in their schools.

Prof. Viner took occasion to express his appreciation to The Dunn

Dispatch for the aid and assistance it has rendered and for the fact that it set only publishes the bad things the negro does, but the good things as well.

Several patrons of the school made short talks, in which they expressed their delight at the completion of their new building and their appreciation of the assistance rendered by the white people of Dunn in securing it.

Coming as a climax to the evening's program, a delightful hot lunch, prepared by the teacher and pupils of the home economics class, was served the white people present. The lunch was well-prepared and showed that good and effective work is being done in that branch of the school.

This new building, which is a credit not only to the negro population of Dunn, but to the town as a whole, is a modern brick structure, containing 14 class rooms, a home economics room and an auditorium which will seat 500 people. The auditorium is fitted with opera chairs, conveniently arranged. The building is steam-heated throughout, has running water with drinking fountains and is equipped with electric lights.

Vocational agriculture is also taught in connection with the school. The school site contains 10 acres of land and a total of 1,350 bushels of sweet potatoes were grown on 5-acres of the land last year. These potatoes were cured, or dried, in a model potato-house built by members of the manual training class of the school. While a few of the potatoes have been sold already on the local market at \$1 per bushel it is planned to ship the major portion of them to other markets, probably in car-load lots.

A manual training shop has also been erected on the grounds and a

teacherage has been erected to house the faculty. Pupils are admitted to this school from all parts of Harnett without paying tuition and the enrollment for the spring term totals 576.

The school is under the direction of the board of trustees of the Dunn public school district, composed of: J. C. Clifford, chairman, Marvin Wade, secretary-treasurer, J. W. Draughon, O. F. Pope and A. F. Surice, and under the direct supervision of Prof. W. S. Snipes, superintendent of the schools of the district.

True economy on the farm starts with self support of the farm family.

Have you signed the pledge? If not ask your school teacher for one of the blanks recently sent out by the Agricultural Extension Service. It will help every farmer to live at home this year.

NOTICE
Under the power of sale contained in a mortgage deed executed by H. P. Johnson and L. H. Draughon on the 10th day of February 1920 to the undersigned mortgagee which mortgage deed is recorded in Harnett County in Book 116, page 555, default having been made in the payment of the notes secured thereby, the undersigned will expose to sale at public auction to the highest bidder for cash at the court house door, Lillington, Harnett, county N. C., at 12:00 M. on Friday, March 9, 1923 the following described property:

A certain piece or tract of land lying in Averasboro Township, Harnett county and State of North Carolina and described and defined as follows, to-wit: Being a portion of Lot No. 9 and 10 in the division of Lot No. 3 in Block "L" according to the plan of the Town of Dunn, N. C., bounded on the north by Cumberland Street, on the East by Culbreth Alley, on the south by lot now owned by E. V. Snipes, and on the west by lot sold off by these grantors to Smith and Prince. Being lot of land fronting 90 feet on Cumberland St., and running square back with Culbreth Alley 60 feet. Said lot being ninety (90) feet by sixty (60) feet.
This February 3, 1923.
F. T. MASSENGILL,
Mortgagee.

February 6 13 20, 27.

NOTICE OF SALE
By virtue of the terms of a certain Mortgage Deed executed by T. L.

Reardon, which mortgage deed is duly registered in Book 108, page 289 in the office of the Register of Deeds of Harnett County, default having been made in the payment of the note secured by said mortgage deed, the undersigned commissioner, mortgagee, named in said mortgage deed, will on Friday the 16th day of March, 1923, at 12 o'clock M., offer for sale at public auction at the courthouse door in Lillington, N. C., for cash the following lands in Harnett county, to-wit:

Lying on the waters of Hughes and Middle Prong Creeks in the fork of said creeks, near Bules Creek Academy, and known as the Ferguson entry, adjoining the lands of Charles Bain, William Pearson, Frances Gregory and others, beginning at a stone corner on the knoll with white oak pointers in the line of the so-called McCrairie land and a corner of the Pearson and McKay land, and runs thence N. 59 degrees and 30 minutes

east 20° chains with the McCrairie line to his corner; thence N. 27 degrees and 45 minutes West 27.18 chains to a red oak in the swamp of Middle Prong Creek, Byrd, Gregory and McKay's corner; thence S. 4 degrees and 45 minutes E. 3.43 chains to a stone corner in the side of the road leading from Pearson's to Bules Creek Academy, it being Pearson's and McKay's corner; thence S. 22 degrees and 30 minutes West 23.60 chains to the beginning, containing 18 acres, more or less, the same being the lands described in a deed from John A. McKay, Sr. to George Preston McKay and Leon Edward McKay, dated the 7th day of

September 1904, registered in Book 163, page 338, of the records of Harnett County, the calls and distances in the description herein given as per survey made by Geo. E. Prince, surveyor, in January, 1920.

The successful bidder will be required to deposit with the undersigned 10 per cent of his bid before the sale is closed as evidence of the good faith of his bid. Balance of purchase money to be paid upon delivery of deed.

This the 18th day of February, 1923.

J. C. CLIFFORD,
Commissioner, Mortgagee.

AVERY Chilled Plows

Rightful Leaders

AVERY Chilled Plows are leaders simply because they are really better in many important ways. Avery design is the result of nearly a century of plow-making. Avery plows are built in the finest, most complete and modern plow factory in the world. Scientific accuracy in the selection and testing of materials insures strength, durability, and almost perfect work. Avery repair parts always fit perfectly any Avery Chilled Plow of same size ever made. And because they cannot work loose they seldom break. The Avery "lock that locks"—to be had only on the Avery—

holds the plowshare in place no matter how long in use; and relieves strain on bolts. Guaranteeing as shown is attached to every genuine Avery Chilled Plow. This guarantee does not make an Avery Chilled Plow any better, but it is our written pledge of quality to all buyers and users.

Avery Chilled Plows are protected by important patents; therefore all repair parts we sell our customers are always genuine and always covered by the Avery Guarantee. Call on us for all the facts about this famous plow.

There is a full line of famous Avery mowing, riding and tractor plows, sillage implements, and Champion harvesting and hay machines.
