COMING SPRING, WE NEED YOU

While there are thousands of miles of highway in the United States some "hoop" don't like to give you an inch of road.

You say that you would like to see the highway between Dunn and Duke hard-surfaced. Then tell it to the proper authorities.

New cotton mills springing up on every side, together with increased pay for operators, would indicate that we're headed for "normalcy."

Many fruit crops are pronounced "killed" in their infancy. Here's hoping the 1933 crop will be "raised from the dead."

Somebody has predicted that this is to be a "summerless year." We'll admit that so far it has been springless, but before August is ended a change will be noted.

Along with the gladness of Easter come sadness. The sadness was brought about by the weatherman in that it was not a day suitable for displaying new spring clothes.

The fact that a new cotton mill is to be erected at Duke should not result in the people of Dunn losing interest in locating one nearer by. In fact, it should add impetus to the project.

The Tullington bill makes it just as important for the buyer of whiskey to use discretion in selecting the dealer as for the seller to use it in selecting his customer.

The death of Prof. W. F. Massey, associate editor of The Progressive Farmer, will bring genuine regret to thousands of farmers throughout the South.

The giant still of 150-gallon capacity captured in the western part of Harnett county Friday was capable of quenching many a thirst and the loss to the owners was heavy.

There is, it seems, a general impression hereabouts that the highway between Dunn and Duke is to be hard surfaced. Yet contract for this work has not been let and the contract is not included in those to be let today.

It appears that Harnett county should be entitled to at least a few miles of hard-surfaced roads, as a part of the State-wide good roads program.

The "Wets" have inaugurated another program. This time they are organizing the National American League, the membership fee being \$1. One-half of this goes to the membership officer and the other \$0.50 to the national organization.

TREATING 'EM RIGHT

Bankers and merchants in Scotland Neck demand meat and corn as collateral for loans and credit. A sign which reads, "No credit here unless you have meat in your smokehouse and corn in your crib," hangs on the doors of the banks and stores.

A SPLENDID REQUIREMENT

"We require all our tenants to plant plenty of corn, and other food and feed crops to take care of the home consumption," said W. A. Erwin, Sr., treasurer of the Erwin cotton mills at Duke.

We have known instances where the landlord would move to town and rent his lands to other people, not allowing them to plant but very few acres in corn and other food and feed crops.

A SEVERE INDICTMENT

The Charlotte News suggests that when we come to the conclusion that things are not going just as they should, and when everything seems dead wrong, we might consider the following statistics as a reason:

We spend every year \$2,100,000,000 for tobacco; \$1,800,000,000 for movies; \$2,000,000,000 for candy; \$1,950,000,000 for perfumes, cosmetics, etc.; \$500,000,000 for jewelry; \$350,000,000 for furs; \$300,000,000 for soft drinks; \$50,000,000 for chewing gum; \$5,000,000,000 for joy rides, pleasure resorts and the like.

And these statistics cause the News to remark further that where one's treasure is there one's heart is also. The above statistics would indicate, therefore, that we have little heart, proportionately at least, for those things that would bring about the conditions we desire, the social conditions, the political adjustments, the moral stamina, the religious steadfastness and all those more permanent attainments that we know in the innermost depths of consciousness.

are alone worth while. The figures represent a tremendous indictment against the people of this country in the mere matter of their stewardship, a frustration of the purposes for which wealth was intended that is enough to make us blush not only but to be appalled by the one-sidedness of our heart interests.
