WAS LAST SUNDAY EASTER, OR NOT?

Postmaster W. D. Holland has figured it out that next Sunday is Easter and that the observance of Easter

ou last Sunday was an April fool. Easter falls on the first Sunday following the first full moon after Mar. 21, and Mr. Holland says the moon did not become full until yesterday morning. There has been a difference of opinion as to whether or not Easter fell on last Sunday or next Sunday, and owing to the unfavorable weather which last Sunday brought if next Sunday brings weather more ideal for Easter why not have it over again?

Is Ready to Help Fight the Boll Weevil

To assist our patrons who need funds with which to diversify crops and to provide means for combatting the boll weevil, we will make loans commensurate with the needs of our patrons and consistent with safe banking. We do not feel justified, however, in extending loans to farmers whose sole dependence is on cotton and who are not willing to use approved methods in fighting the pest.
